REVISED ANNUAL REPORT TEMPLATE

The purpose of this revised Annual Report template is to address the need expressed by a number of municipalities for assistance in the preparation and development of improved content and quality of Municipal Annual Reports. This template provides an update to the MFMA Circular No. 11, issued in January 2005.

This template gives effect to the legal framework requirement, concepts and principals espoused in the White Paper on Local Government and Improving Government Performance. It reflects the ethos of public accountability. The content gives effect to information required for better monitoring and evaluation of government programmes in support of policy decision making. The template provides an improved overview of municipal affairs by combining the performance report data required under Municipal Systems Act Section 46 with annual report data referred to in that Act and in the MFMA.

The revised template makes its contribution by forging linkages with the Integrated Development Plan, Service Delivery and Budget Implementation Plan, Budget Reforms, In-year Reports, Annual Financial Statements and Performance Management information in municipalities. This coverage and coherence is achieved by the use of interlocking processes and formats.

The revised template relates to the Medium-Term Strategic Framework particularly through the IDP strategic objectives; cross cutting nature of services offered by different spheres of government, municipal service outcome indicators; and the contextual material as set out in Chapters 3, 4 & 5. It also provides information on good management practice in Chapter 4; risk management in Chapter 2; and Supply Chain Management in Chapter 5; and addresses the Auditor-General's Report, dealing with Financial and Performance Management arrangements in Chapter 6. This opens up greater possibilities for financial and non-financial comparisons between municipalities and improved value for money.

The revised template provides information on probity, including: anti-corruption strategies; disclosure of financial interests by officials and councillors; disclosure of grants by external parties, disclosure of loans and grants by municipalities. The appendices talk to greater detail including disaggregated information on municipal wards, among others. Notes are included throughout the format to assist the compiler to understand the various information requirements.

The financial years contained in this template are explained as follows:

- Year -1: The previous financial year;
- Year 0: The financial year of reporting;
- Year 1: The following year, mostly requires future targets; and
- The other financial years will follow a similar sequence as explained above.

We wish to express our gratitude to the members of the Annual Report Reference Group, consisting of national, provincial and municipal officials for their inputs and support throughout the development of this document.

CHAPTER 1

– MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR'S FOREWORD

On behalf of the Mandeni Municipality, it is with great honor and humility that we present the 2022/23 draft annual report that contain the achievements and appreciate challenges experienced by the Municipality during the said financial year. The 2022/23 financial year marks the second year of the cycle of the Integrated Development Planning five-year cycle. In our endeavor in eradicate poverty and under-development and improve the quality of life for our community, the directive of Mandeni Municipality is not unique to the broader mandate given to local government by South African Constitution, reflected in chapter 7 which is Local government The only uniqueness we have are different legitimate expectations of our citizen. Further chapter 10 of the constitution that is public administration s195(d) states that services must be provided impartially, fairly, equitable and without bias therefore Mandeni Municipality remains committed to democratic governance to ensure that our short, medium and long-term strategies, priorities and plans are implemented effectively and efficient.

Therefore, as the Municipality we are committed to render good services to communities

such as transformation of the lives of our people, clean governance as well as implementing creative and innovative ways to ensure that our service delivery targets are effectively and efficiently achieved. This report will highlight the municipal performance in light of six municipal Key Performance Areas.

This includes; Municipal Transformation and Institutional development, Basic Service Delivery, Local Economic Development, Good governance and Public Participation, Financial Viability and Management and Spatial Rational and Environmental Management.

The municipality in 2022/23 financial year strived to function and provide essential services such as water, sanitation, electricity and solid waste removal, these are imperative services as enshrined in RSA constitution under bill of rights. Mandeni Municipality planned a number of projects such as electrification, roads, solid waste and recreational facilities

108 households were provided with electrification infrastructure dry connections in Dendethu/Wetane Project in ward 5. Furthermore, 105 households were provided with electrification infrastructure dry connections in eHlanzeni wards 7 in 2022/23 FY. The electrification project planned in Okhovothe and Emhlangeni was delayed due to SCM challenges and processes. Hence the project was not completed. It will be completed in 2023/24 FY.

Despite those challenges' municipality managed to ensure the safety of community is prioritized through the installation of 6 high-Mast lights in wards 3,5,9,11 and 12.

Municipality also constructed a community hall in ward 13 to ensure that there is an improvement of Community infrastructure.

There was further prioritized through upgrade of rural gravel roads Phase 4(b) in ward 6 as well as Manono road in ward 15. This was significant in ensuring that the Batho Pele principles are taken into consideration. The municipality also continued to improve the

road infrastructure where the target of 1700 square meters of potholes maintained was set in the beginning of the FY and achieved 1729.2 square meters. repaired and maintained in-house are prioritize so that public from rural areas have an access to roads, that are in satisfactory standard, the target of 300 Km that was set at the beginning of 2022/23 financial was over achieved with 373.1 KM. The municipality further ensure that safety of the community is taking into consideration, 25 speedhumps were constructed in ward 3,7, 13;14 and 15

The municipality managed to successfully procured Outreach Library Park-home to ensure that community have access to education hence Chapter 2 section 29 of the RSA constitution states that everyone has the right to acquire basic education including the adult education. A consistent waste collection activity from all 18 wards as per the approved collection schedule, is still rendering these services effectively efficiency, in order to promote sec 24 of the Constitution which states that everyone has a right to get environment that is not harmful to the health and well-being. As well as procurement of Crew Cab and Cherry picker. The grass cutting was also achieved where the empowering local contractors to perform such services in all Mandeni wards. A target of 7100458 square meters were set at the beginning of the financial year, however an overachieved of 8122178 square meters. further 15 skip bins were procured and delivered in ward 4,7 & 18. This adds the cleanup campaign that conducted, as well as annual target of 262 collections of waste removal was achieved, however there are still serious challenges in surrounding the overall cleanliness of Mandeni, therefore this was combatted by 15 skip bins that were procured and delivered in ward 4,7 & 18.

RSA constitution s 24 states that everyone has the right to adequate housing. The municipality therefore targeted the construction of 200 RDP houses in wards 8,9.11.12,16, 17 and 18, However, only 73 houses were constructed. This was due to deliberations and process to appoint local subcontractors wishing to participate in the construction of units.

In terms of job creation through infrastructure projects, EPWP the municipality managed

to employ 684 participants were recruited. The municipality also maintained its consistency in term of ensuring that the completion of the PMS Assessment tool, as part of the requirements by the Provincial COGTA were submitted timeously with competence being noted.

Municipal staff were also empowered during the financial period under review with officials undertaking minimum competency training as well as training in their specific fields. The municipality fosters and encourages a learning environment in order to pursue education to staff. In terms of governance, the municipality ensured that the Audit Committee and Performance Audit Committee and the MPAC were fully functional and achieved their legislative mandates.

The municipality has successfully managed to conduct all IDP roadshows and has successfully drafted and adopted the full IDP which include all relevant stakeholders as per the requirement set forth in the Municipal Systems Act as well as the Municipal Finance Management Act.

Furthermore, there was also a successful program conducted for youthful drivers and education. 684 jobs were created through LED/EPWP initiatives.

Municipal staff were also upskilled during the 2022/23 FY with officials undertaking minimum competency training as well as training in their specific fields through 100% utilization of the Workplace Skills Plan (WSP). Mandeni Municipality will ensure that one of its valuable resources, i.e., its staff, is highly valued and supported. Training, personal development, career-pathing, talent management, coaching, mentoring, Individual Performance Management and Employment Assistance Programs are some of the specific interventions that will need to be enhanced.

Under Municipal Financial Viability and Management, the municipality ensured compliance through the submission of all monthly reports, section 72, section 52 (d) to all relevant stakeholders such as National Treasury, COGTA, etc. The adjustment budget was

also tabled to ensure that smooth operation of projects was conducted.

As the municipality, we, as ever, understand the importance of maintaining a successful financial system. In this regard we have ensured that 100 percent of our creditors are paid within 30 days.

In terms of the municipal financial status, ratio of cash and cost coverage sustained was targeted 1:3 months. The municipality achieved 1: 9 months. The municipality performed well with the expenditure of MIG and Library Grant with 100% achieved. 104% of the operational budget was spent. However, INEP was not achieved with an actual of 89% due to poor performance by contractors.

I would like to reiterate the support of the council working in conjunction with the administration of the municipality in transforming the lives of our people, by implementing practices of good governance, working with integrity, honesty and transparency and maintaining a financially viable organization that delivers on its promises of quality service delivery to all people residing within Mandeni Municipality.

Mr. T.P Mdlalose

Honourable Mayor

.

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

MUNICIPAL MANAGER'S OVERVIEW

COMPONENT B: EXECUTIVE SUMMARY

MUNICIPAL MANAGER'S OVERVIEW

As the Accounting Officer of Mandeni Municipality, I hereby confirm that the 2022/23 Annual Report has been compiled in accordance with the Local Government Municipal Finance Management Act (No. 56 of 2003) read in conjunction with the Local the National Treasury MFMA Circular No.63.

Let me commence with extending my gratitude, by thanking the staff, councilors, members of the communities and stakeholders for the support and commitment shown in 2022/23 financial.

The intention of the annual report is to reflect various projects carried out for the entire period of 2022/23, and the departments provide detailed feedback on performance against targets to various stakeholders including the community, government departments and other interested parties.

We achieved several service delivery goals as well as increase in performance and financial management of our municipality. We have sustained unqualified audit with matters, though our intention is to achieve unqualified audit opinion without matters. In the previous financial year, the municipality acquired the same audit opinion.

The report also further ensures Batho Pele principles are considered accordingly where principles such as openness and transparency, access, information are upheld, and the clients of the municipality are informed of the decisions that were taken in this period under review. This report originates from the approved Municipal Strategic Objectives and Service Delivery and Governance Priorities as contained in the approved Municipal Integrated Development Plan.

The Municipality ensured that following significant objectives were effectively and efficiently met.

- ❖ To bring new Leadership (Administration and Political) with speed on the Municipal Strategic approach and direction and further solicit new ideas and inputs in advancing the Municipal Mandate of quality and sustainable service delivery.
- ❖ To improved monitoring and evaluation method for sustainability for creating the synergy between Municipality function and Batho Pele principles such as service standard.
- ❖ To acknowledge successes and failures or challenges and thus review the strategies in effort to maintain focus by the Municipality in attainment of its long-

term vision.

- ❖ To take stock of progress made in implementing the Municipal Five-Year Strategic Document (Integrated Development Plan)
- ❖ To monitor and modify key service delivery focus areas for the remaining period this term of office of Council.
- ❖ The Municipality ensured that their staff embarked on transparency and accountability through the cascading of individual performance management. This has ensured that each employee has taken full responsibility for their daily operations and duties. Hence, the Corporate Services department has appointed an IPMS Officer.
- ❖ The municipality has ensured that technology has been integrated with PMS in order to minimize costs by introducing an e-PMS System. This system will be paper-less and accelerate operational delays.
- ❖ Enhanced monitoring and evaluation approach by ensuring that several compliance measures during the 2022/23 financial year were taken into consideration. This was through compliance of all stakeholders, through submission of Annual Report, PMS Assessment tool, C88 Reporting template, section 72 reports, as well as annual performance report as per s46 MSA
- ❖ To ensure that the Municipal Strategic Business Plan (Integrated Development Plan) is in keeping with the new Strategic Development Agenda and new Legislative Frameworks hence credible and remain the main delivery mechanism for Quality Service Delivery.
- ❖ RSA constitution under bill of rights S24 states that everyone has the rights to acquire the environment that is not harmful to their wellbeing, therefore it is for that reason that the Municipality continues to strive and function essential services to the community.

- ❖ As the Accounting Officer of the municipality, I also ensure that the relevant legislation such as RSA Constitution and MFMA, MSA etc are implemented accordingly. Section 124 of the MFMA in conjunction with section 219 of the Constitution, stated that the disclosure concerning councilors, directors and officials this must be included to the AFS of the municipality which contain the information of salaries, allowance and benefits of political officer bearers and councilors of the municipality. Those benefits, allowance and salaries are crafted within the upper limits of the framework that is in section 219 of the Constitution.
- ❖ To ensure that the Municipal Strategic Business Plan (Integrated Development Plan) is in keeping with the new Strategic Development Agenda and new Legislative Frameworks hence credible and remain the main delivery mechanism for Quality Service Delivery.

The administration at senior management level concluded 2022/23 financial year with all senior managers, two senior managers join the last financial year Mandeni Municipality. Mandeni municipality works co-operatively in terms of sharing information with sector departments such as COGTA. COGTA assesses and guides the municipality with certain municipal operations. Provincial and national treasury activities such as assessing Section 72 reports (budget and mid-year) have also occurred before the 25th of January, during each financial year.

Departments such as agriculture, home affairs, Social Welfare and Human Settlement visit various wards to provide services through OSS programs (Operation Sukuma Sakhe). Grants are provided by Human Settlements to build RDP houses. As section 26 of RSA Constitution states that everyone has the right to access adequate housing.

The strategic planning session with our council has resulted in a service delivery plan which is already being implemented in all 18 wards in Mandeni. The plan is not an overnight fix but a short, medium and long term to ensure that all communities within

the Mandeni Municipal area have basic essential services.

Establishment of the Mandeni Municipality is as a category B Municipality. This is a municipality that shares municipal executive and legislative authority in its area.

The Municipality approved by-laws in order to guide the community to conduct their businesses. The top five strategic risks experienced by the Municipality are inability to redicate human settlement backlog, Inadequate maintenance of stormwater facilities, failure to ensure reliable and equitable provision of houses, Failure to ensure reliable and adequate supply of electricity within municipal distribution license area, Failure to attract and retain investors.

As the accounting officer of the municipality, one must address projects which highlighted educational approaches. The Municipality managed the procurement of an outreach library park home to ensure that everyone has the access to education in the community of Mandeni.

The procurement of several plant equipment during the financial year has solidified the objectives of ensuring the community has access to roads which are graded. This highlights the Batho Pele Principles of service delivery.

Several vacancies were also advertised and filled, thus, ensuring employment opportunities are made available and the youth of Mandeni are equipped with skills and experience through various internship programmes.

As the Accounting Officer, I have ensured that the municipal financial status, ratio of cash and cost coverage sustained was targeted at 1:3 months. Nonetheless, the municipality achieved 1: 9 months. This is a commendable achievement pointing to the financial status of the organization. The expenditure of MIG and Library Grant was achieved at 100%. 104% of the operational budget was spent. However, INEP was not achieved with an actual of 89% due to poor performance by contractors.

It is admirable to note the improvements in relation to our spending and expenditure patterns, but we need to do more. The existent excuse of lack of resource might be a sincere one, but the key question is how efficiently we use the resources at our disposal. It is clear from this annual performance report that we are moving in the right direction, although not there yet. It is of principal importance to synchronize our quarterly plans with quarterly targets to achieve our broader goals of an effective and efficient Local Municipality

The municipal overall performance as a result of these challenges remained satisfactory but all efforts shall be put in place to ensure that there is improved level and quality of service delivery to the Community with high level of speed.

Yours Faithfully

Mr. S. G. Khuzwayo

Municipal Manager

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

INTRODUCTION TO BACKGROUND DATA

Mandeni Local Municipality is located along the northern coast of KwaZulu-Natal approximately 50km north of eThekweni Metro and south of the uMhlathuze Municipality. It lies along the N2 National and Provincial corridor, as well as the north-south rail link connecting the economic hubs of Durban and Richards Bay. As such, the municipality is strategically located to provide services and derive economic benefits from these economic hubs. Mandeni Local Municipality is one of the four (4) local municipalities that make up the iLembe District. The other local municipalities are KwaDukuza, Maphumulo and Ndwedwe.

Mandeni Municipality covers approximately 545.48km² and is made up of 18 Electoral Wards. The municipality is predominantly rural in character, with Ingonyama Trust land accounting for the majority of its land mass. There are four Traditional Council areas within the municipality's area of jurisdiction, namely:

Map 1: Mandeni Locality Map

Mandeni Local Municipality has excellent regional transportation linkages with the national road – N2 – serving the province, the two major ports of Durban and Richards Bay, the railway line which serves as an important link between the ports as well as the hinterland parts of South Africa and the airports – both existing and proposed, including the Isithebe airstrip.

The identification of the eThekweni-uMhlathuze Corridor places Mandeni Local Municipality in an advantageous position as it is located in between these two municipalities. It stands to benefit hugely from economic activities that will accrue as a result of this initiative.

Mandeni Local Municipality also functions as an important service center for a substantial rural hinterland which lies to the west beyond the eNdulinde Hills. There are no other service centers in the tribal areas and therefore the urban center of Mandeni serves as an important sub-regional service center for the ‘shadow corridor of poverty’ which tracks the ‘development corridor’ along the coast. Mandeni is in fact arguably the only place along the coast where the development corridor and the shadow corridor of poverty meet, and hence the acknowledgement of its potential in the Provincial Spatial Framework.

Mandeni Local Municipality is made up of 18 wards. There are four Traditional Authorities namely, iNkosi uMhlongo, iNkosi uMathonsi, iNkosi uMcambi and Nkosi uNgcobo. The

majority of the land within the municipality is owned by Traditional Authorities. Some of the wards fall within these Traditional Authorities, such as Ward 1,2,8, and 9 which fall under Macambini Traditional Authority, ward 6,11, and 16 falls under eLangeni Traditional Authority and ward 5,7,12,13,14,15 and 17 falls under the Mathonsi Traditional Authority.

Informal settlements with limited to no facilities or infrastructural services occur on the periphery of the developed areas and within the Isithebe Industrial area and Sundumbili Township. This is also evident in the periphery of the well-established Sundumbili Township and Mathonsi tribal authority area eastwards of the hinterland. Village centres such as Wangu in the west and Nyoni in the north-eastern side comprise of commercial and service development in the two tribal authorities of Mathonsi & Macambini.

The Mandeni Municipality is strongly committed to develop its character as an area of scenic beauty and strong developmental contrasts. As a potential and growing tourist destination, it will enhance its visual and aesthetic appeal. The municipality aims at improving physical and functional integration by establishing a functional town center. The Mandeni municipality aims at increasing economic efficiency of the Municipal area and ensuring that there is improved investor confidence therefore attracting more development to occur within the area.

COMMENT ON BACKGROUND DATA:

The key findings were derived from Census 2022 conducted by Stats SA . Some of the data/information that was obtained is used for comparison purpose. The table below illustrates the population, sex and dependency ratio. The findings illustrate demographic profile from the national to local level (Mandeni Municipality).

Table 1.3.1 Population Details

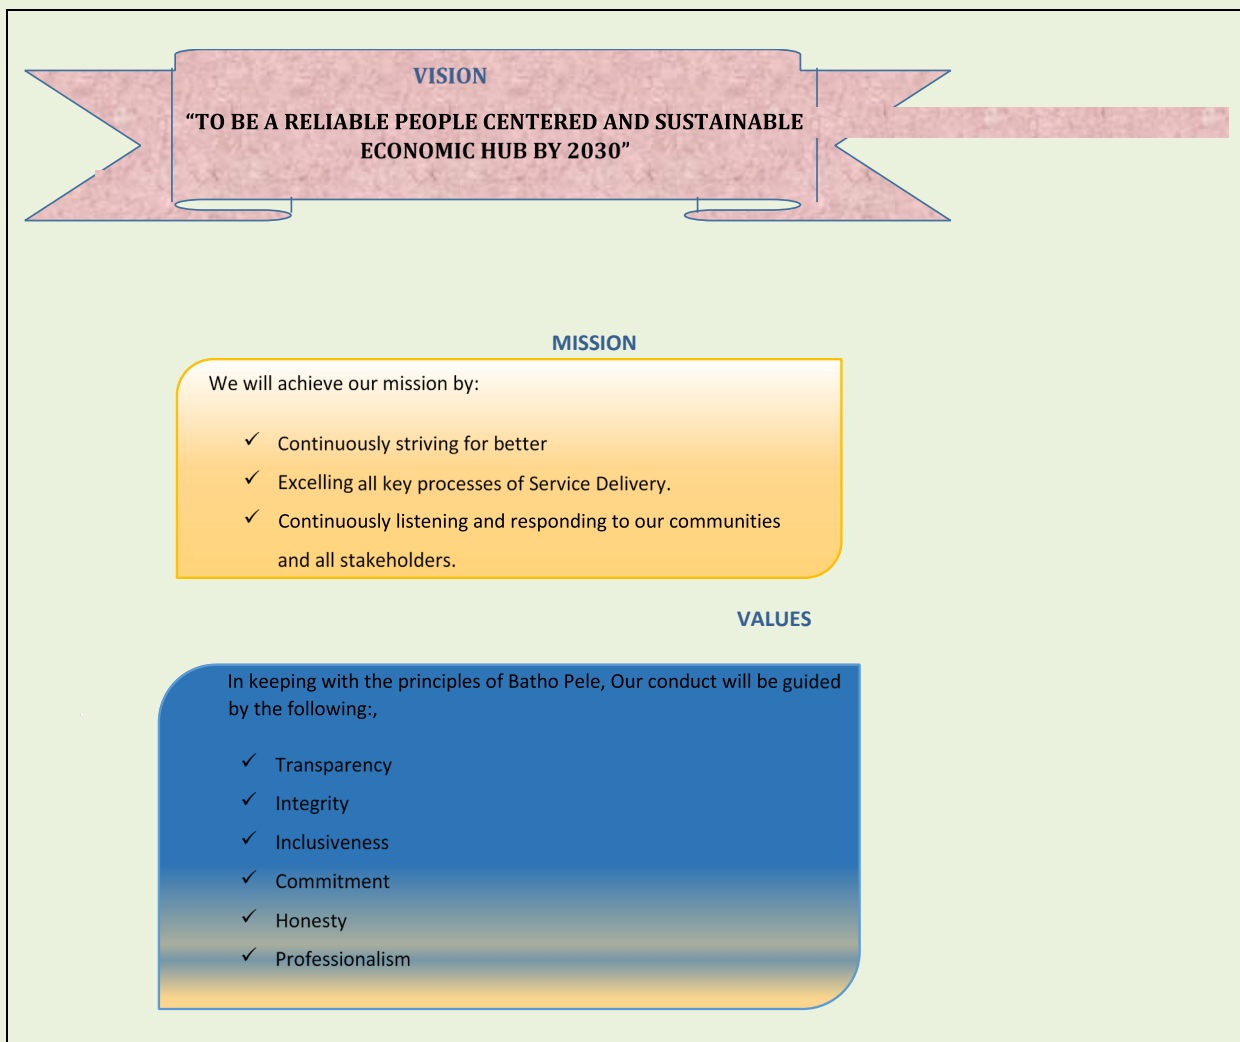

Indicator	Sub Indicator	Population	% of population
Population	Population	180939	
Population	Young (0-14)	55 095	30%

Composition	Youth (15-34)	64 900	36%
	Adults (35-64)	52 223	29%
	Elderly (65+)	8702	5%

85+	139	552

1.3 SERVICE DELIVERY OVERVIEW

SERVICE DELIVERY INTRODUCTION

The Technical Services Department (TSD) is primarily responsible for the maintenance, upgrade and provision of new municipal infrastructure assets and service delivery. It consists of the following divisions:

- Technical Administration/Planning and Projects (PMU);
- Roads and Storm Water Repairs and Maintenance;
- Parks, Verges and Open Spaces Maintenance;

- Municipal Buildings Repairs and Maintenance (Works);
- Electricity Distribution; Street lighting; installations and Mechanical Workshop.

The municipality has initiated a process towards the establishment of a Programme Management Unit (PMU) to create sufficient capacity within this department and reposition the municipality to deliver sustainable infrastructural services. The PMU will comprise of appropriately qualified, skilled and experienced personnel. It will manage all major capital projects, bring expertise, develop systems and procedures and transfer skills and knowledge to municipal staff to leave behind a well capacitated unit on exit.

Mandeni Municipality holds Infrastructure Development Summit started in November 2013 in order to bring together all relevant stakeholders from varying sectors of society to engage and discuss the infrastructure related challenges facing the municipality and identify possible solutions. Solutions were identified; programs and action plans were developed to help the municipality to achieve its true potential. The recommendations have been incorporated into the organizational strategy.

COMMENT ON ACCESS TO BASIC SERVICES:

All formal households have access to basic civil engineering services. Informal areas within the urban edge have been provided with a minimum level of basic services since 2007. The provision of services to the informal areas is as a result of rural-urban migration and new family formation which makes planning difficult. An assessment is made annually to determine the backlogs to be addressed based on available funding. Theft and vandalism disrupt the provision and maintenance of services.

Even though Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section on Free Services shows that the amount spent on Free Basic Services and the revenue cost of

free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs.

1.4 ORGANISATIONAL DEVELOPMENT OVERVIEW

ORGANISATIONAL DEVELOPMENT PERFORMANCE

The Organizational development function falls under the Human Resource Section. Its main objectives are: To manage organizational design and business modelling, co-ordinate culture and change management, administer job descriptions, job evaluation system management, and to develop and maintain an effective employee performance appraisal system and awards process.

The organizational strategic performance however sits in the office of the Municipal Manager, with functions of providing Strategic Scorecard provides the Council with a measurable tool enabling them to fulfil their oversight role in overseeing strategy implementation and consist of the following key elements:

- Strategic Outcomes
- Strategic Key Performance Indicators
- Strategic projects

This document, the Mandeni Municipality Employment Equity Plan (EEP) is prepared in conjunction with the requirements of the Employment Equity Act 55 of 1998' hereinafter referred to as the Act, the associated Regulations and Codes of Best Practice. The (EEP) addresses all aspects of Affirmative Action measures defined by the Act, to redress the disadvantages in employment experienced by designated groups in order to ensure their equitable representation in the all-occupational levels and levels in the workforce.

The Mandeni Municipality Employment Equity Plan (EEP) which covers the period of 2012 to 2018 is prepared in conjunction with the requirements of the Employment Equity Act 55 of 1998' hereinafter referred to as the Act, the associated Regulations and Codes of Best

Practice. The (EEP) addresses all aspects of Affirmative Action measures defined by the Act, to redress the disadvantages in employment experienced by designated groups in order to ensure their equitable representation in the all-occupational levels and levels in the workforce.

1.5. STATUTORY ANNUAL REPORT PROCESS

The Municipal Finance Management Act No. 56 of 2003, Chapter 12, prescribes that every municipality must for each financial year prepare an annual report in accordance with this Chapter. The council of a municipality must within nine months after the end of a financial year deal with the annual report of the municipality and of any municipal entity under the municipality's sole or shared control in accordance with section 129. The purpose of an annual report is –

1. to provide a record of the activities of the municipality or municipal entity during the financial year to which the report relates;
2. to provide a report on performance against the budget of the municipality or municipal entity for the financial year; and
3. To promote accountability to the local community for the decisions made throughout the year by the municipality or municipal entity.
 - 3.1 The annual report of municipality must include –
 - 3.2 the annual financial statements of the municipality, and in addition if section 122 (2) applies, consolidated annual financial statements, as submitted to the Auditor-General for audit in terms of section 126 (1);
 - 3.3 the Auditor-General's audit report in terms of section 126 (3) on those financial statements; and
 - 3.4 The annual performance report of the municipality prepared by the municipality in terms of section 46 of the Municipal Systems Act.

The accounting officer of a municipality must prepare the annual financial statements of the municipality and, within two months after the end of the financial year to which those statements relate, submit those statements to the Auditor-General for auditing and the accounting officer of a municipal entity must prepare the annual financial statements of the entity and, within two months after the end of the financial year to which those statements relate, submit those statements to the parent municipality of the entity and the Auditor-General for auditing. The Auditor-General must audit those financial statements and submit an audit report to the accounting officer of the municipality or entity within three months of the receipt of the statements.

The mayor of a municipality must, within seven months after the end of the financial year, table in the municipal council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control. The council of a municipality must consider the annual report of the municipality or municipal entity, and by no later than two months from the date on which the annual report was tabled in council, adopt an oversight report containing council's comments on the annual report which must include a statement whether the council-

1. Has approved the annual report without reservations;
2. Has rejected the annual report; or
3. Has referred the annual report back for the revision of those components that can be revised.

In order to give effect to the above legislative requirements, Mandeni Municipality adheres to the table above in order to ensure the communities of Mandeni Municipality are able to view the contents of the Annual Report on time; the table serves as a strict and legislated guide.

The 2022/23 Financial Year rendered the municipality an unqualified audit with matters as confirmed by Auditor General reports though there was a lot improvement hence

Municipality acquired three findings. The Municipality has developed comprehensive interventions to address these challenges and will be monitored through relevant structures, which is attached in terms of circular 63 of the MFMA in chapter 6.

CHAPTER 2

– GOVERNANCE

INTRODUCTION TO GOVERNANCE

CHAPTER 2

INTRODUCTION TO GOVERNANCE

The nature of governance within the Municipality is such that it is spread in four major components with various structures exercising some authority and accountability in various levels. The following depicts the governance components:

- Political Governance Structure, this governance structure deals with the political governance of the Municipality through Political Office Bearers, Council, Committees;
- Administrative Governance Structures, this governance structure on the other hand focuses on the administration and management of the Municipality is vested in the Municipal Manager who is the Accounting Officer. The Municipal Manager is assisted by the Senior Management Team of the Executive Managers. The Municipal Manager is tasked with the establishment, development and management of sound and effective municipal administration;
- Intergovernmental Relations, the Executive Mayor is the custodian of the intergovernmental relations fora. There are various structures that have been established at the local and provincial level to promote engagement between Municipalities, Sector Departments, State Entities, and etc;
- Public Accountability and Participation, the Mayor assisted by the Municipal Manager is responsible for the community engagement and participation in the affairs of the Municipality, such as IDP, budget processes, public meetings/Mayoral Izimbizo, etc;
- Corporate Governance, the Municipal Manager assisted by Senior Managers is responsible for the Corporate Governance of the Municipality. This entails risk management & anti-corruption and fraud, internal audit, Supply Chain Management, Oversight Committees, Policies and By-laws, integrated reporting, etc.

2.1. POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

Political & administrative governance at Mandeni Municipality comprises of the elected councillors and the respective senior managers and the way they actually work together on a day-to-day basis in order to achieve organizational goals

The political governance of the Municipality is derived from the Constitution of 1996 which directs in Section 151 (3) that the Municipality has the right to govern on its own initiative, the local government affairs of the local community. The legislative and executive authority of the Municipality is vested in the Municipal Council.

The Municipal Systems Act Chapter 7 Section 50-52 directs that the Municipality must within its administrative and financial capacity establish and organise its administration in a manner that would enable the Municipality to respond to the needs of the community, facilitate the culture of public service and accountability. The Administration of the Mandeni Municipality under the stewardship of the Municipal Manager who exercises the administrative governance of the Municipality.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO POLITICAL AND ADMINISTRATIVE GOVERNANCE

In compliance with Section 151(3) of the Constitution, Section 53 of the Systems Act (Act 32 of 2000) and the Municipal Structures Act (Act 117 of 1998) Mandeni Municipal Council governs the local government affairs of the local community on its own initiative. The roles and areas of responsibility of each political structure and each Political Office Bearer of the Municipality and of the Municipal Manager is defined and adhered to accordingly.

The Political Leadership of the Municipality comprises of elected Councillors through both the Ward System and Proportional Representation, is led by the Mayor. On the other side

the Administration of the Municipality is composed of Executive Management appointed in terms of Section 56 and 57 of the Municipal Systems Act as amended. The Municipal Manager is the head of Administration. In order to realise the Constitutional mandate of the Municipality these two components, including the Community have to work together.

2.1 POLITICAL GOVERNANCE

COUNCIL

The Council performs both legislative and executive functions. It focuses on legislative, oversight and participatory roles, and has delegated its executive function to the Mayor and the Executive Committee. Their primary role is to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision-makers, councillors are also actively involved in community work and the various social programmes in the Municipal Area and also through the ward committees established in each of the 18 wards. The municipality's political affairs are managed through an Executive Committee (EXCO) headed by the Mayor. There are different Portfolio Committees, each headed by a member of the Executive Committee member established to ensure effective governance.

EXECUTIVE COMMITTEE

The Honourable Mayor of the Municipality assisted by members of the Executive Committee, heads the executive arm of the Municipality. The Mayor is at the centre of the system of governance, since executive powers are vested in him to manage the day-to-day affairs. This means that he has an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Mayor, delegated by the Council, as well as the powers assigned by legislation. Although accountable for the strategic direction and performance of the Municipality, the Mayor operates in concert with the Executive Committee.

HIS WORSHIP: THE MAYOR Cllr. T.P Mdlalose

The Mayor is the leader of the council and has a number of roles which are both legislative and functional. The legislative requirements are outlined in Section 73 and 73AA of the Local Government Act 1989.

The LG Act states that the functions of the Mayor of a Council include:

- - Providing guidance to Councillors about what is expected of a Councillor, including in relation to the role of a Councillor under section 65, and the observation of the Councillor - Conduct Principles and the Councillor Code of Conduct under section 76B, 76BA and 76C
- - Acting as the principal spokesperson for the Council
- Supporting good working relations between Councillors
- - Carrying out the civic and ceremonial duties of the Office of the Mayor

**HIS WORSHIP: THE DEPUTY MAYOR Cllr. B.L
MAGWAZA**

The Executive Deputy Mayor exercises the powers and performs the duties of the Executive Mayor if the Executive Mayor is absent or not available or if the office of the Executive Mayor is vacant.

Cllr.P.M Sishi

Cllr.M.S Mdunge

Cllr. B.L Magwaza

Cllr. S.Z Mdletshe

Cllr.M.Shelembe

Cllr.M. Mthembu

PORTFOLIO COMMITTEES

Section 80 committees are established to advise the Mayor on policy matters and any other matter to be considered by the Mayor. They are assigned to specialise in a specific functional area of the Municipality and can only make decisions on specific functional issues if delegations have been granted to them. They are appointed by Council and the Chairperson is appointed by Council.

The municipal administrative departments report to council via EXCO through its Portfolio Committees of relevance in terms of the key performance areas. The following are the portfolio committees that have been established:

- Community Service and Public Safety
- Economic Development Planning and Human Settlement
- Budget and Treasury
- Infrastructure Development and Technical Services
- Local Public Administration and Human Resources
- Special Programmes

Section 79 committees are permanent committees appointed to advise the Municipal Council. Council established the Municipal Public Accounts Committee (MPAC) to perform an oversight function on behalf of Council over the executive functionaries of the Council. MPAC inter alia serves as an oversight committee to make recommendations to the Council when it adopts the Oversight Report on the Annual Report in terms of section 129 of the Municipal Finance Management Act.

RULES COMMITTEE

This committee is normally chaired by the Speaker of Council and is normally composed of Chief Whips of all political parties represented in Council and other members that Council may add.

Terms of Reference

- Look at the implementation of Councillor Code of Conduct and adherence thereto
- Look at the implementation of Council Rules of Order and Standing Orders
- Advise Speaker and Council on matters needing attention
- Look at Council Dress Code and other matters related to council activities.
- Advise the Speaker and Council on matters requiring disciplining of councillors when Rules and Standing Orders are broken.
- Advise the Speaker and Council on the appointment of Ad Hoc committees when need arises
- Regularly reports to Council on its work and activities.
- Regulate Internal Functioning of Council and its committees.

AUDIT COMMITTEE AND PERFORMANCE AUDIT COMMITTEE

In terms of section 166(2) of the MFMA, Council has an Audit Committee which is an independent advisory body which must advise the Municipal Council, the political office-bearers, the accounting officer and the management staff of the Municipality, on matters relating to:

- Internal financial control;
- Risk management;
- Performance management; and
- Effective governance.

COUNCILLORS

Councilors are elected by the local registered voters in terms of the local segment of the Voter's Roll to serve a predetermined term of office on the local council as representatives of their respective constituencies. Mandeni Local Municipality has a total of 35 seats. Eighteen (18) of these seats are allocated to ward councilors who are elected by each of the

eighteen wards. Another seventeen (17) seats are allocated top parties through the proportional representation system of elections.

ALLOCATION OF COMMITTEES

Mandeni Local Municipality has five (5) Section 80 Committees established by Council. Each one of these committees is chaired by the members of Executive Committee, and the allocation is as follows:

A. ECONOMIC DEVELOPMENT AND HUMAN SETTLEMENT			
1. CLLR	SZ	MDLETSHE	ANC -Chairperson
2. CLLR	MC	MKHALIPHI	ANC
3. CLLR	S	NTULI	ANC

5.	CLLR	SP NAICKER	DA
6.	CLLR	PP NSELE	EFF
7.	CLLR	BA KHUMALO	IFP

POLITICAL DECISION-TAKING

The Standing Rules and Orders of Council and various pieces of legislation including the Constitution of the Republic of South Africa provides for the processes of decision making by Council.

All issues pertaining to the matters listed below are dealt with by Council and the resolution passed through the supporting vote of the majority of members of Council:

- a) Approval of Budget
- b) The imposition of rates and taxes, levies and duties.
- c) The passing of By-laws.
- d) The raising of loans.

Other matters are delegated to the Executive Mayor in terms of Section 59 of the Municipal Systems Act. The Executive Mayor must report to Council on the execution of duties delegated to her. All other matters before Council are decided by the majority of votes cast in a particular meeting.

If on any matter there is an equality on votes cast, the Speaker exercise a casting vote in addition to that of him being a Councilor.

Before a Council passes a resolution on any of the following matters it shall first require the Mayor to play his executive role and submit a report and recommendation to the full sitting of Council.

- a) The passing of By-laws
- b) The approval of budgets
- c) The imposition of rates
- d) The raising of loans
- e) The approval of the IDP and any amendments or reviews of this plan.
- f) The appointment and conditions of service of the Municipal Manager and Managers directly accountable to the Municipal Manager.
- g) And any other powers and functions as prescribed by various pieces of legislation.

MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)

Chairperson	Cllr. S. Shandu (Chairperson)	ANC
Member	Ms. S. Nkwanyana	EFF
Member	Mr. D Mthembu	ANC
Member	Mr. S Mathonsi	IFP

FUNCTIONS

The MPAC is a committee of the municipal council, appointed in accordance with section 79 of the Structures Act. The main purpose of the MPAC is to exercise oversight over the executive functionaries of council and to ensure good governance in the municipality. This will include oversight over municipal entities. In order for the MPAC to fulfil this oversight role, it needs to be provided with the necessary information and documentation to interrogate the actions of the executive.

REPORTING

The MPAC reports directly to the municipal council and the chairperson of the MPAC must liaise directly with the speaker on the inclusion of reports of the MPAC in the council agenda. As the MPAC is a committee of the council, its reports are submitted directly to the council without being submitted to the Executive Committee. The chairperson of the MPAC liaises directly with the speaker on the inclusion of its report in the council agenda, and the committee staff ensures that the documentation is physically included in the agenda of the council meeting.

2.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

The Municipality has established a process or mechanism to regularly evaluate the staff establishment and if necessary, review the staff establishment, in line with organizational objectives and development priorities. This mechanism provides for the review of the organizational structure at the beginning of the financial year, which entails revisiting each Department and Business Units to ensure that they respond to the priorities contained in the Integrated Development Plan (IDP). The organizational design and the structure of the Municipality are such that it seeks to respond to both national and local government priorities of:

- a) Municipal Institutional Development & Transformation.
- b) Basic Service Delivery
- c) Local Economic Development
- d) Municipal Financial Viability
- e) Good governance
- f) Building Local Economies to create more employment & sustainable livelihood.
- g) Improve local public services and broaden access to services
- h) Promote more active community participation in local government
- i) Effective, accountable and clean local government

The Municipal Manager is the Head of Administration and plays a pivotal role in the functioning of the Municipality. The Municipal Manager subject to policy direction by Council must organize the Administration in the manner that enables Council to hold the Municipal Manager accountable for the overall performance of the Municipality.

As head of the administration, the municipal manager is responsible for the formation and development of an economical, effective, efficient and accountable administration, which is equipped to implement the IDP, operates within the municipality's performance management system, and is responsive to the needs of the local community to participate in municipality. The municipal manager manages communication between the political structures and office-bearers and the administration.

In order to be able to give fruition to the requirement to run an efficient, economical and accountable administration, the operations of the municipality are divided into six directorates:

- a) Office of the municipal Manager
- b) Budget and Treasury
- c) Corporate Services
- d) Community Services and Public Safety
- e) Economic Development, Planning and Human Settlements
- f) Technical Services and Infrastructure Development

TOP ADMINISTRATIVE STRUCTURE

MUNICIPAL MANAGER
Mr. S.G Khuzwayo

Municipal Manager is responsible for the operations and performance in the following sections:

- Responsible for setting up effective and sound local administration;
- Coordinates the compilation of IDP;
- Responsible for PMS of the Municipality;
- Oversees the management of internal audit;
- As the Accounting Officer has overall responsibility for finances of the Municipality;
- Advice Political Office Bearers and Council on various issues;
- Responsible for compliance of the Municipality with various pieces of legislation;
- Must ensure community participation in the affairs of the Municipality;
- Legal Services; and
- Risk Management

CHIEF FINANCIAL OFFICER

Miss N.N. Mngomezulu

Chief Financial Officer is responsible for the operations and performance in the following sections:

- Financial Planning and Treasury;
- Supply Chain Management;
- Expenditure Control;
- Credit Control and Debtors;
- Revenue Control; and
- Asset Management and
- Property Valuations;

DIRECTOR: CORPORATE SERVICES

Mr. V.P Zulu

Corporate Services Director is responsible for the operations and performance in the following sections:

- Information and Communications Technology;
- Administration and Auxiliary Services;
- Human Resources and
- Council Secretariat

DIRECTOR: TECHNICAL SERVICES

Mr. K. Gumede

Technical Services Director is responsible for the operations and performance in the following sections:

- Electrical Services;
- Roads and Storm water;
- Mechanical Workshop;
- Municipal Buildings;
- Waste Management;
- Parks, Verges and Gardens;
- Project Management.

**DIRECTOR: ECONOMIC DEVELOPMENT
& PLANNING HUMAN SETTLEMENTS**

Mr. Mbongwa

Economic Development & Planning Human Settlements is responsible for the operations and performance in the following sections:

- Local Economic Development;
- Development Planning;
- Strategic Planning/IDP;
- Human Settlements and
- Building Control.

**DIRECTOR: COMMUNITY SERVICES
AND PUBLIC SAFETY.**

Mrs. Bongani Sithole

The community Services Department is primarily responsible for the social wellbeing of the community. It comprises the following sections:

- Library Services;
- Parks, Verges and Gardens Community Facilities;
- Community Development;
- Public Safety
- Fire and Rescue Services and Disaster Management;
- Security Services
- Cemeteries & Crematoria and
- Waste Management

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.3 INTERGOVERNMENTAL RELATIONS

The municipality strengthened the functioning of the following structures established according to the provisions of the Intergovernmental Relations Framework Act no 13 of 2005. These high-level strategic forums are as follows: IDM Intergovernmental Relations Forum, Executive Mayors Forum, District Speakers Forum, Municipal Managers Forum, Chief Financial Officers Forum, IDP Representative Forum and PMS Forum.

The above forums are established to share best practices among others and to ensure compliance. These forums focus mainly on issues of progressive governance and unblocking bottleneck within certain spheres. Such forums must be attended to check and report on service delivery. Once these forums are successful, service delivery will be achieved and we will have communities that are happy.

NATIONAL INTERGOVERNMENTAL STRUCTURES

The Mayor and Municipal Manager of Mandeni LM attend the Premier's Co-ordinating Forum (PCF). The IDM enjoys the advantage of having the Mayor as the Chairperson of SALGA, which then puts the Region in a better position to influence SALGA in strategic issues that are of interest to the Region and South Africa as a whole. Members of the Mayoral Committees (MMCs) also attend, and in some cases chair SALGA working groups. The IDM also sends representatives to SALGA Provincial and National Members' Assemblies.

Inter-Governmental Forums (IGR) are functioning well at District level. The Mayors IGR Forum has a year programme scheduled for monthly meetings. The Speakers', Chief Whips' and MMCs' Forums as well as the Troika meetings are operating. The MMCs also have established relations with their respective Member of Executive Committees (MECs) and in some cases, national government departments as well.

PROVINCIAL INTERGOVERNMENTAL STRUCTURE

The Municipality participates in the Premiers' Inter-Governmental Forum as well as the Provincial Speaker's Forum.

The Municipal Managers also have a Provincial and National Forum. In all these Forums, issues pertaining to service delivery and matters of common interest are discussed.

Information and best practices are shared and the interaction with Province and other municipalities is valuable to have a better co-ordination and co-operation.

Various forums in which officials participate are also structured at Provincial level, e.g., Communication Forum and SALGA Technical workgroups.

Councillors and Officials also participate in SALGA working groups in which valuable information is shared.

RELATIONSHIPS WITH MUNICIPAL ENTITIES

The Mandeni Municipality has no municipal entities; however, the Enterprise Ilembe has been established within the Ilembe District Municipality.

DISTRICT INTERGOVERNMENTAL STRUCTURES

IGR in the Ilembe District was initially introduced in 2006 and has since developed fully. There is coordination in the functions of the district family of municipalities. It has provided a platform for the district municipalities to plan and synchronize all the programmes and projects that are inter-reliant as provided by the IDP's.

There are 10 Forums within the district, with the District Intergovernmental Forum being the highest authority. All Forum is constituted by senior officials from the Local Municipalities, District Municipality, Provincial and National Sector Departments. Each forum meets as indicated in the structure above to discuss issues pertaining to its portfolio and functions with an aim to devise a plan on how these entities can collectively work towards achieving their respective IDP objectives and National priorities/outcomes.

The Sub-Forums then report to the Technical Support Forum (made up by Municipal Managers) for discussion and recommendation. The Technical Support Forum in turn reports to the District Intergovernmental Forum (Mayors Forum).

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

2.4. PUBLIC MEETINGS

Public participation is an institutionalised function in our Municipality. Our communities have learned to appreciate the elaborative process which ensures that all interested residents are afforded ample opportunity to make meaningful contributions to policy development and planning for developments in the municipal jurisdiction. The evolution of

ward-based planning and the related establishment of ward committee system have elevated community participation to higher level in terms of legal provision and institutionalisation of the process. Mandeni Local Municipality, through the Office of the Speaker, liaise continuously with communities through ward committee members and other stakeholder forums.

In order to facilitate maximum participation by ward committee members, the Municipality provides stipends for each member.

In the promotion of public accountability and participation members of the public are invited to attend all meetings of the Council and its committees. Another mechanism of public participation is conducted through Mayoral Budget and Integrated Development Plan (IDP) Izimbizo's. These are held prior to developing the draft budget in order to provide feedback to the community the implementation of projects in the current financial year and to illicit the needs of the community in order to provide input for the new financial year. A second Izimbizo is held once the draft budget has been developed in order to inform the public of key elements in the proposed budget and illicit responses thereto

2.5. IDP PARTICIPATION AND ALIGNMENT

The Municipal Systems Act as promulgated in 2000 describes the various core processes that are essential in realizing a system of developmental local government. These aspects include participative governance, IDP, performance management and reporting, resource allocation and organisational change. These processes are linked into a single cycle at the local level that will align various sectoral initiatives from national and provincial government departments with municipalities own capacities and processes, including alignment with district initiatives.

The process plan is a document that is developed for this very purpose it outlines the framework/process for the alignment and engagement in the review of the Integrated Development Plan. This is done in alignment with parallel processes like the Budget and the

Performance Management System. Every year around the end of August, the Municipality finalize a Process Plan which is approved by Full Council, once approved a public notice is posted to our website and various newspapers inviting members of public as well as various stakeholders to make submissions with regards to developmental priority needs. The very same Process Plan is posted on the Mandeni website where different activities and milestones are reflected in terms of the IDP review and PMS and Budget implementation and monitoring. The Mandeni Municipality has a structured program of public participation. This program is reflected in the Process Plan and forms the basis for citizenry engagement framework which is currently mooted in a form of a public participation policy.

The following are forms of citizenry participation that are utilized by the Municipality to ensure the citizen and stakeholders voices are accommodated in the planning, execution and review of the IDP, Budget and PMS processes:

- Ward Committee Monthly Meetings
- Stakeholders Quarterly Meeting (Reporting on PMS Progress/SDBIP and IDP)
- Monthly Community Meetings by Councillors (due to financial constraints-are held once in two months /6 meetings per annum per ward)
- Project Based Meetings
- Sector Plan Based Engagements
- Executive committee
- Full Council Meeting
- Integrated Development Planning Meetings:
- Izimbizo: Public Meetings for Budget, IDP etc.
- Municipal Property Rates Act (MPRA)
- Service Standard or Charter
- Community Based Planning

- Complaints Register: Customer Care and Batho Pele Engagements
- Sukuma Sakhe – Premier’s Flagship Tool for Accelerated Service Delivery at a Ward Base Level
- Attendance to invitations by Interest groups
- Partnerships and MOUs: MIDI,
- Inaugural State of the Municipal Address (SOMA)

The public participation mechanisms/forums listed above are conducted throughout the year specifically at an operational level and then some of them are organized on a fortnightly, monthly, quarterly and annually as reflected in our Process Plan, the intergovernmental relations and citizenry participation system model is presented for adoption by Full Council which forms the basis for Public Participation Policy.

COMMENT ON THE EFFECTIVENESS OF THE PUBLIC MEETINGS HELD:

The Municipality formulated a programme with ward numbers, dates, time and venues for public meetings in relation to IDP review. The programme included stakeholders such as the business community and the rate payers. All the stakeholders were engaged on IDP review, Budget and Performance Management System in terms of the KPAs and KPIs. At the end IDP representative forum meeting resolutions were taken after participation by sector departments and NGO’s, which were relevant to partake in the discussion of Mandeni IDP review all our meetings were successful with meaningful participation of the public.

IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	YES/NO
Does the municipality have impact, outcome, input, output indicators?	NO
Does the IDP have priorities, objectives, KPIs, development strategies?	YES
Does the IDP have multi-year targets?	YES
Are the above aligned and can they calculate into a score?	YES

Does the budget align directly to the KPIs in the strategic plan?	YES
Do the IDP KPIs align to the section 57 Managers	YES
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	YES
Were the indicators communicated to the public?	YES
Were the four quarter aligned reports submitted within stipulated time frames?	YES
* Section 26 of Municipal Systems Act 2000 T 2.5.1	

COMPONENT D: CORPORATE GOVERNANCE

Corporative governance is a link between all three spheres of government as enshrined in the constitution of the country. Inter-governmental relations are working relations between spheres of government for realization of a service delivery. In terms of the mandate of each sphere per the constitution, the expectation is that spheres of government complement each other. This is done for the purpose of best practice and service delivery.

Corporate Governance within Mandeni Municipality entails *Risk Management, Anti-Corruption and Fraud*, Internal Audit, Audit and Audit Performance Committee, Municipal Public Accounts Committee and Supply *Chain Management* which is unpacked below

2.6. RISK MANAGEMENT

The Mandeni Local Municipality subscribes to the Public Sector Risk Management Framework as well as other international best practices to identify, analyze, treat, monitor and communicate risks internally

The provision of Section 62 (1) (c) (i) of the Municipal Finance Management Act (Act Number 56 of 2003) stipulates that the Accounting Officer of the Municipality is responsible for managing the financial administration of the municipality and must for this purpose take all responsible steps to ensure that the municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control.

Risk Management unit does implement risk management processes, developing Strategic Risk Register, Operational Risk Registers, Fraud Risk Register, and ICT Risk Register. These registers are monitored to ensure that all risks that could hamper service delivery are being prioritized.

The Municipality has in the current year of assessment a dedicated unit to co-ordinate the function of risk management under the Risk Management Unit. This unit has been ably guided by an independent risk chairperson, the Enterprise Risk Management Committee, the Audit and Performance Committee, the Accounting Officer and all senior management and management in the formulation of the risk registers. Furthermore, this unit has ensured that there has been quarterly sitting of the risk management committee and that risks are monitored and reported on a quarterly basis. Internal audit has also played a significant role in this area in ensuring that the municipality complies with the requirements of the Municipal Finance Management Act.

The Audit and Performance Committee has also been actively involved in the risk management processes. Hence, why the Risk Management Committee chairperson is required to submit a quarterly report to the Audit & Performance Committee.

The Risk Management Committee is chaired by the independent chairperson. The Risk Management Committee is governed by its Charter. This approach has proven to be successful, and in terms of good governance. This is what is required by the National Treasury Risk Management Framework.

The Municipality ensured that there was a successful risk assessment process conducted during the commencement of the period and it should be noted that this process was attended by the KZN Provincial Treasury. During this process the strategic top 10 risks were identified, and the strategic risk register was developed. It incorporated all the risks that were identified and the mitigating action plans to be implemented by the management. During the risk assessments the other 3 risk registers were developed, which is the Operational Risk Register, Fraud Risk Register and ICT Risk Register. This risk assessment also ensured focus was given to IDP priority areas and the National KPA's to ensure that risks are aligned to programs within the Municipality, Regionally, Provincially and Nationally.

During the 2022/2023 year of assessment there were dedicated risk champions appointed per department. These Risk Champions assisted to enable the risk management processes in their respective departments. They facilitated the quarterly risk reporting by the departments and played a huge role in monitoring of risk by ensuring the risk management is part of their monthly meeting agenda items.

STRATEGIC RISKS FOR 2022/2023 FINANCIAL YEAR

NO.	RISK DESCRIPTION	ROOT CAUSES	ACTION PLANS
1	Poor maintenance of roads and storm water channels	1. Infrastructure backlog 2. Aging Road infrastructure 3. Damage of roads and stormwater infrastructure consequent to water and sanitation infrastructure maintenance by district municipality 4. Uncoordinated Allocation of land on peripheral areas by traditional leaders resulting in increased storm water catchment 5. non-collection of waste resulting in blockage of storm water 6. 2.7. ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI CORRUPTION STRATEGY

The Municipality has taken an active role in dealing with fraud and anti-corruption. Firstly, the municipality through its council has adopted the fraud prevention policy and strategy in June 2021 which was workshopped to Council during policy review session.

The municipality has also ensured that in the current year (2022/2023) there is a dedicated budget set aside for fraud hotline, which is being initiated as a District wide initiative. Furthermore, an action plan is in progress to address all the challenges pertaining to fraud related issues.

All reported fraudulent cases are reported directly to the Office of the Municipal Manager. If the allegations have financial implications. The forensic investigation is conducted and the case is reported to the disciplinary board for recommendations.

2.8. INTERNAL AUDIT

In terms of Section 62 (c) of the Municipal Finance Management Act no 56 of 2003 (MFMA), the Accounting Officer of a Municipality is responsible for managing the financial administration of the municipality, and must for this purpose take all reasonable steps to ensure—

- (a) that the municipality has and maintains effective, efficient and transparent systems—
 - (i) of financial and risk management and internal control; and
 - (ii) of internal audit operating in accordance with any prescribed norms and standards;

Furthermore, Section 165 (1) of the MFMA, states that each municipality must have an internal audit unit.

Section 165 (2) states that the internal audit unit of a municipality must—

- (a) prepare a risk-based audit plan and an internal audit program for each financial year;
- (b) advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to—
 - (i) internal audit;
 - (ii) internal controls;
 - (iii) accounting procedures and practices;
 - (iv) risk and risk management;
 - (v) performance management;
 - (vi) loss control; and
 - (vii) compliance with this Act, the annual Division of Revenue Act and any other applicable legislation; and
 - (viii) Perform such other duties as may be assigned to it by the Accounting Officer.

Regulation 14 (1) (a) of the Local Government: Municipal Planning & Performance Management Regulations of 2001, prescribe that a municipality must develop and implement mechanisms, systems and processes for auditing the results of performance measurements as part of its internal auditing processes.

The Municipality had, within its Organizational structure, a dedicated internal audit unit in the 2022/23 year of assessment. Furthermore, the municipality has an independent audit committee with four (4) members of sufficient skills and experience to ensure adequate oversight over internal audit as well as municipal activities as a whole.

The 2022/2023 year of assessment was a successful year for the internal audit unit with the following key achievements being noted:

- The first year in which internal audit plan was completed without any delays
- The first audit of technical services and grant spend
- The acknowledgement by governance structures such as Treasury and CoGTA on the strength of the internal audit unit and the ability of the internal audit unit to perform majority of audits in house
- The successful workshopping and review of the Internal Audit Charter
- The undertaking of four quarterly PMS assessments
- The reduction on the use of consultants for specific internal audit projects
- The successful support of MPAC for Unauthorized, Irregular and Fruitless and Wasteful Expenditure

Furthermore, the internal audit unit had ensured that there was quarterly sitting of the audit committee as well as quarterly reports of the audit committee to council.

The internal audit unit also ensured that it complied with its statutory requirements of performing four quarterly audits as per the developed and approved internal audit plan and then tabling each quarterly report with follow ups to audit committee for consideration. The unit also successfully oversaw the development of the 2022/2023 internal audit plan which was approved by the audit committee on the 28th of June 2021.

In regards to the 2022/23 scheduled audits the following key areas were reviewed and tabled to audit committee for consideration.

PROJECT	FOCUS AREAS
Revenue and Debt	<ul style="list-style-type: none"> • Accuracy of billing and collections • Reconciliations (Revenue and debtors)

Management	<ul style="list-style-type: none"> • Debt collection procedures • Debt policy and Indigent Policy • Test Debt collection system (Existence and Completeness) and alignment to SAGE • Collection trends per sector (Business, government and household) – Current year debt management issue has escalated and hence collection trends needs to be retested in detail • Recording of revenue
Supply Chain Management	<ul style="list-style-type: none"> • Turnaround time for completion of procurement process (Ordering; Receiving process, Invoicing and Reconciliation) • Planning (Procurement plan), Policy review and awareness • Contract and Project Management (Standard operating procedures, organogram and testing of high value and long-term contracts) • Performance assessment of service providers and contractors • Contract and Project Management (Completeness of Contract register and supporting documentation) • Review of supplier database (capturing, editing and approval of suppliers), performance monitoring of suppliers

	<ul style="list-style-type: none"> • Review of supplier database (suppliers in service of the state, suppliers who are employees, blacklisted suppliers) • Creditor (including payments). • Supplier return process and quality verification of goods and services received • Completeness of Supplier documents
Unauthorized, irregular, fruitless and wasteful expenditure	<ul style="list-style-type: none"> • Investigations of irregular expenditure resulting from approved deviations. • Investigations of unauthorized, irregular, fruitless and wasteful expenditure incurred.
Physical verification of employees against payroll reports	<ul style="list-style-type: none"> • Provincial Treasury Circular (PT/MF) 1 of 2017/2018
Asset Management	<ul style="list-style-type: none"> • Fleet Management – Policy and application • Test read/write access to the SAGE PASTEL system • Compliance with the fleet management policy and submission of exception reports relating to fuel, accidents and insurance)

	<ul style="list-style-type: none"> • Fixed Asset Register (Completeness) • Fixed Asset Register (Existence) • Impairment testing (sample basis) • Repairs and Maintenance (Capitalisation versus Expenditure) • Formation of asset disposal committee and effectiveness of this committee • Review the controls for impairment testing of moveable and immovable assets • Fixed Asset Register reconciliation • Additions and Disposals • Investment property (Completeness, Rights, Existence and Valuation) • Under Construction WIP Assets – WIP valuation and transfers to Fixed Asset Register
--	---

ICT	<ul style="list-style-type: none"> • ICT Governance • DRP and BCP • ICT Security and awareness • ICT Assets • Assessment of the nature of the project management function (Outsourced EPCM vs In-house Project Management Personnel)
Performance Management System (PMS)	<ul style="list-style-type: none"> • Review the SDBIP, organizational scorecard, departmental scorecards, Section 57 Performance agreements to the Integrated Development Plan (IDP) for alignment • Presentation of SDBIP Consistency, Measurability, Relevance Reliability • Compliance with laws and regulations • Review of POE's against reported information on the SDBIP
Reviews of	<ul style="list-style-type: none"> • Review Accounting Policies and compliance with GRAP

Annual Financial Statements	<ul style="list-style-type: none"> • Ensure that the AFS agrees to the Trial balance and General Ledger • Perform review of financial statements for validity, accuracy and completeness • Review working paper file and ensure that it agrees to information on the AFS, TB and GL • Follow-up on AG findings.
Reviews of Annual Performance Report	<ul style="list-style-type: none"> • Review the adequacy and effectiveness of controls around the performance information and the following areas will be included in the audit scope, but not restricted to the following: <ul style="list-style-type: none"> - Review credibility of POE files (Reliability of Performance Information); - Review the processes with which performance information is processed, collated, filed, analyzed and reported in line with the FMPPI; - • Follow-up on AG findings.

2.9. AUDIT AND PERFORMANCE AUDIT COMMITTEE

File Reference: Author : Mondli Makhunga
Report Number: Designation : Chairperson of the
Audit Committee

CONFIDENTIAL

The Honourable Speaker

FOR CONSIDERATION

MANDENI MUNICIPAL COUNCIL

**SUBJECT: AUDIT AND PERFORMANCE AUDIT COMMITTEE REPORT FOR THE PERIOD
ENDED 30 JUNE 2023**

DATE: 26 OCTOBER 2023

1. INTRODUCTION

The Audit and Performance Committee (**Herein referred to as the “Audit Committee”**) is pleased to present its Report for the financial year ended 30 June 2023. This report covers work done or overseen by the Audit Committee during this financial period (i.e) from 01 July 2022 to 30 June 2023.

2. LEGISLATIVE REQUIREMENTS

- 2.1. The purpose of this report is to apprise the Council of Mandeni Municipality of the work done by the Audit Committee during the 2022/23 financial year as prescribed by section 166 of the Municipal Finance Act No. 56 of 2003, as amended (“the MFMA”), read with circular 65 published by the National Treasury and regulation 14(2)(a) of the Municipal Planning and Performance Management Regulations of 2001.
- 2.2. Section 166 of the Municipal Finance Management Act, Act 56 of 2003 obliges every Municipality to establish an independent Audit Committee which must advise the Municipal Council and the Management of the Municipality on matters relating to internal controls, internal audits, risk management, accounting policies, adequacy, reliability and accuracy of the financial reporting information, performance management, effective governance, compliance with the MFMA, the Annual Division of Revenue Act (‘DoRA’), any other applicable legislation and any other issues referred to it by the Municipality.
- 2.3. In carrying out our oversight responsibilities, the Audit Committee is guided by the formal terms of reference “The Audit Committee Charter”. This Charter is reviewed annually and submitted to the Council for approval.

3. THE AUDIT COMMITTEE COMPOSITION AND ATTENDANCE

3.1. During the period under review, the Audit Committee consisted of four (4) members with diverse skills. The Audit Committee met **six (6)** times (wherein four (4) were ordinary meetings and two (2) were special meetings). This is in line with the Charter and MFMA's Circular 65 which require that the Audit Committee meets at least four times in a given financial year.

3.2. The table below sets forth the particulars of the members, dates of appointment and their attendance at the meetings of the committee:

	Meetings Attended	29 Jul 2022	22 Aug 2022*	29 Aug 2022*	22 Sep 2022	07 Dec 2022	10 May 2023

* = Special Meeting

4. AUDIT COMMITTEE'S RESPONSIBILITY

The Audit Committee hereby reports that it has complied with its responsibilities arising from section 166 of the Municipal Finance Management Act, Act 56 of 2003 (MFMA) and regulation 14(2) (a) of the Municipal Planning and Performance Management Regulations of 2001.

Furthermore, the Audit Committee reports that it has operated in terms of the Audit Committee Charter read in conjunction with the Internal Audit Charter.

4.1. The Internal Audit Function

4.1.1. Section 165 of the MFMA, prescribes that every Municipality must have an Internal Audit Unit that operates under the direction and control of the Audit Committee. This

entails that, functionally the Internal Audit Unit is directly accountable to the Audit Committee while accountable administratively to the Office of the Municipal Manager.

- 4.1.2.** The operational activities of the Internal Audit Unit are regulated by Section 165 of the MFMA, circular 65 published by the National Treasury, the International Standards for the Professional Practices of Internal Auditors (ISPPA) and the Internal Audit Charter.
- 4.1.3.** The Chief Audit Executive reports administratively to the Municipal Manager and functionally to the Audit Committee to ensure the Internal Audit Function's independence.
- 4.1.4.** The activities of the Internal Audit Unit are guided by the Annual Audit Coverage Plan which is approved by the Audit Committee at the end of the financial year preceding the year under review. The Audit Committee monitors the progress of the implementation of the annual internal audit plan.
- 4.1.5.** During the financial year 2022/23, the internal audit work was performed by the internal staff and the external staff sourced from the external service providers.
- 4.1.6.** At the end of June 2023, all the audit projects planned for execution were completed.
- 4.1.7.** The Audit Committee approved the Internal Audit Plan for the 2022/23 financial period. This plan was submitted to the Council and COGTA for noting.
- 4.1.8.** The Audit Committee approved the Internal Audit Charter and reviewed the Audit and Performance Audit Committee Charter for approval by the council.
- 4.1.9.** The audit committee prepared the audit committee's performance evaluation tool which is a requirement from the MFMA's Circular 65. This tool will assist the Council in reviewing the performance of the Audit Committee (the template is annexed to this report).

System of Internal Control

- 4.1.10.** The Audit Committee received assurance from the Internal Audit Function and the Risk Management Function based on their evaluation of the effectiveness of internal control systems.
- 4.1.11.** The Audit Committee monitored the progress achieved by the Management in implementing remedial actions to prevent the recurrence of findings identified by the

Internal Audit and the Auditor General. The audit committee acknowledges management's efforts to strengthen internal controls within the municipality.

4.1.12. Unauthorised Expenditure

The Audit Committee noted that an Unauthorised Expenditure of R8 992 445.75 which was as a result of:

- Bulk purchases of electricity of R6 144 027.75 due to an increase in electricity demand by Umgeni Water (this has resulted in an increase in Services Revenue to the Municipality)
- Retirement benefits obligation– GRAP 25 journal of R2 848 418.00, retirement benefits which were budgeted for under employee costs and not as part of Finance Costs as per mSCOA requirement.
- These transactions were accordingly referred to MPAC for investigation and were further recommended for approval by the Council. The Council has since approved these transactions in line with the Municipal Budget and Reporting Regulations of 2009.

4.1.13. Irregular Expenditure

The Audit Committee noted the Unauthorised, Irregular, Fruitless and Wasteful Expenditure in the municipality of R14,883,770 which is emanating from:

Supplier	Details	Irregular Expenditure for 2022/23 FY
Isichaka Esingenamona	Solid waste removal. Contract expires: 30 Sept 2022	R468 415.20
Rural Metro	Project management of fire rescue services. Contract expires: 30 Sept 2022	R1 065 254.79
Pro Secure	Security services. Contract expires: 30 Dec 2022	R2 950 380.20
Lamazwide Projects	Highview and Padianagar Combo Courts Additions and Improvement in War 3/4: CIDB non-compliance	R2 067 880.39
The Curve Behind Training 219	Rehabilitation of Manono Road – Ward 15: CIDB non-compliance	R4 367 531.54
Umhlathuze Builders Emporium	Ward 15 Swimming Pool Additions: CIDB non-	R3 409 691.69

	compliance	
Square Meter Trading	Lease of office space at Mandeni Square Centre: SCM Process not followed	R554 615.80
Total		R14,883,769.61

The above transactions have been investigated by MPAC and the Disciplinary Board. These have since been approved by the Council after considering the MPAC and Disciplinary Board's recommendations.

The audit committee continues to monitor these items with the aim of minimizing new transactions of irregular expenditure in future.

4.1.14. Fruitless and Wasteful Expenditure

As at the end of June 2023, the Fruitless and Wasteful Expenditure of R 324,524 had been incurred this is emanating from the late payment charges some of which are being disputed by the Municipality with the suppliers. The large sum of this figure though emanates from the interest payment of R260 300 to Mr MA Mthembu related to a labour court case that underwent review.

These transactions have been investigated by MPAC and the Disciplinary Board and recommended to Council for approval.

4.1.15. Deviations

Twenty-one (21) SCM deviations valued at R1 068 385.91 were noted during the 2022/23 financial year. A majority (76%) of these SCM deviations emanate from the acquisition of taxi services, whilst the balance was due to cases where it was impractical to apply SCM procedures. To address this challenge a travel agent will be used to procure transportation services.

4.2. Risk Management Function

4.2.1. The Municipality appointed an external Risk Management Chairperson to provide guidance and oversee the risk management-related issues and report to the senior management and the audit committee.

4.2.2. The Risk Management Unit was vacant during quarters 1 and 2 of the 2022/23 financial year and this has negatively impacted the risk management plan. However, the Manager: Legal, Risk and Compliance assumed duties in February 2023 to mitigate this gap.

4.2.3. The Audit Committee reviewed the quarterly management risk reports presented by the Risk Management Function which dealt with the followings:

- Progress on implementation of mitigations for Operational, Information Technology, Fraud and Strategic risks;
- Emerging and materialized risks identified and discussed;
- Reviewed the report on the Anti-Fraud initiatives that are implemented to manage fraud risk;
- Provided oversight on other significant exposure areas and mitigation controls.

4.2.4. Risk Management

A risk assessment workshop was conducted on the 11th – 13th of April 2023 to identify risks that might have the potential to impede the municipality's ability to achieve its goals and objectives. Five (5) risk registers were developed, i.e. Strategic, Operational, Fraud, ICT and Occupational Health and Safety (OHS) Risk Registers.

4.2.5. The following table briefly depicts strategic risks which were identified to have major risk exposure to the Municipality and the accompanying mitigating controls by management:

DEPARTMENT	STRATEGIC RISKS	MITIGATING CONTROLS
1. BTO	<p>Inability to manage and to ensure the sustainability of municipal finances</p> <ul style="list-style-type: none"> • <i>Misalignment between equitable share and increasing indigent population</i> • <i>Decreasing revenue base coupled with increased employee costs</i> • <i>High municipal uncollectable debt from the Ingonyama Trust Board</i> • <i>High dependency on grant allocation</i> • <i>Failure to take disciplinary actions on incurred Unauthorised Irregular, Fruitless and Wasteful Expenditure</i> • <i>Non-adherence to cost containment measures</i> 	<ul style="list-style-type: none"> • <i>Schedule the sitting of the Revenue & Debt Management Committee.</i> • <i>Investigate the apportionment of the Free Basic Service with the allocation of the Equitable Share against Internal Funds</i> • <i>Include Conducting of Land audit in the 2024/2025 Budget</i> • <i>Explore and benchmark municipal By-Law for tariff charges for solar panel users</i> • <i>Conduct continuous investigation on electricity for low and non-purchases</i>

		<ul style="list-style-type: none"> • Consolidate the Indigent Register for the Ilembe District • Conduct a " Rand for Rand" campaign to assist municipality with the revenue
2. Technical	<p>Inadequate maintenance of stormwater facilities</p> <p>Infrastructure backlog</p> <ul style="list-style-type: none"> • Damage of stormwater infrastructure consequent to water and sanitation infrastructure maintenance by the district municipality • Uncoordinated allocation of land in peripheral areas by traditional leaders resulting in increased stormwater catchment • Non-collection of waste resulting in blockage of stormwater • Insufficient resources (Plant & equipment, funding and capacity limitations such as Skilled Technicians). • Lack of maintenance 	<ul style="list-style-type: none"> • Upgrade programme for the drainage system in Sundumbili • Maintenance programme jetting of stormwater in different wards • Slot in councillor's public meeting for awareness on waste management and illegal dumping • Procurement of jetting machine to unblock stormwater
3. EDPHS	<p>Failure to ensure reliable and equitable provision of houses</p> <ul style="list-style-type: none"> • Delays in delivering housing targets to housing beneficiaries <ul style="list-style-type: none"> - Improper planning/coordination • Poor beneficiation administration 	<ul style="list-style-type: none"> • Facilitate engagement between implementing agents and sub-contractors (rates) • Request for fast-tracking of approval for funding and appointment of

	<ul style="list-style-type: none"> - Inadequate beneficiary list - Double allocation and missing of beneficiaries • Misunderstanding between Implementing agent and subcontractors (rates) • Delays in approval of funding • Delays Appointment of implementing agents • Delays in Beneficiary admin for (OSS) 	<p>implementing agents from the Department of Human Settlement</p> <ul style="list-style-type: none"> • Packaging of housing project funding applications for approval by the Department of Human Settlements
4. Corporate	<p>Inability to develop and capacitate the municipal workforce</p> <ul style="list-style-type: none"> • Low municipal grading (Grade 02) resulting in low salaries • Insufficient budget to conduct staff training • Limited office space • Lack of Individual Performance Management Policy • Restrictions of condition of service compensation for staff acting same level • Lack of management by-in in providing Employment AP wellness • Lack of EAP Plan • High staff turnover • Aging workforce • Lack of Succession Plan Policy 	<ul style="list-style-type: none"> • Develop a plan to identify and prioritise filling of critical positions • Develop Individual Performance Management System Policy • Workshop Individual Performance Management System Policy to all staff • Develop Performance Evaluation Template • Develop a Retention strategy (Recruitment policy) • Conduct workshop on the Code of Conduct to new and old officials • Workshop supervisors on Disciplinary Code • Develop Performance Agreements • Develop Employee Wellness Annual Plan
5. Communit	Lack of municipal cemeteries and failure	<ul style="list-style-type: none"> • Finalise the study to

y	<p>to maintain existing cemeteries</p> <ul style="list-style-type: none"> • Existing grave sites are full • Failure to maintain grave sites • Lack of dedicated personnel for cemeteries • Inability to identify suitable land for grave site • Lack cemeteries in the district level • Vandalism 	<p>identify the land for grave site</p>
6. OMM	<p>Failure to prevent, detect and investigate incidents of fraud and corruption</p> <ul style="list-style-type: none"> • Failure to effect consequence management • Unethical culture and conduct • Insufficient human resource capacity to implement and monitor systems to prevent fraud and corruption within the municipality • Outdated Fraud Prevention Strategy • Lack of fraud and corruption incident register to record fraud and corruption occurrences • Non-conducting of fraud and corruption awareness /campaign within the municipality and related stakeholders 	<ul style="list-style-type: none"> • Develop a Consequence Management Policy • Conduct regular Fraud Awareness Campaigns • Conduct an Ethics Workshop • Develop Fraud and Corruption Incident Register • Review Fraud Prevention Policy and Strategy • Installation of whistleblowers stickers in all municipal

It is worth noting that the senior management of the municipality has commenced with monitoring of mitigating controls to reduce the impact of these key risks in case they materialize. These are being overseen by the Risk Management Committee on a quarterly basis.

4.3. Audit on Performance Information

- 4.3.1.** The Audit Committee has noted the efforts of the Performance Management Unit and the management in providing accurate performance information however there were findings raised by both the internal audit and the Auditor General on this area.
- 4.3.2.** There is a need for further training intervention for senior management of the municipality.

4.4. External Audit by Auditor-General

- 4.4.1.** During the period under review, the Audit Committee assessed the progress on the action plan, which addresses the issues raised by the Auditor-General in their previous report. Management is continuously monitoring these actions to address the issues raised by the Auditor-General.
- 4.4.2.** The Audit Committee met with the Auditor-General to discuss the Audit Strategy for the 2022/23 financial year's audit which is in line with the MFMA requirements.

4.5. Financial Management and Reporting

- 4.5.1.** The Audit Committee reviewed the adequacy and effectiveness of the Municipality's system of internal financial control and reporting through the reports provided by the Internal Audit Function.
- 4.5.2.** The Audit Committee reviewed section 53(d) report content as part of the in-year monitoring. As part of the midyear budget adjustment, the audit committee noted the adjustment budget as part of the MFMA's section 72 reporting.
- 4.5.3.** The Audit Committee reviewed the AFS for the 2022/23 financial year prior to being presented to the Auditor-General. The draft AFS were presented to the audit committee in two different meetings held on the 21st and the 30th of August 2023. These were recommended to Council for noting prior to submitting to the Office of the Auditor-General.
- 4.5.4.** As at the end of June 2023, the Municipality reported a surplus for the year of R65 480 112 which is a good indication of the financial health of the Municipality even though it was R15 million less than last year.
- 4.5.5. Grants Management**

As at the end of June 2023, the Audit Committee noted with concern the unspent conditional grants and receipts of about R25 million comprising of:

Grant	Amount
Sport and recreation grant	R 57,961
Housing Title Deed grant	R 4,789,797
Massification Grant	R 4,760,653
INEP grant	R 624,326
Municipal Disaster Relief grant	R 15,556,100
Total	R 25,788,956

Commitments are in place and there are agreements in place with the transferring departments that permit the Municipality to roll the grants over to the next financial year. It is, however, concerning to note unspent grants as these are an indication of delayed service delivery to the community.

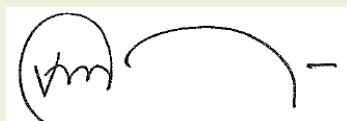

These items will continue to be on the agenda of the Audit Committee Meetings for continuous monitoring.

5. RECOMMENDATION

It is recommended that:

5.1. THAT, the report of the Audit Committee is noted by members of the Council.

2.10 MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

Author : Mr. S Shandu

Designation : Chairperson of MPAC

CONFIDENTIAL

The Honourable Speaker

FOR CONSIDERATION

MANDENI MUNICIPAL COUNCIL

**SUBJECT: MUNICIPAL PUBLIC ACCOUNTS COMMITTEE REPORT FOR THE
PERIOD ENDED 30 JUNE 2023**

DATE: 24 AUGUST 2023

1. INTRODUCTION

- 1.1 The Municipal Public Accounts Committee (**Herein referred to as the “MPAC”**) is pleased to present its Report for the financial year ended 30 June 2023. This report covers work done or overseen by the MPAC during this financial period (i.e.) from 01 July 2022 to 30 June 2023.

2. LEGISLATIVE REQUIREMENTS

- 2.1 Vast powers have been conferred on council in terms of section 160(1)(a) of the Constitution, as follows: “A Municipal Council makes decisions concerning the exercise of all the powers and the performance of all the functions of the municipality;”
- 2.2 Oversight is a crucial role of council in monitoring and evaluating the actions of the executive and administration in the discharge of the vast powers they possess. It also includes avoidance of abuse of power and guarding against under performance.
- 2.3 It is also possible for council to delegate the oversight role or part thereof to committees of council. In terms of section 79A(1) of the Local Government: Municipal Structures Amendment Act 3 of 2021 (hereinafter referred to as “the Structures Act”), “a municipal council must establish a committee called the municipal public accounts committee”.
- 2.4 Council is required in terms of section 53(1) of the Local Government: Municipal Systems Act, 32 of 2000 (hereinafter referred to as “the Systems Act”), to define a specific role and area of responsibility for each political structure.
- 2.5 Furthermore, in terms of section 32(2) of the Local Government: Municipal Finance Management Act, 56 of 2003 (hereinafter referred to as “the MFMA”) and regulation 74 of the Municipal Budget and Reporting Regulations, a municipality must recover unauthorised, irregular or fruitless and wasteful expenditure unless the expenditure is, after investigation by council committee, certified by the council as irrecoverable and written off by the council.
- 2.6 MPAC activities should enhance increased council and public awareness of the financial and performance challenges of the City and its entities.
- 2.7 In terms of Municipal Budget Reporting Regulations (MBRR) 23(6)(b);
- (1) *Council may authorize unauthorized expenditure in a special adjustment budget tabled in council when the mayor tables the annual report in terms of*

section 127(2) of the MFMA. This special adjustment budget “may only deal with unauthorized expenditure from the previous financial year which the council is being requested to authorize in terms of section 32(2)(a)(i) of the Act.”

This special adjustment budget therefore deals with:

- *unauthorized expenditure that occurred in the first half of the previous financial year that was not included in the main adjustments budget or that was included but referred back for further investigation or further information;*
- *unauthorized expenditure that occurred in the second half of the previous financial year, and*
- *any unauthorized expenditure identified by the Auditor-General during the annual audit process.*

Unauthorised Expenditure: In terms of Section 1 OF THE Local Government:

Municipal Finance Management Act 2003 (Act 56 of 2003) (hereinafter referred to as the MFMA

“Unauthorised expenditure”, in relation to a municipality, means any expenditure incurred by a municipality otherwise than in accordance with section 15 or 11(3), and includes - overspending of the total amount appropriated in the municipality’s approved budget;

- (a) overspending of the total amount appropriated for a vote in the approved budget;
- (b) expenditure from a vote unrelated to the department or functional area covered by the vote;
- (c) expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose
- (d) spending of an allocation referred to in paragraph (b), (c) or (d) of the conditions of the allocations; or
- (e) a grant by the municipality otherwise than in accordance with this Act,

2.8 National Treasury MFMA Circular 62 states the following:-

Irregular expenditure is defined in section 1 of the MFMA as follows: “irregular expenditure”, in relation to a municipality or municipal entity, means—

(a) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act, and which has not been condoned in terms of section 170;

(b) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act, and which has not been condoned in terms of that Act.

2.9 Definition of Fruitless and Wasteful Expenditure as per the MFMA means the following:

“fruitless and wasteful expenditure” means expenditure that was made in vain and would have been avoided had reasonable care been exercised”

2.10 Reporting of allegations of financial misconduct

(3) (1) Any person must report an allegation of financial misconduct against -

(a) the accounting officer, a senior manager or the chief financial officer of a municipality, to the municipal council of the municipality, the provincial treasury and the national treasury

(b) an official of the municipality other than its accounting officer, to that accounting officer

(2) The mayor, accounting officer or chairperson of the board of directors, as the case may be, must table an allegation referred to in sub-regulation (1) before the municipal council or board of directors in the case of municipal entities, not later than seven days after receipt thereof or at the next sitting of the council or board of directors.

(3) the person to whom an allegation of financial misconduct has been reported in terms of sub-regulation (1) must ensure that the report is treated in a confidential manner.

(4) this regulation must not be read as preventing a person from laying a criminal charge with the South African Police Service against any councilor, member of the board of directors of a municipal entity, or official of a municipality or municipal entity in relation to any conduct that may constitute an offence in terms of Part 2 of Chapter 15 of the Act.

(5) An official against whom an allegation of financial conduct is made must be given an opportunity to make written representation to the municipality or municipal entity as to why he or she should not be suspended, within seven days of being notified of the allegation.

2.11 In terms of section 36 of Municipal Supply Chain Management Regulations it states:

Deviation from and Ratification from minor breaches of procurement processes, “(1) A supply chain management policy may allow the accounting officer –

(a) to dispense with the official procurement processes established by the policy and to procure any required goods or services through any convenient process, which may include direct negotiations, but only –

- (i) in an emergency;*
- (ii) if such goods or services are produced or available from a single provider only;*
- (iii) for the acquisition of special works of art or historical objects where specifications are difficult to compile;*
- (iv) acquisition of animals for zoos; or*

- (v) *in any other exceptional case where it is impractical or impossible to follow the official procurement processes; and*
- (b) *to ratify any minor breaches of the procurement processes by an official or committee acting in terms of delegated powers or duties which are purely of a technical nature.*
- (2) *The accounting officer must record the reasons for any deviations in terms of sub-regulation (1)(a) and (b) and report them to the next meeting of the council, or board of directors in the case of municipal entity, and include as a note to the annual financial statements.*

3. MPAC COMPOSITION AND ATTENDANCE

3.1 During the period under review, the MPAC consisted of four (4) members who were appointed by Council. The MPAC met **four (4)** times during this period.

3.2 The table below sets forth the particulars of the members and their attendance at the meetings of the committee:

Members	Meetings Attended	17-Aug-22	07-Feb-23	28-March-23	13-June-23
Cllr. S. Shandu (Chairperson)	4	✓	✓	✓	✓
Ms. S. Nkwanyana	4	✓	✓	✓	✓
Mr. D Mthembu	4	✓	✓	✓	✓
Mr. S Mathonsi	3	✓	✓	✓	-

✓ = Present

- = Absent

4. MPAC RESPONSIBILITIES

- 4.1 Municipal Public Accounts Committee is a committee of council and therefore by a resolution in terms of section 79A of the Structures Act (as amended) determines its composition.
- 4.1.1 To ensure that municipal resources are used effectively and efficiently and report any deviations to Council;
- 4.1.2 To review Auditor-General reports together with comments from Management and Audit Committee thereon and to make recommendations to Council;
- 4.1.3 To review Internal Audit reports together with comments from Management and Audit Committee thereon and to make recommendations to Council;
- 4.1.4 To initiate and develop the Annual Oversight report as part of Annual Report; and
- 4.1.5 To attend and to make recommendations to Council on any relevant matter referred to it by Council, Exco, a Portfolio Committee, a member of MPAC, a Councillor, and the Municipal Manager,
- 4.1.6 On its own initiative investigate and report to Council on any relevant matter affecting the municipality.

5. BACKGROUND

- 5.1 In its meeting held on the 27th of July 2023, the following items were presented by the Municipal Manager and council took a resolution to refer such matters to the MPAC for further investigation;
- *Unauthorized, irregular, fruitless and wasteful expenditure for the year ended 30 June 2023;*
 - *Deviations from and ratification of minor breaches of minor breaches of procurement processes for fourth quarter ending 30 June 2023;*
- 5.2 MPAC then met on the 23rd of August 2023 at Sibusisiwe Community Hall to deal with these items and all members of the committee were present in the meeting.

5.3 The following officials were also interviewed in order to get clarities on some of the issues that needed clarity by the committee

- *Chief Audit Executive;*
- *Acting Chief Financial Officer;*
- *Manager Supply Chain Management;*
- *Manager Treasury;*

5.4 The committee members were satisfied with explanations and with evidence that was reviewed by the committee as part of the investigation process e.g., efforts made by the municipality (*i.e., correspondence and engagements between Mandeni municipality, King Cetshwayo, Ilembe District municipality and Eskom and Telkom to recover any interests that have been incurred by the municipality even though delays in submitting invoices were caused by these institutions*).

The detailed results of such investigations are below for consideration of the Committee;

CHAPTER 1

IRREGULAR EXPENDITURE INCURRED BY THE MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2023

- 1.1 The municipality has disclosed the irregular expenditure amounting to R14 883 769.61 in the irregular expenditure register as at 30 June 2023.
- 1.2. However, we noted that the item reported to Council on the 27th of July 2023 reflected the irregular expenditure incurred as R14 640 083.93 which was as a result of submitting irregular expenditure of human error of submitting the incorrect irregular expenditure register.
- 1.3. The irregular expenditure amount of R14 640 083.93 did not include a payment which was made to Lamazwide for an amount of R243 685.68 for the month of February 2023 however internal audit identified this and advised Finance to make a correction on the irregular expenditure amount which was subsequently corrected and re-submitted to MPAC.

- 1.4. The below tables give a breakdown of irregular expenditure and the reasons thereof;

TABLE A: IRREGULAR EXPENDITURE ALREADY INVESTIGATED BY THE MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)

- 1.5 The irregular expenditure transactions for the following three (3) suppliers have already been approved for write-off by Council having been investigated by MPAC. ***See attached resolution C105***

- 1.6 These transactions will no longer be reported as irregular expenditure in the current financial year since there has been no expenditure incurred on these transactions since December 2022 due to expiry of contracts that were deemed to be irregular.

- 1.7 The total irregular expenditure that was incurred on these contracts during 2022/2023 financial year amounts to R4 484 050.19 and these 3 contracts expired on the following dates

Refer to table below

SUPPLIER	CONTRACT	AMOUNT	CONTRACT EXPIRY DATE
Isichaka Esingenamona	Provision of solid waste removal.	R468 415.20	30-Sept-2022
Rural Metro Emergency Services	Project Management of Fire Rescue Services	R1 065 254.79	30-Sept-2022

	Provision of security services	R2 950 380.20	31-De-2022
TOTAL		R4 484 050.19	

TABLE B: IRREGULAR EXPENDITURE FROM LEASING OF MUNICIPAL OFFICES FROM SQUARE METER TRADING

1. The results of the investigation of extension of lease of municipal offices was presented to Council on the 30th of June 2023 by Chairperson of the Disciplinary Board and the following recommendations on this contract were adopted by Council;
 - a) THAT the report on the disciplinary board be noted and accepted;
 - b) THAT, with regards to the leasing of office space at Mandeni Square Centre contract, no consequence management should be implemented since the reasons that were provided were found to be sound by the disciplinary board and were in line with the section 36 of the municipality's supply chain management policy;
 - c) THAT, the disciplinary board resolved that the Municipal Public Accounts Committee recommends to Council to write-off the irregular expenditure amount of R459 563.72 (i.e., amount as at 31 May 2023) having conducted the investigations since;
 - *there were no financial losses occurred in this transaction;*
 - *the expenditure incurred did not occur due to the negligence but in good faith and as such no disciplinary action is required;*
2. The irregular expenditure amount which has been incurred on this contract on the 30th of June 2023, which is between 01 July 2022 and 30 June 2023, amounts to R554 615.80

**TABLE C: NEW IRREGULAR EXPENDITURE REPORTED DURING 2022/2023
FINANCIAL YEAR – NON-COMPLIANCE WITH CIDB**

- 1.1 The results of the investigation on non-compliance with CIDB regulations was presented to Council on the 30th of June 2023 by Chairperson of the Disciplinary Board and the following recommendations on this contract were adopted by Council;
- a) THAT, with regards to the irregular expenditure as a result of non-compliance with CIDB regulations, consequence management should be implemented against members of the bid evaluation committee and bid adjudication committee who were part of evaluating the three (3) bids in the form of warning letters, since this is the first offence, including Manager SCM who failed to provide proper advice to the bid committees;
 - b) THAT, should similar instances be identified in the future, harsher punishment should be given to the perpetrators;
 - c) THAT the consequence management against officials who continue not to comply be enforced;
 - d) THAT, irregular expenditure incurred on the three (3) contracts for an amount of R8 518 397.05 (i.e., amount as at 31 May 2023), which is the irregular expenditure incurred between 01 July 2022 and 31 May 2023, should be written-off by Council;
2. The irregular expenditure amounts which have been incurred on the 3 contracts on the 30th of June 2023, which is between 01 July 2022 and 30 June 2023, amounts to R9 845 103

The details of the three (3) transactions are as per below

SUPPLIER	REASON FOR IRREGULAR	PROJECT	IRREGULAR EXPENDITURE AS
----------	-------------------------	---------	-----------------------------

	EXPENDITURE		AT 30 JUNE 2023
Umhlathuze Builders Emporium	Non-compliance with the CIDB regulations - competitive bids	Swimming Pool Area Additions in Ward 15	R3 409 691.69
The curve behind trading 219 CC		Rehabilitation of Manono Road in Ward 15	R4 367 531.54
Lamazwide Projects (Pty) Ltd		Highview and Padianagar Combo Courts Additions and Improvements in Ward 3/4	R2 067 880.39
TOTAL			R9 845 103.53

RECOMMENDATIONS

It is recommended,

- a) THAT, the Municipal Public Accounts Committee recommends to Council to write-off the irregular expenditure of R14 883 769.61 since all the transactions that are on the irregular expenditure register have already undergone investigation processes by the Municipal Disciplinary Board as well as by Municipal Public Accounts Committee.

- *there were no financial losses occurred in these transactions;*
- *the expenditure incurred did not occur due to the negligence but in good faith and as such no disciplinary action is required, with the exception of irregular expenditure arising from non-compliance with CIDB regulations where members of bid committees were found to be negligence and consequence management implemented;*

CHAPTER 2

FRUITLESS AND WASTEFUL EXPENDITURE INCURRED BY THE MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2023

- 2.1. The municipality has incurred fruitless and wasteful expenditure for an amount of R324 523.51 for the financial year ended 30 June 2023
- 2.2. The Municipal Public Accounts Committee and Disciplinary Board has investigated the fruitless and wasteful expenditure for an amount of R278 027.85 (i.e., incurred between 01 July 2022 & 31 March 2023) and the results of the investigations were presented to Council on the 30th of June 2023. ***See attached fruitless and wasteful expenditure report.***
- 2.3. it is worth noting that the fruitless and wasteful expenditure transactions a made up of interest payment to the following institutions;
- *Telkom;*
 - *Eskom;*
 - *King Cetshwayo Municipality;*
 - *ILembe Municipality;*

2.4. The following challenges were previously highlighted by management when it comes to accounts with Eskom and Telkom;

- *Management acknowledges the challenges that exist between the two institutions in relation to the invoice dates and the payment dates, we have had several engagements with Eskom to try and improve the situation unfortunately, there still seems to be a challenge in this regard. The matter has been escalated to the Provincial COGTA to mediate and find an amicable solution in this regard.*
- *Eskom bills the municipality on the 20th of every month and the municipality pays Eskom invoices on the 30th of every month. Eskom expect to have received payments by the 7th of every month.*
- *Expenditure unit sends Payment allocation schedules to Eskom cash management section whenever the payment is made to show that the invoices have been paid on time.*
- *We are however left with no choice but to honour the payment while following it up with Eskom to avoid further charges.*
- *In some instances, Eskom do not submit invoices on time and then by the time they submit they would charge interest for late payment even though they submitted invoices very late.*
- *These challenges with Eskom cuts across all municipalities within the province;*

2.5. A detailed report, which shows nineteen (19) transactions, incurred during quarter 4 of 2022/2023 financial year and had not been investigated by MPAC during that time, with management comments and reasons as to why each transaction attracted interests is attached on the report;

- *Based on the attached report and the evidence provided, there was no evidence which suggests any delays from the user Departments, the days in which it took us to process all invoice from the dates of receipt, remain within the applicable 30 days period except for one transaction which was paid after 30 days as a result of non-receipt of emails at community*

services and public safety department as a result of unavailability of network for almost 2 weeks which resulted in delays in submitting invoices to finance for processing.

- 2.6. There is also Fruitless and wasteful expenditure that was disclosed in the financial statements for 2021/2022 financial year, which relate to the E-Fuel Ring that was stolen in February from the trailer and this expenditure could not be write-off since the matter was still under investigation by the municipality. The expenditure amounted to R613 998.46 and this investigation has been finalized.

It is recommended,

- a) THAT, the Municipal Public Accounts Committee recommends to Council to write-off fruitless and wasteful expenditure of R324 523.51 since all the transactions that are on the fruitless and wasteful expenditure have already undergone investigation processes by the Municipal Public Accounts Committee and that;

- *there were no financial losses occurred in these transactions;*
- *the expenditure incurred did not occur due to the negligence but in good faith and as such no disciplinary action is required;*

- b) THAT, the Municipal Public Accounts Committee recommends to Council to write-off fruitless and wasteful expenditure of R613 998.46 since;

- *the forensic investigators have finalized the matter and;*
- *consequence management was instituted against the affected officials.*

CHAPTER 3

UNAUTHORIZED EXPENDITURE INCURRED BY THE MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2023

UNAUTHORIZED EXPENDITURE THAT RELATES TO BULK PURCHASES

- 3.1. Management has identified an unauthorized expenditure for an amount of R6,132,543 Bulk Electricity budget allocated has been exceeded due to electricity demand by Umngeni Water. Further to that it should be noted that this over expenditure has been considered under Revenue electricity billing.

The Bulk Electricity expenditure exceeded the budget due to the expansion of Umngeni Water Plant, the plant increased its water generating capacity to circumvent the Hezelmere Dam shortfalls which came as a result of the KZN April 2022 floods which resulted to a serious distraction of the Bulk Water Infrastructure particularly in Ethekeeni and the Southern part of KwaDukuza. As expected, the increase in the demand for the generation and subsequent transmission, resulted to a rapid increase of electricity consumption thereby swiftly escalating the Municipal grid consumption, in that regard, the Municipal Bulk Electricity bill then followed the same upsurge thereby resulting to the excessive utilization of the initially recognized budget.

- 3.2 Safe to suggest that the same increase also translated to the Service Charges Revenue, and we have since witnessed a steady increase in this regard certainly above the adopted budget.

It is recommended,

- a) THAT, MPAC recommends to Council to consider the unauthorised expenditure

amounting to R6,132,543 for 2022/23 financial year.

- a) THAT, the Council acting in terms of Section 23(6)(b) of the Municipal Budget Reporting Regulations (MBRR) approves and adopt the special adjustment budget to authorise unauthorised expenditure for 2022/23 since;
- *there were no financial losses occurred in these transactions;*
 - *the expenditure incurred did not occur due to the negligence but in good faith and as such no disciplinary action is required;*

CHAPTER 4

DEVIATIONS FROM AND RATIFICATION OF MINOR BREACHES OF PROCUREMENT PROCESSES FOR FOURTH QUARTER ENDING 30 JUNE 2023

4.1 The following twenty-one (21) deviations were reported by management between 01 July 2022 and 30 June 2023 (***Refer to table below.***)

4.2 These deviations are broken down per department as follows;

- *Office of the Municipal Manager = 18*
- *Corporate Services = 1*
- *Community Services and Public Safety = 1*
- *Budget and Treasury Office = 0*
- *Economic Development Planning and Human Settlement = 1*
- *Technical Services = 0*

Table below shows deviations;

No.	Date identified	Supplier	Reasons for Deviation	Amount	Department
1	22/07/2022	Maphingwana Trading CC	Sole provider -Taxis to transport people to Mayor's interactive sessions. Mandeni and Sundumbili Taxi Association agreed to used Maphingwana Trading to procure transportation services. SCM Reg 36(1)(a)(i).	R26 000.00	OMM

	Total			R1 068 385.91	

- 4.3 The following four (4) deviations were approved by the Municipal Manager between 01 April 2023 and 30 June 2023 and these deviations had not been considered by MPAC before
- 4.4 Manager Supply Chain Management provided clarities that the Supply Chain Management Policy has been amended to exempt the procurement of taxi hire from obtaining 3 quotations. This then means that Mandeni SCM policy will allow SCM practitioners to obtain one quotation from the taxi association to provide taxis for permitted route.
- 4.5 Manager Supply Chain Management further indicated that the amended SCM policy is still being reviewed by KZN Provincial Treasury and will be presented to Council should Treasury find it to be in order.
- 4.6 He further indicated that transport hire has been included as part of travel agent contract which has been advertised and recently awarded in order to address the issue of deviations from taxi hire and that cost versus benefit analysis has been done by management.

Refer to the table below

No.	Date identified	Supplier	Reasons for Deviation	Amount	Department
1	05/04/2023	Adapt IT Holdings Ltd	Sole provider -Caseware Africa / Adapt IT is the sole distributor of caseware software product in South Africa. The system is compatible with our financial system. SCM Reg 36(1)(a)(i)	R193 735.91	Corporate Services
2	21/06/2023	ICORA FM	Sole provider- Local Service station that covers Mandeni area.	R145 000.00	OMM
3	30/06/2023	Humble Frank Pty Ltd	Service provider who was appointed withdrew on last minutes after working hours. End user informed SCM Manager who appointed Humble Frank Pty Ltd urgently since he was not aware of other suppliers quoted.	R 16 000.00	OMM
4		Aims School Wear	Municipality negotiated directly with supplier for the best price, availability of uniforms for all different schools. Other shops do not stock uniforms for all the relevant schools being catered for.	R40 000.00	OMM
TOTAL				R384 735.91	

RECOMMENDATIONS

It is recommended THAT;

- a) THAT, the supply chain management policy should be amended and include section on the process to follow for transport hire;
- b) THAT, the deviations that were approved by the accounting officer between 01 April 2023 and 30 June 2023 amounting to R384 735.91 be noted by Council;
- c) THAT, the deviations for the year ended 30 June 2023 amounting to R1 068 385.91 be noted by Council;

CHAPTER 5

AUDIT ACTION PLAN

- 5.1 Progress on the implementation of audit action for the year ended 30 June 2022 was also considered by the committee and the following was noted;
- 5.2 Progress on the preparation of the Annual Financial Statements for 2022/2023 financial year

- a) Management has developed an Annual Financial Statements (AFS) plan for 2022/2023 financial year which clearly indicates;
 - *all components of the financial statements;*
 - *key performance areas of the components;*
 - *the name of the responsible official(s);*
 - *deadlines/timeframes.*
- b) There are regular audit steering committee meetings, which consists of internal audit and finance team, to discuss the progress on the implementation of the AFS plan where challenges are presented and ways to overcome them are devised.
- c) Furthermore, the updated AFS plan is presented at Full Management and Top Management committee meetings for strict monitoring and adherence to the timeframes.
- d) A firm of internal auditors, due to limited human resource capacity within internal audit unit, has been selected from the panel of professional service providers who provides internal audit services to review annual financial statements and the first report with findings identified on the financial statements by internal audit was presented to the audit committee on the 21st August 2023.
- e) The review is still on going until 30 August 2023 when there will be a special audit committee meeting to consider the second report of internal auditors with finding raised and to confirm whether all findings raised by internal audit and audit committee have been fully addressed.
- f) The Acting CFO confirmed that all findings that have been raised by internal audit have been addressed and more findings will be addressed until the 30th of August 2023 before the financial statements are presented to Council for noting on the 31st of August.

5.3 Findings on Supply Chain Management

- g) Supply Chain Management is one of the high-risk areas when it comes to compliance with laws and regulations, which is one of key focus areas of the Auditor-General. As a result, internal audit conducts regular audits on Supply Chain Management processes that are followed by the municipality and findings are communicated with management for corrections.

- h) There was one finding which was identified by the Auditor-General which affected the audit report and this finding relates to non-compliance with CIDB regulations and internal audit has finalized audit of all tenders that were awarded between 01 July 2022 and 30 June 2023 and from this audit we did not identify similar instances of non-compliance with CIDB regulations.

5.4 Findings on performance management (PMS)

- i) Another element that is audited thorough by the Auditor-General is the Annual Performance Report. One of the findings that were identified by the Auditor-General is lack of correlation between reasons for not achieving and corrective measures and this finding has not been resolved by management as it is raised on a quarterly basis by internal audit.
- j) MPAC noted with concerns repeat findings that were identified by internal audit on the draft Annual Performance Report and issue of targets that were achieved however the achievement is neither supported by portfolio of evidence nor portfolio of evidence that is credible. These findings were presented to the audit committee meeting by internal audit on the 21st of August 2023
- k) Manager PMS will be expected to provide progress on addressing the findings raised by internal audit to the audit committee on the 30th of August and members of MPAC are invited in these meetings and we have obtained assurance from management that all the findings will be resolved prior to the submission of AFS and APR to Auditor-General on the 31st of August 2023

RECOMMENDATIONS

It is recommended THAT;

- a) The progress on implementation of audit action plan be noted by Council.
- b) Management should ensure that all findings that have been raised in the internal audit

reports by internal audit are addressed by management by 30 August 2023.

Prepared by:

**CHAIRPERSON OF MUNICIPAL
PUBLIC ACCOUNTS COMMITTEE
(MR. S SHANDU)**

2.11 SUPPLY CHAIN MANAGEMENT

OVERVIEW: SUPPLY CHAIN MANAGEMENT

Supply Chain Management operates within the parameters set down by the constitution and is supported by the different legislative mandates which are mainly the following:

- Municipal Finance Management Act 56 of 2003
- Broad Based Black Economic Empowerment Act 53 of 2003
- Preferential Procurement Policy Framework Act 5 of 2000
- Construction Industry Development Board Act 38 of 2000
- National Treasury Supply Chain Management Regulations
- National/Provincial Treasury SCM Practice Notes and Circulars
- Supply Chain Management Policy of Mandeni Municipality

Supply Chain Management Unit operates directly under the supervision of the Chief Financial

Officer, Ms. N.M. Mngomezulu. Below is a tender register for the 2022/23 Financial Year.

Section 75 of the Municipal Finance Management Act, 56 of 2003 requires the Accounting Officer of the municipality to place on the website the municipal documents referred to in Section 21 (a) of the MSA

5. 2022/23 Final IDP	Yes
6. All budget related policies	Yes
7. 2022/23 Annual Report	Yes
8. 2022/23 Performance Agreements for Senior Managers as per section 57 (1) (b) of the MSA	Yes

2.13 BY-LAWS

Mandeni Municipality by-laws are laws that are adopted by the Council of Mandeni Municipality to regulate affairs and services within the jurisdiction of the Municipality.

Keeping of animals by-laws, Integrated Waste Management by-law, Fire-prevention by-laws, financial by-laws, environmental by-laws, electricity supply by-laws, public open spaces by-laws share a purpose of resolving conflicts and disagreements that protect the municipality from potential problems by clearly outlining rules around the authority levels, rights and expectations in the Municipality jurisdiction.

Public-satisfaction on municipal services

Mandeni municipality has an office responsible for public complaints to be attended to accordingly. The municipality also develops suggestion box that permits community members to express their views regarding the kind of services rendered by the municipality. This is imperative in measuring citizens satisfaction in all services rendered by the municipality such as road, electricity, housing, waste removal, etc. The customer care office which is part of the Office of the Municipal Manager has an officer whom deals with public satisfaction. This box helps the municipality understand better their public needs. These

suggestions are helpful in overcoming challenges in all Mandeni Municipality wards. It is also important that it promotes Batho Pele Principles by enhancing the quality and accessibility of municipal services by improving efficiency and accountability to put the community in all goods and services. Batho pele principles include consultations, dealing with complains, access.

Municipal Oversight Committees

All of the oversight committees play an imperative role in order to ensure that municipality implement all relevant legislations and compliance for example, Municipal Public Accounts Committee, section 129 of the MFMA states that the council must table the consolidated and oversight report on the annual report for 2022/23 financial year.

Section 79 committee on governance oversight states that it shall consider and make recommendations to council on the following matters, legislative role, participatory and representatives.

CHAPTER 3

SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

CHAPTER 3

SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART I)

COMPONENT A: BASIC SERVICES

In the 2022/23 financial year, Mandeni Municipality rendered infrastructural development projects. The municipality is discharged with a responsibility to provide basic services to the community within its jurisdiction amongst others are the provision of Low-Cost Houses, electrification and roads in partnership with the Department of Human Settlements and Eskom.

The Mandeni Local Municipality has control over providing basic services relating to refuse collection and disposal, access roads and associated storm-water management and housing.

The iLembe District Municipality is the Water Services Authority and Provider for the Mandeni Municipal Area of Jurisdiction and therefore are in control of the water and sanitation services provision within Mandeni.

The Mandeni Local Municipality has a license to distribute electricity within the Mandini Suburb (ward 03) only and there are no backlogs or indigent households in this licensed area. The remaining areas within the municipality are supplied by Eskom who has the license to distribute electricity in those areas. All the Municipal backlogs relating to basic electricity services are within Eskom's license area of jurisdiction. The Municipality is intervening in the electrification backlog eradication through the Integrated National Electrification Programme (INEP) grant under schedule 5B of the Division of Revenue Act (DoRA) managed by the Department of Energy (DoE).

3.1. WATER PROVISION

The Constitution of the Republic of South Africa, 1996 assigns the responsibility of ensuring access to water services to Local Government. Furthermore, the Water Services Act, 1997 entrusts the municipality with the provision of affordable, efficient on-going water services which is sustainable.

In terms of section 84 of the Local Government: Municipal Structures Act, 117 of 1998 the function of providing water and sanitation services within the Mandeni Local Municipality is a function given to the iLembe District municipality (IDM).

The Tugela River which is also the largest river in the KwaZulu-Natal Province and second largest river in South Africa traverses the Mandeni Local Municipality and terminates at Tugela Mouth still within the Mandeni Local Municipality Jurisdiction. This river catchment is the primary source of raw water for the area. The IDM extracts 40 million litres of water from the Tugela River daily for treatment and distribution to the local communities and businesses. The IDM has planned and is in the process of implementing major water schemes such as the Ndulinde and Macambini Water Schemes which will serve those communities with a reliable supply of water extracted from the Tugela River. These schemes once complete will ensure water security for the area into the future.

The IDM has further partnered with the Umgeni Water Board to plan and establish regional bulk water scheme known as the lower Tugela Bulk Water Supply Scheme (LTBWSS) which will see the extraction of 110 million litres of water per day from the Tugela River to supply the southern parts of the Mandeni and the iLembe Region including parts of the eThekweni Municipality. Currently phase 1 of the LTBWSS is under construction for 55 million litres per day extraction, purification and transportation.

3.2 WASTE WATER (SANITATION) PROVISION

The Constitution of the Republic of South Africa, 1996 assigns the responsibility of ensuring access to water services to Local Government. Furthermore, the Water Services Act, 1997 entrusts the municipality with the provision of affordable, efficient on-going water services which is sustainable.

In terms of section 84 of the Local Government: Municipal Structures Act, 117 of 1998 the function of providing water and sanitation services within the Mandeni Local Municipality is a function of the iLembe District municipality (IDM).

The IDM provides full water borne sanitation services to the urban areas and these are supported by the Sundumbili, Mandini and Tugela Waste water treatment plants.

All other rural areas are serviced by VIP toilets. Some isolated areas of settlement have conservancy tanks or soak pits such as the Tugela Beach area.

The Municipality under the year in review ensured 3 Water and Sanitation Reports was submitted to the Infrastructure Development and Technical Services Committee meeting by collating information sourced from the district municipality (iLembe).

3.3 ELECTRICITY

The Mandeni Municipality has a very small license area for electricity distribution (Mandini Suburb in ward 3). The rest of the area is supplied by Eskom.

The municipality and Eskom are guided by the Electricity Amendment Acts 1989; 1994; 1995; and the Electricity Regulation Act 2006 in carrying out their function.

Under the year in review the Mandeni Municipality in respects to the provision of electricity managed to accomplish the following;

- On-going electricity repairs and maintenance are being carried out on municipal buildings and facilities.
- 6 high mast lights were installed in wards 3,5,9,11 and 12 in the 2022-23 FY

3.4. WASTE MANAGEMENT (THIS SECTION TO INCLUDE: REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

The Bill of Rights in RSA Constitution, Chapter 2 Section 24 under environment states that everyone has the right to acquire the environment that is not harmful to the well-being of individuals. It is for that reason that the municipality ensures that waste collection for both public and business are collected timeously. Furthermore, the municipality ensures that grass-cutting in various wards are maintained. That is why the municipality successfully procured 1 Compactor Truck, 10 brush-cutters, 15 skip bins in ward 4,7 and 18 during 2022/23 financial year.

Also, the municipality is consistent in weekly waste collection in all 18 wards which achieved a total of 261 collections per annum in the 2022/23 FY.

Furthermore, the monthly grass-cutting performed and achieved was 8 122 178 square metres.

3.4.1 CHALLENGES

The following are some of the challenges that the Municipality faces in terms of effective compliance with legislative prescripts regulating waste collection.

3.4.1.1. NON-AVAILABILITY OF WASTE TRANSFER STATION AND/OR LANDFILL FACILITIES

Due to access to a suitable land to develop a waste transfer station and/or a landfill site, this is causing the Municipality to incur huge waste transportation and disposal costs as each waste truck has to make at least 160 kms to and from King Cetshwayo District Municipality disposal site in Empangeni to dispose waste.

Also, the wear and tear costs of the trucks are increasing due to this long distance that they have to travel daily and weekly.

3.4.1.2. ILLEGAL DUMPING OF DOMESTIC AND GARDEN WASTE

This is one of the challenges being experienced mainly due to the non-availability of a transfer station and/or landfill facilities which makes it difficult to enforce by-laws.

Secondly, the lack of financial resources to procure vehicle and equipment to deal with illegal dumping is also a set-back in terms of the upkeep of the municipal areas.

3.4.1.3. POLLUTION OF NATURAL RESOURCES

Notwithstanding concerted effort to manage waste effectively, however, as long as the members of the community are not taking the responsibility water, soil, cur, etc. will continue to be polluted.

3.4.2. PROPOSED SOLUTIONS

The possible solutions to the abovementioned and other related challenges are dependent on lobbying and mobilizing resources from other organs of state as well as the private sector and non-government sector.

3.4.2.1. LAND ACQUISITION FOR DEVELOPMENT OF WASTE TRANSFER STATION AND/OR LANDFILL FACILITIES

It is necessary that the Department of Rural Development and Land Affairs and Ilembe District Municipality be approached to assist with the identifying and making available a suitable land for this purpose.

It also points to mobilizing funding sources within the National Department of Environmental Affairs to develop such facilities.

In fact, both the Rural Development and Land Affairs Department and the District Municipality were approached subsequent to the Executive Committee having made such a decision in December 2018.

It is noteworthy that the District Municipality through the Vuthela Programme/Project has embarked on a feasibility study to develop a regional landfill facility which will assist the municipality to disposal costs.

Also, the District Municipality has committee to assist the Municipality with the review of its integrated Waste Management Plan (IWMP) which is a compliance issue in terms of Section 11 of the NEM: Waste Management Act, 2008 (Act No. 59 of 2008).

3.4.2.2. PROVISION OF FINANCIAL RESOURCES

It will be necessary that as the Municipality improves its debt collection, and/or identifying other funding sources, consideration be given to provide funding for procurement of vehicles plant and equipment to deal with illegally dumped waste.

3.4.2.3. REINFORCEMENT OF COMMUNITY EDUCATION AND AWARENESS CAMPAIGN

The implementation of Youth Jobs in Waste Management Programme by the National Department of Environmental Affairs from April 2014 to 31 October 2018 assisted a great deal to educate and make community members aware of the negative effects of disposing waste illegally and irresponsibly.

As a result of lack of adequate resources to reinforce community education and awareness campaigns, the Department of Environmental Affairs will be approached to ascertain if such a Programme can be re-introduced in the same or similar form.

In the meantime, ward campaigns will be done continuously also as part of Back-to-Basic and Thuma Mina Campaigns.

WASTE KERB COLLECTION

. The annual waste Collection target of 261 times in all wards (including residential and business premises) was achieved.

COMMERCIAL WASTE COLLECTION

. Due to a large area of the municipality being rural and the fact that the Municipality is entrusted with ensuring that it promotes a healthy and safe environment for its community, it (municipality) reaches out to rural community by providing waste skips which are placed in strategic positions so as to ensure that each skip services as many as two hundred (200) households.

In April 2022 weekly waste collection was expanded to new newly constructed township are namely, Khenana at wards 10. Subsequently 40 Additional skips were procured and distributed to the following wards: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 16,17 & 18 thereby increasing the number of households from serviced by waste skips from 21 600 to 24 800. That is, 200 households multiplied by 124 waste skips. This attributes to 58% of households having access to waste collection which increases the percentage rate from 45 678 households according to 2021 census stats report.

3.5HOUSING

The municipality in partnership with the Department of Human Settlements has been continuously delivering low-cost houses through RDP Programme in both Urban and Rural areas of Mandeni.

HOUSING DEVELOPMENTS

- The municipality during the Financial Year under review had only 4 housing projects that were under construction funded by the Department of Human Settlements (DoHS) during the 2022/23 financial year being Inyoni Integrated Housing Project (Ward 3, 7, 10, 11, 12, 13, 14, 15,16, 17and 18), phase five of the Macambini Rural Housing Project (Ward 1, 2, 8 and 9) and phase three of the Isithebe Rural Housing Project (Ward 11, 12, 16, 17 and 18). A lot of progress was registered during the financial year under review in the various housing projects which is further detailed below:
- **Inyoni Housing Project:** In the 2022/2023 financial year construction of units under project phase 01, 02 and 03 was underway for approved beneficiaries forward 3, 7, 10,11, 12,13, 14, 15, 16, 17 and 18. The progress made as at 30 June 2023 includes. The progress to date 1032 units is complete 61 are at roof level, 80 units are at wall-plate level, 171 units are at foundation level and 190 are greenfield. The implementing agent resumed construction activities to complete outstanding works for 508 units in phases

1,2 and 3. The process was confronted with various challenges including the involvement of local sub-contractors. extensive deliberations were held towards addressing issues of contractual arrangements and rates between implementing agent and local sub-contractors. This impacted severe delays on the project. The implementing agent has started with conducting remedial work on 86 houses that were vandalized, upon completion beneficiaries are to take occupation. The implementing agent will subsequently proceed to complete the construction of the balance of 422 houses across phases 1, 2 and 3. The Municipality, in collaborative efforts with Department of Human Settlements and Ilembe District Municipality have made significant progress towards finalizing the process to appoint a service provider to complete the installation of bulk and internal services infrastructure in Phase 4 of the project.

- **Isithebe Rural housing (11,12, 16, 17 and 18):**

The Department of Human Settlement approved 300 units for Phase 3 of the project (300 out of 2000 units). The completion of project sub-phases 1 and 2 has yielded a total of 600 units that have been handed over to beneficiaries of the project. Approval for project sub-phase 3 was granted by the Department in November 2022 however delays were experienced in finalization of contractual arrangements, appointment of local sub-contractors, site establishment of the main contractor on site, material supply and delivery. This required extensive deliberations to be held across the various stakeholders to achieve middle ground. As at 30 June 2023 construction activities completed in sub-phase 3 includes 284 platforms and 50 foundations.

- **Macambini Housing Project (Ward 1, 2, 8 and 9):** This housing project has progressed significantly in its construction programme; phases one, two, three and four of the projects consisting of 1650 units have been completed and handed over the beneficiaries. The final phase of the project was approved by the Department of Human Settlement was approved in December 2022 however there were delays in the project including; finalization of contractual arrangements, the contract was signed in May 2023;

The implementing agent then engaged in a process to appoint local sub-contractors to participate in the project. There were modifications on the house design to include a utility room; A process was undertaken to workshop the new house plan to all the relevant stakeholders. As at 30 June 2023 the progress made under sub-phase 5 includes 108 platforms and 13 foundations.

- **Title Deeds Restoration Programme; Tugela Ext 3 & Sundumbili Township R293 Properties:** During the title deeds restoration programmes serves well to promote secure tenure for the residents of Mandeni who have been in recipient of housing subsidies pre and post 1994. As at 30 June 2022 a total of 1358 title deeds have been transferred under the Hlomendlini Housing Project. The Municipality has appointed a conveyancer to assist with the beneficiary verification of 549 cases with disputes under the projects. The process to verify and process these cases is on-going. The conveyance is also undertaking to address s 430 cases identified to have disputes in the Sundumbili area that were recorded previously under a pilot project implemented by the World Bank and Vuthela. As at 30 June 2023 that conveyancing team has verified 284 files (representing 62% of the project cases) whilst facilitating for the lodgment of 96 title deeds, it was discovered that the Sundumbili township is subject to upgrading of township as per the in line with the amendment of the Upgrading of Land Tenure Rights Act. Extensive engagement is on-going with the Deeds Registrar in seeking guidance on the process to submit for upgrading of township under the recent amendment of the Act. Significant progress has been in transfer of title deeds within Inyoni IRDP, as at 30 June 2023 283 title deeds have been transferred to beneficiaries. Activities towards the registration of more title deeds under the project are on-going, including the registration of underlying property that is a pre-requisite for registration of title deeds under portion of the project area.
- **Operation Sukuma Sakhe (OSS) cases:** The OSS programme caters for extraordinary circumstances of people living under highly vulnerable conditions that require urgent

human settlements intervention. As at 30 June 2023 the Department of Human Settlements has approved funding and appointed service provider to implement various OSS projects. This includes 30 OSS cases) across wards 1,2,3, 6, 9, 10,12 and 15); 49 OSS cases (across wards 1, 3, 4, 5, 6, 7, 9, 10, 12, 15 & 18) and 115 cases (across wards 4,5,6,7,8,9,10,11,12,13,14,15,16,17 & 18). The service providers have been undertaking pre-construction activities including beneficiary administrations toward processing beneficiary approvals on the HSS system as well as packaging of applications for NHBC project and home enrolment. Upon completion of these pre-requisite activities construction of units will commence on the ground.

3.6. FREE BASIC SERVICES AND INDIGENT SUPPORT

The Mandeni Local Municipality aids indigent households with regards to free basic services relating to refuse collection and disposal, electricity and rates. Refuse collection and disposal is provided free of charge to rural households through communal bins (skips) strategically placed within walking distances. 50kwh of free electricity is supplied to qualifying households within the Eskom supply area through an agreement entered into with Eskom whereby Eskom is reimbursed by the municipality.

The first R15 000 of the property value of all households is not rated and indigent households are exempt from rates and other charges. The iLembe District Municipality aids all households with access to 6000 litres of water per month free of charge. All VIP toilets are free of charge.

In order to qualify for the free basic electricity, indigent households are required to register for the service with Eskom and only approximately 50% of the potential indigent households registered for and received the free service allocation for the year. An average number of 1086 households received free basic electricity for the year. Qualifying households are

encouraged to take up the support by registering for it. Over 6000 households received free basic refuse services for the year.

COMPONENT B: ROAD TRANSPORT

The municipality prepared and adopted a Roads Master-plan for its area of jurisdiction. This exercise has established that the Municipality has approximately 700km of municipal access roads under its jurisdiction. Approximately 15% of these roads are urban paved roads whilst the remaining approximately 85% are rural unpaved roads requiring mechanical maintenance and repair work at high cost.

The municipality is well serviced by major roads within the area. The N2 freeway runs north – south in the municipality linking it to the major ports of Richards Bay and Durban. The R102 fulfils the similar function. Other main roads link these two major corridors to the hinterland to the west. The KZNDOT is currently upgrading the D883 that links the Mandeni Municipality to the Umlalazi Municipality through the Ndulinde area. They have further appointed a contractor for the upgrade of the P415 to Thukela Mouth Beach.

3.7 ROADS

Through the roads master-plan formulation the municipality has established a pavement management system to manage its existing roads infrastructure assets and a prioritisation model for investment in new roads infrastructure. The rural roads require constant importing of gravel onto them and gravel is a scarce commodity that needs to be transported long distances at very high transport costs. The municipality has an in-house routine rural dirt/gravel road maintenance programme using the municipal plant and equipment. The works under this programme entails re-gravelling and blading.

Other routine maintenance programmes relate to pot-hole repairs and drainage maintenance being done in-house. The municipality has two other programmes that are capital in nature, i.e. Urban Roads Rehabilitation Programme and Rural Roads Rehabilitation Programme. The Urban Roads Rehabilitation Programme addresses the ageing dilapidated infrastructure by renewing the assets. The Rural Roads Rehabilitation Programme addresses the rural dirt roads by planning, designing and constructing them properly complete with associated storm-water drainage. New roads are also being constructed in support of Human Settlements Projects.

ROADS AND STORMWATER

- 1729.2 m² potholes repaired in wards 2,3,4,7,10,12,13,14,15 on urban roads by 30 June 2023
- 150m of guard rails were constructed in ward 7 and 12 and 10 by 30 June 2023
- 10 headwalls were constructed in various wards.
- 25 Speed humps were constructed in wards 3,7,13, 14 and 15.
- 373.1 km of gravel roads were maintained in-house in various wards.
- 250 m of kerbs and concrete channel were constructed in wards 2,3 and 12.

3.8 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

- Mandeni Municipality approved authority to function as a Grade E Driving License Testing Centre (DLTC) that does not permit the testing of driving licenses and Motor Licensing Bureau (MLB) status. The restriction caused by the fact that the Municipality still does not have a testing ground and enough space for Motor Licensing (MLB). Otherwise, it will be progressed as a Grade D DLTC with Motor Vehicle Licensing (MLB).

However, the DLTC is having some challenges where poor performance by Contractor was identified, such as meeting the deadlines, financial constraints as well as lack of human

resources. The delays in procurement process had some challenges, however the new Contractor was appointed and the project was launched, though it was delay the project commencement, due to non-availability of leadership.

During the period under review, the CSPS its revenue collection generated cash revenue of R2 938 834.06 from all the transactions performed by the Centre. This will be more if the testing ground was fully functional this revenue would been doubled or tripled. Most importantly, both Provincial and National Departments of Transport have been giving the DLTC a clean audit from its date of operation in 2014 to date

3.9 WASTE WATER (STORMWATER DRAINAGE)

The municipality prepared a comprehensive storm-water master-plan for its area of jurisdiction. The municipality carries out routine storm-water repairs and maintenance and also upgrades and installs new storm-water systems during roads provisioning and human settlements projects. Storm-water drains unblocking is routinely being done in various wards.

COMPONENT C: PLANNING AND DEVELOPMENT

3.10 PLANNING

The Mandeni municipality has made great strides in terms of the functioning of the town planning component of the municipality which is fully-fledged and functional.

STRATEGIC PLANNING

- **Preparation of the IDP**

The planning unit is responsible for the preparation of the Municipal IDP and ensures the compliance with Chapter 5 of the MSA.

- **Public participation**

The municipality in line with Section 16(1) (a)(i-iv) of the Municipal Systems Act which encourages the involvement and participation of communities and other stakeholders in the affairs of the municipality in particular IDP, PMS and Budget planning process engaged all communities across the municipality at Ward levels through a ward cluster approach and all other stakeholders to ascertain their needs and issues.

Local Economic Development

- The planning unit is critical in the facilitation of local economic development through the identification of appropriate areas for business to operate. The Planning Unit continued to play an advisory role on Tourism related issues in line with the existing Local Area Plans for both Tugela Mouth and Dokodweni Areas. The town planning unit continues to provide comments and inputs in the issuing of business licenses and permits.

LAND USE MANAGEMENT

- The Town Planning unit ensures compliance with the adopted Urban town planning scheme. The Town Planning unit also ensured the workshopping of the bylaw enforcement officers on such scheme and continues to work hand in hand with the colleagues to ensure efficient bylaw enforcement.
- The planning continued to ensures compliance to the Spatial Planning and Land Use Management Act through processing of Land Development Applications with legislated time frames.
- During the 2022/23 financial year the planning unit Rolled-out capacity building programmes to critical stakeholders on Land Use Management and applicable Spatial Plans.

SPATIAL PLANNING AND SPLUMA

- The Municipality in its implementation and compliance with Spatial Planning and Land Use Management Act 16 of 2013 (SPLUMA) processes development applications through the District Joint Municipal Planning Tribunal (MMN JMPT) constituted by the three local Municipalities namely Mandeni, Maphumulo and Ndwedwe Municipality. During the year under review, a total of 9 planning applications were received by the Municipality for assessment. Four applications were been tabled to the MMN JMPT for approval and 3 were approved with conditions and 1 application was referred back to the applicant. The other five (5) applications are within the legislated timeframes and are being subjected to the legislated processes of SPLUMA.
- The Planning unit continues to receive applications pertaining to land requests for various uses ranging from the establishment of small businesses to the establishment of municipal office space by government departments and service delivery projects by the internal municipal departments. These applications and requests are channeled through the various council structures accordingly.

3.11. LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

The municipality through Section 152 (1)(c) through a number of interventions programme has been striving to promote local economic development within its jurisdiction with focus on SMME Development and support; Agricultural; job creation (poverty alleviation) and Tourism economic sectors.

COMPONENT D: COMMUNITY & SOCIAL SERVICES

3.12. CEMETORIES AND CREMATORIALS

- While the Municipality has identified a close to suitable land for the establishment of a cemetery and crematoria facility, however relevant studies are still being conducted and negotiations are underway to determine the possibility of purchasing the land.
- At the moment the Municipality unfortunately has no burial site facility regrettably.

COMPONENT E: ENVIRONMENTAL PROTECTION

3.13. POLLUTION CONTROL

By virtue of the Municipal health services being the competence of district and metropolitan municipalities in terms of the National health Act, 61 of 2003 read with the Air Pollution Control Act 39 of 2004, and the fact that pollution control is one of the services of both the district municipality and the provincial government (in terms of control of hazardous substances), Mandeni Municipality relies on the Ilembe District Municipality as well as other private sector and/or non-governmental organisations, including National government in terms of controlling pollution of its natural resources.

COMPONENT F: HEALTH

Constitutionally and legally the health service is a functional area of concurrence of national and provincial legislative competency.

However, the Municipality in discharging its duties as an organ of the State and in compliance with Section 153 of the Constitution read with Section 23 of Municipal Systems Act had cooperated with and offered its assistance and support to the Department of Health in rendering the health services. This includes attending its official events / campaign and support the Department with requests such as making availability of community hall facilities or hire tents for them in area where it does not have community hall facilities to be used in community education and awareness campaigns.

Also, the Municipality had constituted a Health and Social Services Forum over and above the Operation Sukuma Sakhe structure with a view of providing an opportunity to health and social services stakeholders to engage, share experience and learn from one another in a bid to enhance the lives of the community of Mandeni.

3.14 CLINICS

There are seven clinics within Mandeni Municipality jurisdictional area with Sundumbili Community Health Centre coordinating the activities of other local clinics. Unfortunately, the Municipality still lacks a hospital, hence the residents of Mandeni are referred to Stanger Hospital in KwaDukuza for hospital services.

3.15 AMBULANCE SERVICES

The ambulance services are an exclusive competence of the provincial department of health

3.16 HEALTH INSPECTION; FOOD AND ABBATOIR LICENSING AND INSPECTION;

With the advent of the National Health Act, 2003 (Act No.61 of 2003), the environmental health services became a competence of district and metropolitan municipalities. Hence, for health inspection the municipality relies on the district environmental health services.

COMPONENT G: SECURITY AND SAFETY

3.17 POLICE

Constitutionally and legally, police service is the concurrent competence of National and Provincial Governments. However, with the advent of the Civilian Secretariat for Police Service Act, 2 of 2011 coupled with the National Safety Plan and the Community Safety Forum Policy, municipalities are charged with the responsibility of community social crime.

It must be mentioned that the Municipality is in its infancy stage in terms of compliance with its mandate.

But, as a part of upholding the community's safety, the Municipality is finalizing the outsourcing of the service that will be rendered the animal pound service by Section 3(2) of the KwaZulu Natal Pound Act 3 of 2016. It has been established by the Provincial Social and Justice Cluster that stray and trespassing animals are a severe threat to public safety both from the roads and in the social environment of people in terms of infectious diseases. Hence, they must be impounded, not herded or if trespassing.

3.18 FIRE

With the appointment of Rural Metro Emergency Management Services to render the fire service

3.19. OTHER (DISASTER MANAGEMENT, ANIMAL LICENCING, AND CONTROL, CONTROL OF PUBLIC NUISANCES AND OTHER)

DISASTER MANAGEMENT

Since the Municipality Disaster Unit, in partnership with iLembe District Municipality, conducted disaster risk education and awareness campaigns, community members have taken their health and safety seriously.

The Disaster Management has conducted Four (04) Disaster Management Advisory Forum (DMAF) meetings, one (01) Disaster Volunteers Launch, eighteen (18) awareness campaigns, and Fourteen (14) disaster management-related incidents encompassing 488 people in the 2022/23 financial year.

ROAD TRAFFIC SAFETY AND LAW ENFORCEMENT

The traffic department conducted 38 bi-monthly roadblocks to ensure that motor vehicles are in good condition as well as safety of the commuters are taken into consideration.

To reduce these negative statistics, the road traffic law enforcement Unit, working with other similar state agencies, staged thirty (30) joint operations aimed at police visibility and twelve (12) Community education and Road safety awareness and law enforcement.

COMPONENT H: SPORT AND RECREATION

3.20. SPORT AND RECREATION

➤ Sports and Recreation Programmes

- The Municipality successfully procured sporting codes by the 31st December 2022.

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

3.21 HUMAN RESOURCE SERVICES

- Municipal Finance Management Program (MFMP)- Employees and Councillors participated in this programme funded by the Local Government Sector Education and Training Authority (LGSETA) and acquired a vast knowledge in terms of Municipal Compliance and Operations. Hence, this project caters for all the activities of the municipality, eg. SCM, performance management system, project management, etc.
- Staff bursaries- Employees are given the opportunity to acquire further skills and qualifications through staff bursaries.
- Staff development programmes- Training is provided to staff members across provinces which are provided by Salga, COGTA, provincial and national treasury.
- Workplace Skills Plan (WSP)- The total percentage of employees that were trained according to the WSP prescriptions were 100%.
- Employee Wellness Program- Staff members that experience any difficulties regarding work-related and personal stress are provided with help through this program which helps them cope better by being provided with a psychologist for counselling.
- Learnerships and Inservice training- Mandeni municipality allows individuals to apply for learnerships and in-service training to help them acquire skills and working experience.

3.22 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

ICT ANNUAL REPORT FY 2022/23

- 1.1. In the 2022/2023 financial year the Mandeni Municipality's ICT continued its commitment to enhancing digital capabilities and improving IT infrastructure to the latest technologies.
- 1.2. Through the development of the IT strategy project, significant progress has been made in ensuring that ICT objectives are aligned with those of the municipality defined in the IDP. This includes ensuring that all ICT projects are aligned with the organization's strategic goals.
- 1.3. IT also implemented robust risk management processes to identify and mitigate potential risks associated with ICT projects. Risk assessment was conducted with the assistance of KZN Treasury to ensure the accurate risk identification and classification after which a risk register is generated.
- 1.4. The development of an enhanced municipal website has been one of the priority projects. Although still under development but key objectives i.e., online recruitment facility, have been met. It is important to note that the municipal website platform contains rich information and important resources for the citizens of Mandeni.
- 1.5. Through the implementation of Microsoft 365, we have continued to deliver value to the organization by migrating the email infrastructure to the cloud to ensure business continuity in cases of service disruption such as load-shedding.
- 1.6. The IT unit continues to adapt to business changes by continuous network upgrades to its ICT infrastructure capabilities to ensure network stability and accessibility.
- 1.7. As we move forward, we remain committed to continuous improvement and innovation to deliver efficient and robust IT solutions aligned to the strategic goals of the organization.

Website

Section 75 of the Municipal Finance Management Act, 56 of 2003, requires the accounting officer of a municipality to place on the website referred to in section 21A of the Municipal Systems Act the following documents of the municipality:

Information to be placed on the website 2022/23	
1. Adjustment budget 2022/23	Yes
2. Mid-Year and Performance Report	Yes
3. MTREF Budget 2022/23	Yes
4. Final IDP 2022/23	Yes
5. All budget related policies 2022/23	Yes
6. Annual Report 2021/22	Yes
7. Oversight report for 2022/23	Yes
8. Performance Agreements as per s57 (1) (b) of MSA	Yes
10. All SCM contract above R30 000 per quarter	Yes

CHAPTER 4

– ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART II)

The Organizational development function falls under the Human Resource Section. Its main objectives are to manage organizational design and business modeling, co-ordinate culture and change management, administer job descriptions, job evaluation system management, and to develop and maintain an effective employee performance appraisal system towards process.

COMPONENT A: INTRODUCTION TO THE MUNICIPAL WORKFORCE

Total employment to include staff turnover. Mandeni Municipality during the 2022/23 FY had a total of 255 employees. Employees that resigned in that FY was a total of 39. At the end of the 2022/23 FY had a total of 216 employees.

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE LEVELS OF REPORTING

Mandeni Municipality municipal workforce levels

- MM and Section 56 Top management- 6
- Middle Managers -15
- Superintendent -6
- Assistant Managers – 8
- Supervisors – 6
- Officers – 51
- Clerks – 06

This totals to 98

MANAGING THE MUNICIPAL WORKFORCE

This document, the Mandeni Municipality Employment Equity Plan (EEP) is prepared in conjunction with the requirements of the Employment Equity Act 55 of 1998' hereinafter referred to as the Act, the associated Regulations and Codes of Best Practice. The EEP addresses all aspects of Affirmative Action measures defined by the Act, to redress the disadvantages in employment experienced by designated groups in order to ensure their equitable representation in all the occupational levels in the workforce.

The purpose of the Act is to achieve in the workplace by:

- (a) Promoting equal opportunity and fair treatment in employment through elimination of unfair practice.
- (b) Implementing affirmative action measures to redress the disadvantages in employment by designated groups in order to ensure their equitable representation in all occupational levels and levels in the workplace.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

The Corporate Services department under Human Resource Management offered a variety of employees capacitating in order to promote competency.

- Municipal Finance Management Program (MFMP)- Employees and Councillors participated in this programme funded by the Local Government Sector Education and Training Authority (LGSETA) and acquired a vast knowledge in terms of Municipal Compliance and Operations. Hence, this project caters for all the activities of the municipality, eg. SCM, performance management system, project management, etc.
- Staff bursaries- Employees are given the opportunity to acquire further skills and qualifications through staff bursaries.
- Staff development programmes- Training is provided to staff members across provinces which are provided by Salga, COGTA, provincial and national treasury.
- Workplace Skills Plan (WSP)- The total number of employees that were trained according to the WSP prescriptions were 124.
- Employee Wellness Program- Staff members that experience any difficulties regarding work-related and personal stress are provided with help through this program which helps them cope better by being provided with a psychologist for counselling.
- Learnerships and Inservice training- Mandeni municipality allows individuals to apply for learnerships and in-service training to help them acquire skills and working experience.

SKILLS DEVELOPMENT

- The Municipality conducted the Skills 2022/23 auditing process.
- The workplace skills plan was developed and was adopted by the HRDC on the 24th April 2022.
- *The workplace skills plan was submitted to LGSETA on the 25 April 2022.*

- The total *Number of employees that were trained according to the WSP prescriptions were 124. The actual target was 100. The target was achieved.*
- The Actual amount spent on skills development in the 2022/23 financial year was R900 000.00. The targeted amount to be used was R900 000.00.
- For Effective implementation of recognized collective agreements, applicable legislation and policies, the Department Conducted workshops half-yearly on collective agreements and applicable legislation and policies.

Workforce capacity development

The municipal remains committed to the development of internal and external capacity by providing the various skills development intervention and at improving the performance of individual employees, councillors and providing skills to unemployed youth within Mandeni jurisdiction.

The human resource development ensures that workplace skills plans (WSP) which is aligned to the municipal strategic objectives is developed annually in line with Skills Development Act and local government sector and training authority (LGSETA) guidelines. Funding to implement learning programs has been provided by the municipality or sourced from LGSETA.

The workplace skills plan focuses on the following:

Training programme	Number of beneficiaries
1. OHS	0
2. Various formal studies	14
3. Councilor's development	4
4. Staff bursaries	9

COMPONENT D: MANAGING THE MUNICIPAL WORKFORCE EXPENDITURE

During the 2022/23 FY, Mandeni Municipality had a total expenditure of R 116 925, 166 for the municipal workforce. This is reflected in Note 31 of the AFS.

INTRODUCTION TO THE MUNICIPAL PERSONELLE

SKILLS LEVEL	MANDENI
Senior officials	2.5
Professionals	2.3
Tech/Assoc Prof	7.8
Clerks	7.3
Service workers	4.9
Skilled agric workers	2.9
Plant operators	22.1
Craft and trade	20.3

4.1. LEGISLATIVE REQUIREMENTS

This Annual Performance Report has been compiled in compliance with the requirements of section 46 (1) of the Local Government: Municipal Systems Act, 2000; which stipulates as follows:

- 1) A municipality must prepare for each financial year a performance report reflecting—
 - (a) The performance of the Municipality and each external service provider during that financial year;
 - (b) A comparison of the performance referred to in paragraph (a) with targets set for performance in the previous financial year; and
 - (c) Measures taken to improve performance.

(2) An annual performance report must form part of the municipality's annual report in terms of Chapter 12 of the Municipal Finance Management Act."

In addition, Regulation 7 (1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the roles of the different role players." Performance management is not only relevant to the organization as a whole, but also to the individuals employed in the organization as well as the external service providers and the Municipal Entities. This framework, *inter alia*, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance.

LEGISLATIVE PERFORMANCE REPORTING FRAMEWORK

FREQUENCY AND NATURE OF REPORT	MANDATE	RECIPIENTS
Monthly reporting on actual revenue targets and spending against budget no later than 10 working days after the end of each month	Section 71 of the MFMA	National Treasury
Quarterly progress report	Section 41 (1) (e) of the Systems Act, Section 166 (2) (a) (v) and (vii) of the Municipal Management Finance Act (MFMA) and Regulation 7 of Municipal Planning and Performance Management Regulations.	1. Municipal Manager 2. Mayor 3. EXCO 4. Audit Committee 5. National Treasury
Mid-year performance assessment	Section 72 of the MFMA. Section 13 (2) (a) of Municipal Planning and Performance Management Regulations 2001.	1. Municipal Manager 2. Mayor 3. EXCO 4. Council 5. Audit Committee 6. National Treasury 7. Provincial Government
Annual report (to be tabled before Council by 31 January (draft and approved / published by 31 March each year)	Sections 121 and 127 of the MFMA, as read with Section 46 of the Systems Act and Section 6 of the Systems Amendment Act.	1. Mayor 2. EXCO 3. MPAC 4. Council 5. Audit Committee 6. Auditor-General 7. National Treasury 8. Provincial Government 9. Local Community

MUNICIPAL POWERS AND FUNCTIONS

The powers and function of Mandeni Municipality are as per Schedule 4 Part B and Schedule 5 Part B 9f the Municipal Demarcation Board.

Building Regulations	Facilities for the accommodation, care and burial of animals
Child Care Facilities	Fencing and fences
Electricity Reticulation	Licensing of dogs
Fire Fighting	Licensing and control of undertakings that sell food to the public
Local Tourism	Local amenities
Municipal Planning	Local sports facilities
Storm water	Markets
Trading Regulations	Municipal abattoirs
Billboards and the Display of Advertisements in Public Places	Municipal parks and recreation
Cemeteries, Funeral Parlours and Crematoria	Municipal roads
Cleansing	Noise pollution
Control of Public Nuisance	Pounds
Control of Undertakings that sell liquor to the public	Public Places

OPERATING PROCEDURES AND OVERVIEW

In the 2022/23 Financial year, every attempt was made to ensure that the municipality complies with legislation concerning the development, operation and maintenance of a performance management system that is corresponding to the institutional service delivery objectives captured in the IDP. The municipality has continued to maintain the effective operation of the following mechanisms:

- The 2022/23 IDP included strategic objectives, strategies and key performance indicators (KPIs) as required by the Municipal Systems Act, 32 of 2000;
- The budget for implementation of the IDP was approved within the prescribed timelines prescribed in the Municipal Finance Management Act, 56 of 2003;
- After approval of the budget, the 2022/23 SDBIP was developed to integrate the IDP and the budget and to ensure effective implementation of the organizational strategies;
- Performance agreements with performance plans were developed, signed and approved by the Honorable and the Accounting Officer as required by the Municipal Performance Regulations, 2006;
- Quarterly performance reports with supporting Portfolio of Evidence Files were prepared by managers directly reporting to the Municipal Manager. These reports were used in the quarterly performance assessments.
- Quarterly performance reports were verified by the OPMSMER Unit and audited by the Internal Audit unit to test the credibility and reliability;
- The performance assessments for 2022/23 Annual and mid-term 2023/24 is in progress hence the Auditor General (AG) was on site. Planning will ensue once AG has concluded work on site.

PERFORMANCE /AUDIT COMMITTEE

The Performance Audit Committee for the 2022/23 financial year was re-affirmed in terms of Section 14(2) (a) of the Local Government: Municipal Planning and Performance Management Regulations of 2001 members are as follow:

- During the year under review, the Performance and Audit Committee met quarterly to consider the performance reports. The deliberations and resolutions taken by the PAC are encapsulated in the minutes of the committee.

PERFORMANCE EVALUATION PANEL

Performance Evaluation Panels have also been established Municipal Performance Regulations Section 27 (4) (d), for the assessment of performance of the Municipal Manager as well as Managers directly accountable to the Municipal Manager.

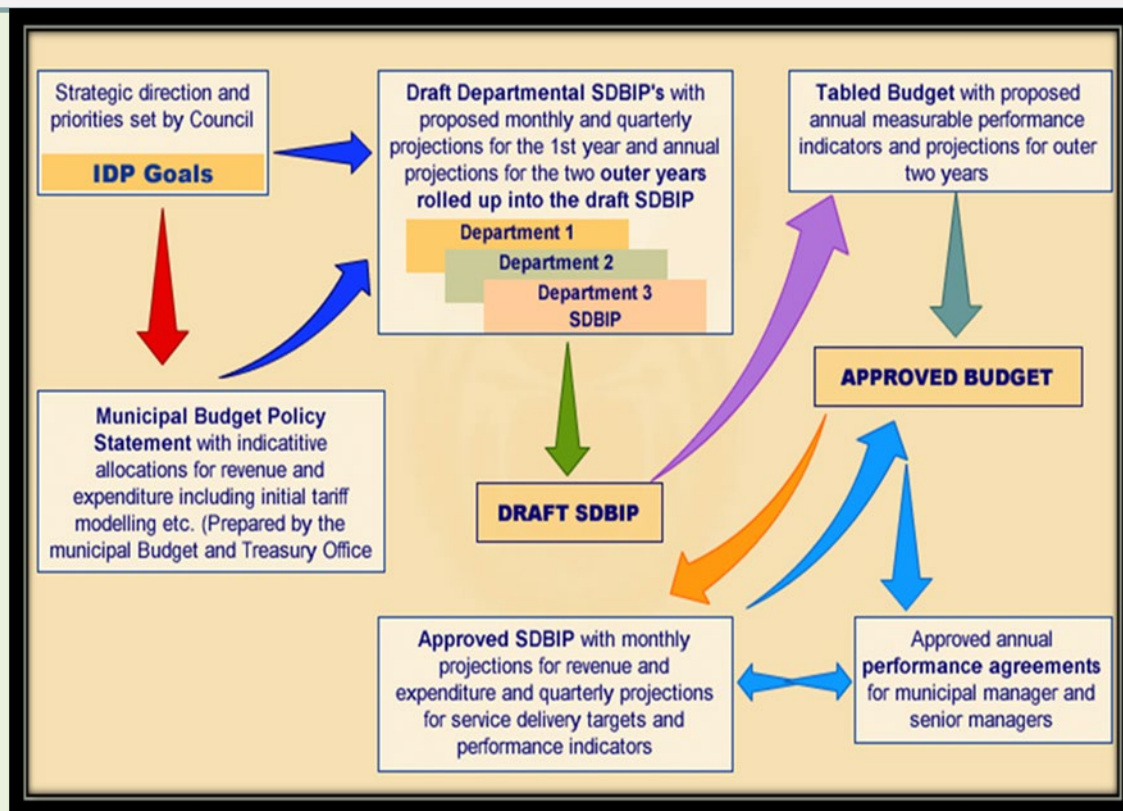

4.2. ORGANISATIONAL SCORECARD/TOP LAYER SDBIP

The municipal scorecard (Top Layer SDBIP) consolidates service delivery targets set by Council and Senior Management and provide an overall picture of performance for the municipality as a whole, reflecting performance on its strategic priorities. This is a **one-year** detailed plan, but includes a **three-year capital plan**.

The necessary components include:

- Monthly projections of revenue to be collected for each source;
- Expected revenue to be collected NOT billed;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- Quarterly projections of service delivery targets and performance indicators for each vote;
- Non-financial measurable performance objectives in the form of targets and indicators; and
- Detailed capital project plan broken down by ward over three years.

The process for preparing and approving the SDBIP, as depicted in the MFMA Circular No.13, is diagrammatically summarized as follows:

It should be noted that, for the quarter three and quarter four performance reporting the 2022/23 Top Layer SDBIP was amended as per adjusted budget adopted by Council.

The Mandeni 2022/23 SDBIP was revised based on the following recommendations:

1. SMART principle, in some instances, indicators and targets were re-defined due to existing targets being not measurable, achievable and lacking alignment to the IDP;
2. Mid-year performance results were exploited to make Q3 and Q4 adjustments, especially areas of immense over and under performance;
3. The synergy in alignment between the approved 2022/23 Top Layer SDBIP and IDP Review 2022/23 was considered.

PROCESSES IN AMENDING 2022/23 TOP LAYER SDBIP

The process was consultative and included the following key milestones:

- a) Amending the SDBIP to the strategic framework in the IDP to achieve alignment;
- b) Meeting with the Head of Departments (HOD);
- c) Submitted proposed amendments to the Audit Committee;
- d) Submitted proposed amendments to council for adoption;
- e) Submitted the Revised SDBIP 2022/23 to be signed by the Mayor and tabled to council for the acquiring of council resolution
- f) Public advert was posted on the Amended SDBIP 2022/23 and on the on the website and advertised in the Zulu and English Local Newspapers.

LOCAL GOVERNMENT BACK TO BASICS/MUNICIPAL ASSESSMENT TOOL

Local government is a primary point of delivery where most citizens interface with government. Our vision of a developmental local government system was that it would be the building block on which the reconstruction and development of our country and society would be built.

The citizens of our country could engage in a meaningful and direct way with the institutions of the state. We have made tremendous progress in delivering water, electricity, sanitation and refuse removal at a local level. These rates of delivery are unprecedented in world-wide terms.

It is therefore important to understand where we are, where we could be and what needs to be done to improve performance. Our goal is to improve the functioning of municipalities to better serve communities by getting the **basics right**.

The Back to Basic Programme which was officially launched at the Presidential Summit on 18 September 2014, is to ensure a focused and strengthened local government by setting the **basics**, however the back to basic was become obsolete hence COGTA introduced the Municipal assessment tools its main objective is to ensure that all municipalities prioritize

compliance and work as per relevant legislations, this Municipal assessment tool monitor municipalities on quarterly basis where each municipalities submit quarterly reports to COGTA, which reflects on how municipalities achieve and comply to their assigned Key performance Indicators.

This municipal assessment tool also consider all key performance areas right and together with other spheres, provide basic services efficiently and effectively and In a caring manner. The monitoring of municipal service provision efficiency and effectiveness is a pivotal aspect of the implementation of the ***Municipal assessment tool***. The department of Co-operative Governance and Traditional Affairs (COGTA) has developed a quarterly assessment and monitoring process facilitated through the completion of a Quarterly Provincial municipal assessment tool Template.

Changing strategic orientation is not easy and it requires bold leadership and political will. At the same time, we need a collective effort and unity of purpose and partnership with leaders in local government, provinces and national government. We need to improve the political management of municipalities and be responsive to the needs and aspirations of local communities. In order to achieve this, we urgently require:

- Mayors and Municipal Mayoral Committees with a vision to change and the calibre of leadership to drive the change process.
- Speakers of Councils who are able to effectively manage the business of Council and lead it in its engagement and outreach programmes.
- Councillors that will inspire and organize for our common purpose of serving our people, and creating a dynamic link their constituencies.
- Municipal Managers and senior managers that understand the core mandate and orientation understand their specific role in delivering the local government vision as envisaged in the White Paper and act in a manner that ensures that local government primarily serves its people by delivering basic services.

KEY AREAS OF BACK-TO- BASIC ARE THE FOLLOWING:

- Basic Services: Creating decent living conditions
- Good Governance
- Public Participation: Putting People First

- Sound Financial Management
- Building Capable Institutions and Administrations

During the process of adjusting the budget, the municipality has also amended its SDBIP in order to align to the municipal assessment tool.

Mandeni Municipality has maintained a status of consistency in terms of functionality in the Municipal assessment tool Programme, hence submission occurred in quarterly basis

4.3. DEPARTMENTAL SCORECARD/LOWER LAYER SDBIP

The Departmental Scorecards (detail Top Layer SDBIP) capture the performance of each Department. Unlike the Organisational Scorecard, which reflects on the strategic performance of the municipality, the Departmental SDBIP provides a comprehensive picture of the performance of that Department/sub-department/branch. It was compiled by **Senior Managers** for their **Departments** and

consists of objectives, indicators and targets derived from the approved Top Layer SDBIP, the approved

budget and measurable service delivery indicators related to each functional area.

This non-financial third quarter performance report contains information about:

- Quarterly performance against quarterly and annual targets as per the SDBIP is reported on. The SDBIP contains the objectives and indicators as per the Municipal IDP as well as National indicators. The SDBIP for 2022/23 was developed to reflect cumulative performance, therefore the status of indicators reflects the overall performance level achieved in the 2022/23 Financial Year
- Measures taken to improve performance; Corrective action is included for each KPI
- Comparison of performance against set targets;
- Calculations to calculate the variance between actual quarterly performances are included for each KPI; Calculations to calculate the variance between actual quarterly performances are included for each KPI; Comparisons of performance against quarterly

targets are highlighted in the form of colors based on scores which were calculated manually by the OPMSMER Unit.

- The scoring method utilized is in line with the assessment rating calculator prescribed by the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Managers, Regulation 805 of 2006.
- The purpose of including these ratings and color coding is to serve as early warning indicators so that Council can easily distinguish under performance, achievements and an explanation is as per the table under 4.

4.4. ORGANISATIONAL PERFORMANCE HIGHLIGHTS AGAINST PREDETERMINED OBJECTIVES (KPI)

The organizational performance is evaluated by means of a municipal scorecard (Top Layer SDBIP) at organizational level and through the Service Delivery Budget Implementation Plan (SDBIP) at departmental levels.

The SDBIP is a plan that converts the IDP and budget into measurable criteria on how, where and when the strategies, objectives and normal business processes of the municipality is implemented. It also allocates responsibility to directorates to deliver the services in terms of the IDP and Budget.

The MFMA Circular No.13 prescribes that:

- The IDP and budget must be aligned;
- The budget must address the strategic priorities;
- The SDBIP should indicate what the municipality is going to do during next 12 months; and
- The SDBIP should form the basis for measuring the performance against goals set during the budget /IDP processes.

The municipality in formulating and reviewing its Integrated Development Plan (IDP) developed and adopted Strategic Goals, Strategic Objectives and Strategies which are key instruments to drive or facilitate implementation of both, the IDP and Budget in service delivery.

These Key instruments are considered as enablers to justify an organization's activities and existence, define performance standards as well as the specific tasks that must be

accomplished for the municipal goals to be met. Below is the table that illustrates Strategic Goals, Objectives and Strategies as adopted by Council for implementation of IDP, Budget and operational plan (Service Delivery and Budget Implementation Plan).

2022/23 TOP LAYER SDBIP			
IDP REF	STRATEGIC GOAL	STRATEGIC OBJECTIVE	STRATEGIES 2022/23
BASIC SERVICE DELIVERY & INFRASTRUCTURE DEVELOPMENT			
BSD 01	Universal access to basic services and infrastructure development by 2030	Improve access to all infrastructure and services	Facilitate access to electricity for all targeted households
BSD 02			Reduce the road infrastructure backlog and maintain the existing infrastructure
BSD 03			Facilitate the reduction of the housing backlog
BSD 04			Provide efficient waste collection and management service to all targeted household
BSD 05	Universal access to basic service delivery and infrastructure development by 2030		Facilitate the provision of new community facilities
BSD 06	Providing and facilitating access to social services and facilities	Improve access to all infrastructure and services	Facilitate the provision of new community facilities

GOOD GOVERNMENT AND PUBLIC PARTICIPATION			
GGPP01	To foster a culture of community involvement and good governance in the affairs of the municipality	Ensure participative, transparent and accountable Governance	Improve the public participation processes
GGPP 02			
GGPP 03		Aspire to a healthy, safe and crime-free area	Ensure the municipal contribution to community safety
GGPP 04			Design and implement sports, arts and heritage celebration programmes
GGPP 05		Ensure that all legislated Council structures meetings seat.	Improve the public participation processes
GGPP 06		Implementation of risk mitigation strategies specific to the department	Improve the audit opinion

FINANCIAL MANAGEMENT AND FINANCIAL VIABILITY			
MFVM 01	To develop a sustainable and efficient municipality based on sound financial management	Ensure a financially viable municipality	Ensure a constant and accurate financial reporting
MFVM 04			Ensure a constant and accurate financial reporting
MFVM 05			Manage and increase the municipal revenue base.
MFVM 06			Ensure that the municipality acquires goods and services in terms of supply chain regulations

LOCAL ECONOMIC DEVELOPMENT			
LED 02	Facilitate the creation of job opportunities	Achieve a holistic human development and capacitation for the realisation of skilled and employable workforce.	Improve the community skills base
LED 03			Ensure the empowerment of youth, women and people living with disabilities.
LED 04			Facilitate the implementation of the EPWP
LED 05			
LED 06			
LED 07			Strategic planning for Local Economic Development

MUNICIPAL INSTITUTIONAL DEVELOPMENT AND MUNICIPAL TRANSFORMATION			
MTID 01	Provision of effective, efficient, transparent and accountable leadership	Creating a conducive working environment	Maintain and improve the municipal policies
MTID 02			Ensure effective and efficient human resource management
MTID 03			Ensure effective and efficient human resource development
MTID 04			Improve performance
MTID 05			Improve information technology and document management systems
MTID 06			Improve municipal services and Infrastructure

SPATIAL RATIONAL ENVIRONMENTAL MANAGEMENT/ CROSS-CUTTING MEASURES			
SREM 01	Promoting and facilitating environmental protection and sustainable spatial planning	CBD Regeneration	Creating government precinct with efficient space for public facilities and services
SREM 02		Ensure an integrated and aligned development planning	Ensure proper development
SREM 03		Facilitate a creation of a disaster-ready community	Provide a framework for the spatial vision and form of Municipality

The SDBIP were prepared as described in the paragraphs below and approved by the Mayor.

The overall assessment of actual performance against targets set for the Key Performance Indicators as documented in the SDBIP is illustrated in terms of the following assessment methodology:

COLOUR	CATEGORY
	TOTAL NUMBER OF KPI's
	KPI'S NOT ACHIEVED
	KPI's ACHIEVED

The Service Delivery Performance Report is divided according to the National Key Performance Areas (KPA) of Local Government namely;

NO	NATIONAL KEY PERFORMANCE AREA	ACRONYM
----	-------------------------------	---------

1	Basic service delivery	BSD
2	Good governance and public participation	GGPP
3	Municipal financial viability and management	MFVM
4	Local economic development	LED
5	Municipal Transformation and Institutional Development	MTID
6	Spatial Rational and Environmental Management	SREM

INTRODUCTION TO MUNICIPAL PERFORMANCE

PREDETERMINED OBJECTIVES DEPARTMENTAL SDBIP

The SDBIP serves to focus both the administration and Council on outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators.

SDBIP should therefore determine (and be consistent with) the performance agreements between the Mayor and the Municipal Manager and the Municipal Manager and Senior Managers determined at the start of every financial year and approved by the mayor. It must also be consistent with outsourced service delivery agreements such as Municipal Entities, Public-Private Partnerships and service contracts. The SDBIP Template is therefore included in the report for each department as follows;

- Department: Office of the Municipal Manager
- Department: Budget and Treasury Office
- Department: Corporate Services
- Department: Economic Development Planning and Human Settlements
- Department: Technical Services and Infrastructure Development
- Department: Community Services and Public Safety

This pie chart below depicts the distribution of key performance indicator (KPI) to each national key performance area (NKPA). It is helpful to highlight the number of KPI's contributing to the NKPA because; it gives an indication where the municipality's focus is in terms of contributions towards the NKPA's.

Evidently the pie chart shows that the municipality has most of its KPI's in the top two dedicated to **Good Governance and Public Participation** at 25% and **Municipal financial viability management** at 22%. **Basic Service Delivery** at 20% and **Local Economic Development** at 17%, followed by **Municipal Transformation and Institutional Development** at 13%. The NKPA shows that **Spatial Rational and Environmental Management** takes 3 %.

The following graphs illustrate the overall performance of the Municipality measured in terms of the Top Layer (Strategic) SDBIP as at the end of the year that ended 30th of June 2023 FY.

2022/23 Annual Organizational Performance in percentage (%)

This pie chart displays the performance achieved under the Good Governance and Public Participation (GGPP) National Key Performance Area (NKPA).

As indicated there were **42** key performance indicators (KPI's) that the municipality had planned to achieve in the financial year. The municipality achieved **32** of their planned targets. Which translates an overall of **76%** KPI's that were not achieved were a total of 10.

Under this KPA we focus on the following areas;

- Integrated Planning
- Policy Development
- Public Participation
- Internal Audit
- Anti-Corruption Strategy

The municipality managed to develop and adopted its New 5-year Integrated Development Plan (IDP), Performance Management System (PMS) and Budget 2017-2022 in line with the prescribed legislation (Municipal Finance Management Act, Act 56 of 2003 and Municipal Systems Act, Act 32 of 2000 as amended). The municipality ensured that all stakeholders were engaged on the adopted process plan as a guide for the development and review of the IDP, PMS and Budget and this was done through IDP Representatives Forums and this process also

included the office of the MEC for Co-operative Governance and Traditional Affairs and comments received from the said office were further affected onto the final Process Plan. Further to the above, the IDP Unit played a key role in the council strategic planning session which was held in Drakensburg in September where council deliberated on various issues including those that needed to find space in the new IDP.

- The Municipality during the term under review conducted a successful IDP Capacity Building workshop for councilors and ward committees which was aimed at inducting both councilors and ward committees on IDP related matters including the development of ward-based plans. The municipality in line with Section 16(1)(a)(i-iv) of the Municipal Systems Act which encourages the involvement and participation of communities and other stakeholders in the affairs of the municipality in particular IDP, PMS and Budget planning process engaged all communities across the municipality at Ward levels through a ward by ward approach and all other stakeholders to ascertain their needs and issues for consideration during the development of the New 5 year Integrated Development Plan and Plan.
- Also, the municipality through SECO Partnership received the outcomes of the 2014 survey conducted by the World Bank on “Doing the Business within iLembe and Mandeni” and the results proved the processes and turn-around time for compliance before investors actually start their businesses to be lengthy and complicated.

4.6 MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

The Budget and Treasury Office is a municipal department that was established in terms of Chapter 9 of the Municipal Finance Management Act No.56 of 2003 (MFMA). Its major role is to administer municipal funds, advise the accounting officer and other departments of their role in terms of this Act and to perform budgeting, accounting, analysis, financial reporting cash management, debt management, supply chain management, financial management, review and other duties.

Below is a graph demonstration of the performance of this department in the 2022/23 financial year.

This pie chart displays the performance achieved under the Municipal Financial Viability Management (MFVM) National Key Performance Area (NKPA).

MONITOR THE EXPENDITURE OF THE MUNICIPALITY'S BUDGET

The municipality continues with proper budget monitoring on its expenditure in the 2022/23 financial year. However, allocated budgets being not fully utilised by the end of June 2023 were due to some projects experienced some various challenges such as poor performance by Contractor, Eskom failed to energized 'Number of households to be provided with electrification infrastructure (Dry Connections) in eHlanzeni ward 7 and ready to be energised by 31 March 2023' and 'Number of households to be

provided with electrification infrastructure (Dry Connections) in Okhovothi Ward 12 and ready to be energised by 30 June 2023' not being achieved, due to poor performance by Contractor, then Municipality had to start the procurement process again to appoint another

Delays were experienced by the contractors with Eskom in regards to eHlanzeni and Okovothi contractors did not have an approved subcontracting list.

The percentage of INEP expenditure was sitting at 89 % at the end of 2022/23 financial year due to the experienced Okhovothi project.

'Number of households to be provided with electrification infrastructure (Dry Connections) in Dendethu / Wetane Project - Ward 5 and ready to be energised by 30 June 2023' was achieved.

The percentage spent on MIG was 100% at the end the 2022/23 financial year. The Municipality had really put in efforts to ensure expenditures. R 40 044 000 was spent and this meant that all MIG aims to eradicate municipal infrastructure backlogs in poor communities to ensure the provision of basic services such as water, sanitation, roads and community lighting and was therefore achieved.

PAY ALL SUPPLIERS WITHIN A LEGISLATED PERIOD

We continue to do well on the payment of creditors. The outstanding balances are linked to issues identified on the individual invoices. Reasons are normally given of the dispute for reconciliation to be done before invoice can be paid.

CONDUCT ALL EXPENDITURE RECONCILIATIONS

For the reliable financial information it is crucial that reconciliations are done monthly. This is what makes it easy for the municipality to be able to give better assessment of the budget. The ability to produce a trial balance allows us to produce the financial statements quarterly and give analysis of information and ratios. Monthly reports are sent to the portfolio committee with all relevant information for decision making. Section 71 reports are produced for the Mayor and submitted to treasuries as per budget reporting format.

MANAGE THE MUNICIPAL ASSETS

The municipality has improved in the administration of assets. The capacity in the unit was provided. This has made it possible to shift from involving external resources by build capacity internally.

Continuous assessment of assets for impairment is being done. It is appreciated that the unit is now able to account for depreciation on a monthly basis. Monthly reconciliations are a contributing factor to a good report from the auditor general.

IMPROVE THE COLLECTION RATE

The balance of the amount outstanding from debtors has Increased from 181 million to R 203 420 225.41 million in the period from 01 July 2022 to 30 June 2023 (11% Increased).

The culture of non-payment by ordinary households due to poor database and sanctioning tools is still a contributing factor to our poor revenue collection.

Debt pack have been re-appointed, Debt collectors had been appointed and trained on using debt Management system, the process of telephonic collection, sending our smises, letters of demand has commenced, the institution of legal proceedings will soon be implemented.

Debt collection measures will be improved after the policy review by issuing summons with the intention to attach movable property. This initiative is however a slow process because of the sheriff's involvement. They cannot cope with the number of summons to be served.

The collection process is also affected by the non-cooperation of the community when they are invited to register for indigent benefits.

CONDUCT ALL REVENUE RECONCILIATIONS

The municipality has adopted the revenue enhancement strategy. This is being implemented. This strategy is a process that is mainly supported by external

stakeholders. Its impact will be assessed going forward. At this point in time it is important that an opportunity is given for its support.

We have advanced with the prepaid supply of electricity system. We will guarantee electricity billing. Monthly billings of all services are done. Other income is supported to supplement the cash flow that is so needed. Income generated from interest on investment is according lower than the budget due to low levels of cash. These reports are monthly submitted to the portfolio committee.

MANAGE THE SUPPLY CHAIN PROCESSES.

The success of the SCM Unit is dependent on the role played by the user departments. To control the unit, the procurement plans were instituted and implemented. However, these plans are not perfectly followed. Improvement is monitored through working together with other departments.

Bid Committees have worked tremendously to support the functioning of the unit. At the close of June 2023 all tenders were awarded. Due to poor planning in some units there is an increase in deviations. This situation is being addressed.

Contract management is earmarked for improvement as this is an area that the report of the auditor general has pointed out some weaknesses, including the maintenance of documents, monitoring of service providers, transfer of skills etc. A proper training is envisaged in this regard for proper procedures to be in place.

Going forward this sitting of the Bid Committees will be scheduled. The SCM unit will be provided with permanent qualified personnel and improve the workflow processes.

PERFORM MONTHLY FINANCIAL REPORTING

Mandeni Municipality is able to produce the budget in time as expected and in the format that is required. Monthly S71 reports are produced and reported to Treasury. It is appreciated that the municipality is able to report on the norms and standard ratios as recommended by National Treasury in Circular 72

In the implementation of the budget it is noted that other line items are overspent. Some of these overspending is caused by non-compliance with the procurement plans. Others are due to unforeseen circumstances. These will result into unauthorized expenditure. The adjustment budget has dealt with these anomalies.

PERFORM QUARTERLY FINANCIAL REPORTING.

As part of the assessment for half yearly budget performance section 52 report was prepared for submission to the Mayor and Council. The significance of this report in the half year review is that it gives the cumulative performance of the budget that is assisting to the preparation of section 72 report.

Due to improvement in the information technology it is important that the department is on par with technology available and the new trend of doing things. Part of improving performance of the municipality is to improve systems integration through resource management planning.

PERFORM ANNUAL FINANCIAL REPORTING.

The achievements were high in the submission of annual financial statements in that the reports were audited and found to have no errors in the past three years.

We continue to review the standards of reporting of financial information. It assists that now we are able to produce financial statements periodically and review information against the standards such that we have fewer issues at year end when we finally produce annual financial statements. It is important that a compulsory workshop be attended to build capacity.

The standard chart of account mSCOA was introduced by National Treasury. The objective of the regulation is to provide a national standard for uniform recording and classification of municipal budget and financial information at a transactional level by providing standard chart of accounts aligned to budget formats and accounting standards.

The municipality prepared and adopted its budget for 2022/23 MTREF financial year in an mSCOA classification framework which is made up of seven segments.

The revenue generated by the Department has contributed towards the municipal revenue base during the year under review. Further awareness campaigns will be conducted by the Department on the various bylaws applicable in each section to ensure that there is an improvement in the level of compliance by the community which will further increase the departmental contribution towards the overall municipal revenue stream.

To ensure effective Municipal Financial Viability and Maintenance the Municipality did the following;

- Regular reporting is being done to funders of grants as per funding requirements and compliance with the Division of Revenue Act. (NDPG, MIG, EPWP, FMG and INEP).
- Maintain and improve municipal cash flows
- Spent 100% of MIG funding.
- Participated in MSCOA implementation by ensuring attendance to Project Steering Committee meetings held quarterly by the Budget and Treasury department.

4.7 MUNICIPAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT

This pie chart displays the performance achieved under the Municipal Institutional Transformation and Development National Key Performance Area (NKPA).

ADOPTION OF MUNICIPAL POLICIES AND FIVE YEAR HR STRATEGY

- On the 30th of June 2023, the Identification, review and adoption of municipal policies was not achieved, due to session that was not concluded on the 13-14 June 2023 , however the session proceeded after the year end.
- The IDP aligned organizational and departmental organograms were Developed and adopted on the 30th of May 2023

EMPLOYMENT EQUITY PLAN, LOCAL LABOUR FORUM AND LABOUR RELATIONS

- Maintenance of the functionality of the Local Labour Forum was achieved by holding 4 Local Labour Forum meetings, the target was 4 and the department had no variance .
- 4 quarterly Labour relations reports were submitted to MANCO in the year 2022/23, the actual target was met.

SKILLS DEVELOPMENT

- The Municipality conducted the Skills 2022/23 auditing process.
- The workplace skills plan was developed and was adopted by the HRDC on the 24th April 2022.
- The workplace skills plan was submitted to LGSSETA on the 25 April 2023.
- The total Number of employees that were trained according to the WSP prescriptions were 124.The actual target was 100. The target was achieved.
- The Actual amount spent on skills development in the 2022/23 financial year was R900 000.00. The targeted amount to be used was R900 000.00.
- For Effective implementation of recognized collective agreements, applicable legislation and policies, the Department Conducted workshops half-yearly on collective agreements and applicable legislation and policies.

This pie chart displays the performance achieved under the Basic Service Delivery National Key Performance Area (NKPA).

The municipality in partnership with the Department of Human Settlements has been continuously delivering lowcost houses through RDP Programme in both Urban and Rural areas of Mandeni.

HOUSING DEVELOPMENTS

- The municipality during the Financial Year under review had only 4 housing projects that were under construction funded by the Department of Human Settlements (DoHS) during the 2022/23 financial year being Inyoni Integrated Housing Project (Ward 3, 7, 10, 11, 12, 13, 14, 15, 16, 17 and 18), phase five of the Macambini Rural Housing Project (Ward 1, 2, 8 and 9) and phase three of the Isithebe Rural Housing Project (Ward 11, 12, 16, 17 and 18). A lot of progress was registered during the financial year under review in the various housing projects which is further detailed below:
- **Inyoni Housing Project:** In the 2022/2023 financial year construction of units under project phase 01, 02 and 03 was underway for approved beneficiaries for ward 3, 7, 10, 11, 12, 13, 14, 15, 16, 17 and 18. The progress made as at 30 June 2023 includes. The progress

to date 1032 units are complete 61 are at roof level, 80 units are at wall-plate level, 171 units are at foundation level and 190 are greenfield. The implementing agent resumed construction activities to complete outstanding works for 508 units in phases 1,2 and 3. The process was confronted with various challenges including the involvement of local sub-contractors. extensive deliberations were held towards addressing issues of contractual arrangements and rates between implementing agent and local sub-contractors. This impacted severe delays on the project. The implementing agent has started with conducting remedial work on 86 houses that were vandalized, upon completion beneficiaries are to take occupation. The implementing agent will subsequently proceed to complete the construction of the balance of 422 houses across phases 1, 2 and 3. The Municipality, in collaborative efforts with Department of Human Settlements and Ilembe District Municipality have made significant progress towards finalizing the process to appoint a service provider to complete the installation of bulk and internal services infrastructure in Phase 4 of the project.

- **Isithebe Rural housing (11,12, 16, 17 and 18):**

The Department of Human Settlement approved 300 units for Phase 3 of the project (300 out of 2000 units). The completion of project sub-phases 1 and 2 has yielded a total of 600 units that have been handed over to beneficiaries of the project. Approval for project sub-phase 3 was granted by the Department in November 2022 however delays were experienced in finalization of contractual arrangements, appointment of local sub-contractors, site establishment of the main contractor on site, material supply and delivery. This required extensive deliberations to be held across the various stakeholders to achieve middle ground. As at 30 June 2023 construction activities completed in sub-phase 3 includes 284 platforms and 50 foundations.

- **Macambini Housing Project (Ward 1, 2, 8 and 9):** This housing project has progressed significantly in its construction programme; phases one, two, three and four of the project consisting of 1650 units have been completed and handed over the beneficiaries. The final phase of the project was approved by the Department of Human Settlement was approved in December 2022 however there were delays in the project including; finalization of contractual arrangements, the contract was signed in May 2023; The implementing agent then engaged in a process to appoint local sub-contractors to participate in the project.

There were modifications on the house design to include a utility room; A process was undertaken to workshop the new house plan to all the relevant stakeholders. As at 30 June 2023 the progress made under sub-phase 5 includes 108 platforms and 13 foundations.

- **Title Deeds Restoration Programme; Tugela Ext 3 & Sundumbili Township R293**

Properties: During the title deeds restoration programmes serves well to promote secure tenure for the residents of Mandeni who have been in recipient of housing subsidies pre and post 1994. As at 30 June 2022 a total of 1358 title deeds have been transferred under the Hlomendlini Housing Project. The Municipality has appointed a conveyancer to assist with the beneficiary verification of 549 cases with disputes under the projects. The process to verify and process these cases is on-going. The conveyance is also undertaking to address 430 cases identified to have disputes in the Sundumbili area that were recorded previously under a pilot project implemented by the World Bank and Vuthela. As at 30 June 2023 that conveyancing team has verified 284 files (representing 62% of the project cases) whilst facilitating for the lodgment of 96 title deeds, it was discovered that the Sundumbili township is subject to upgrading of township as per the in line with the amendment of the Upgrading of Land Tenure Rights Act. Extensive engagement are on-going with the Deeds Registrar in seeking guidance on the process to submit for upgrading of township under the recent amendment of the Act. Significant progress has been in transfer of title deeds within Inyoni IRDP, as at 30 June 2023 283 title deeds have been transferred to beneficiaries. Activities towards the registration of more title deeds under the project are on-going, including the registration of underlying property that is a pre-requisite for registration of title deeds under portion of the project area.

- **Operation Sukuma Sakhe (OSS) cases:** The OSS programme caters for extraordinary circumstances of people living under highly vulnerable conditions that require urgent human settlements intervention. As at 30 June 2023 the Department of Human Settlements has approved funding and appointed service provider to implement various OSS projects. This includes 30 OSS cases (across wards 1,2,3, 6, 9, 10,12 and 15); 49 OSS

cases (across wards 1, 3, 4, 5, 6, 7, 9, 10, 12, 15 & 18) and 115 cases (across wards 4,5,6,7,8,9,10,11,12,13,14,15,16,17 & 18). The service providers have been undertaking pre-construction activities including beneficiary administrations toward processing beneficiary approvals on the HSS system as well as packaging of applications for NHBRC project and home enrolment. Upon completion of these pre-requisite activities construction of units will commence on the ground.

4.9 LOCAL ECONOMIC DEVELOPMENT

This pie chart displays the performance achieved under the Local Economic Development National Key Performance Area (NKPA).

This NKPA needs to be considered very attentively hence, it plays a huge impact on service delivery and is essential for the economic growth of the municipality, as well as empowering Local businesses.

SMME'S

- The number of SMME's and Cooperates supported on Quick Win by 30 June 2023 had a target of 36, but the municipality achieved 77. There was a need to ensure all wards benefitted. Further the municipality eradicate poverty by provided and support farmers with seedlings and animal feed a target of 9 was set and it was achieved all 9.

COMMUNITY WORKS PROGRAMME (CWP)

- A target of 600 jobs created through implementation of infrastructure projects and EPWP by 30 June 2023 was set. However, 684 jobs were created.

REGISTRATION BURSARIES AWARDED TO BENEFICIARIES

- Registration bursaries for matriculants and scholarship awards was achieved on the 14 February 2023.

4.10 SPATIAL RATIONAL AND ENVIRONMENTAL MANAGEMENT

THIS PIE chart displays the performance achieved under the Spatial Rational and Environmental National Key Performance Area (NKPA).

FORWARD PLANNING

- The municipality managed to review and adopt Spatial Development Framework by Council on the 31st of May 2023.
- In terms of Land Use Management, the planning unit successfully completed the review of the Urban Town Planning scheme which was reviewed in –house by the Mandeni Municipality planning team, together with the ILembe shared services colleagues. A number of stakeholder engagements were conducted during this exercise to sensitize

stakeholders on the implications of the newly reviewed scheme including the reviewed zonings and development controls. The reviewed scheme was presented at various council structures.

SPATIAL PLANNING AND SPLUMA

- The Municipality in its implementation and compliance with Spatial Planning and Land Use Management Act 16 of 2013 (SPLUMA) processes development applications through the District Joint Municipal Planning Tribunal (MMN JMPT) constituted by the three local Municipalities namely Mandeni, Maphumulo and Ndwedwe Municipality. During the year under review, a total of 9 planning applications were received by the Municipality for assessment. Four applications were been tabled to the MMN JMPT for approval and 3 were approved with conditions and 1 application was referred back to the applicant. The other five (5) applications are within the legislated timeframes and are being subjected to the legislated processes of SPLUMA.
- The Planning unit continues to receive applications pertaining to land requests for various uses ranging from the establishment of small businesses to the establishment of municipal office space by government departments and service delivery projects by the internal municipal departments. These applications and requests are channeled through the various council structures accordingly.

4.11. DEPARTMENTAL PERFORMANCE FOR THE YEAR ENDED 30 JUNE 2022 (AS PER SDBIP)

The SDBIP serves a critical role to focus both the Administration and Council on outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators.

The SDBIP provides the vital link between the Mayor, Council (Executive) and the Administration, and facilitates the process for holding Management accountable for its

performance. The SDBIP is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager, Senior Managers and Community. A properly formulated SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the execution of the budget, performance of Senior Management and achievement of the strategic objectives set by council. It enables the Municipal Manager to monitor the performance of Senior Managers, the Mayor to monitor the performance of the Municipal Manager, and for the Community to monitor the performance of the Municipality.

The SDBIP should therefore determine (and be consistent with) the performance agreements between the Mayor and the Municipal Manager and the Municipal Manager and the Senior Managers determined at the start of every financial year approved by the Mayor. It must also be consistent with outsourced service delivery agreements such as Municipal Entities, Public-Private Partnerships and service contracts. The SDBIP's for each department are attached as annexure as follows;

-  Department: Office of the Municipal Manager
-  Department: Budget and Treasury
-  Department: Technical Services and Infrastructure Development.
-  Department: Community Services and Public Safety.
-  Department: Corporate Services
-  Department: Economic Development Planning and Human Settlements.

Departmental SDBIP indicates performance indicators per National Key Performance Areas and comments with corrective measures with regards to indicators not achieved for the office of the Municipal Manager, Budget and Treasury Office, Technical Services, Community Services, Corporate Services and EDP Department.

The following are departmental annual performance summaries for the 2021/22 financial year;

Below is a graphical demonstration of how the Departments performed in the year in review;

OFFICE OF THE MUNICIPAL MANAGER

The Office of the Municipal Manager is the nerve centre of Mandeni Municipality. The municipality has achieved tremendous progress since the new administration assumed office. The Municipal Manager's office has recently beefed-up its human resources capacity through the establishment of the following units:

- ✚ Internal Audit
- ✚ Performance Management Systems
- ✚ Special Programmes
- ✚ Municipal Public Accounts

Below are the graphs representing the performance of the Municipal Manager's Office in the 2022/23 and 2021/22 financial years and a comparative SDBIP of the Office of the Municipal Manager's performance;

	Number of KPI's	Percentage of KPI's
Total KPI's	77	100%
KPI's achieved	62	81 %
KPI's not achieved	15	19 %

The Office of the Municipal Manager had a total of 77 KPI's in the 2022/23 financial year. 62 targets were achieved, whilst 15 targets were not achieved. This translates to an overall achievement of 81 % of the KPI's for Office of the Municipal Manager.

Office of Municipal Manager 2021/22 Annual Performance

	Number of KPI's	Percentage of KPI's
Total KPI's	83	100%
KPI's achieved	59	71%
KPI's not achieved	24	29%

The Office of the Municipal Manager had a total of 83 KPI's. 59 targets were achieved, whilst 26 targets were not achieved. This translates to an overall achievement of 71% of the KPI's for Office of the Municipal Manager. A number of KPI's were not achieved due to floods which took place during the third quarter of the 2021/22 financial year.

BUDGET AND TREASURY OFFICE

The Budget and Treasury Office is a municipal department that was established in terms of Chapter 9 of the Municipal Finance Management Act No. 56 of 2003 (MFMA). Its major role is to administer municipal funds, advise the accounting officer and other departments of their role in terms of this Act and to perform budgeting, accounting, analysis, financial reporting cash management, debt management, supply chain management, financial management, review and other duties. Below are the graphs representing the performance of the Budget and Treasury Office in the 2021/22 and 2022/23 financial years.

	Number of KPI's	Percentage of KPI's
Total KPI's	37	100%
KPI's achieved	30	81%
KPI's not achieved	7	19%

2022/23 Budget and Treasury Office Annual Performance

	Number of KPI's	Percentage of KPI's
Total KPI's	36	100%
KPI's achieved	31	86%
KPI's not achieved	5	14%

The Budget and Treasury Office had a total of 36 KPIs. The department achieved 31 of the targets and 5 targets were not achieved. This translates to an achievement of 86 % in this department for the 2022/23 Financial Year.

TECHNICAL SERVICES AND INFRASTRUCTURE DEVELOPMENT

The Technical Services Department is primarily responsible for the maintenance, upgrade and provision of new municipal infrastructure assets and service delivery. It consists of the following divisions:

- ✚ Technical Administration/Planning and Projects (PMU);
- ✚ Roads and Storm Water Repairs and Maintenance;
- ✚ Municipal Buildings Repairs and Maintenance (Works);
- ✚ Electricity Distribution, Street Lighting, Installation and Mechanical Workshop. Below are the graphs representing the performance of the Technical Services and Infrastructure Development Department in the 2021/22 and 2022/23 financial year.

ECONOMIC DEVELOPMENT PLANNING AND HUMAN SETTLEMENTS.

The Economic Development and Planning Department is the strategic business unit of the municipality and includes the following four divisions:

- 📊 Integrated Development (Strategic) Planning, Spatial Planning and Statutory Planning which includes implementation of the Land Use Management System, particularly the Planning and Development Act (PDA) and in future, the Spatial Planning and Land Use Management Act (SPLUMA).
- 📊 Human Settlements is essentially the implementation of rural and urban sustainable human settlement and development projects as an agent of the provincial Department of Human Settlements. Building controls which includes; the assessment and approval of building plans and enforcement of the National Building Regulations.
- 📊 Local Economic Development (Tourism, Business Licensing and SMME's Development, Agriculture, Manufacturing).

Below is a graph demonstration of the performance of this department in the 2021/22 and 2022/23 financial year.

2021/22 Economic Development Planning and Human Settlements Performance

	Number of KPI's	Percentage of KPI's
Total KPI's	33	100%
KPI's achieved	26	78%
KPI's not achieved	7	22%

2022/23 Economic Development Planning and Human Settlements Performance

	Number of KPI's	Percentage of KPI's
Total KPI's	30	100%
KPI's achieved	23	77%
KPI's not achieved	7	23%

The Economic Development Planning and Human Settlements Department had a total of 30 KPI's in the 2022/23 financial year. 23 KPI's were achieved and 7 KPI's were not achieved. This translates to an 77 % achievement for the department.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

The Budget and Treasury Office's main responsibilities are to ensure that:

- The municipality's assets are safeguarded
- The municipality's budget is achieved
- The finances are properly accounted for and reported accordingly.

In implementing these functions there are key indicators to ensure their achievement. Deviations are explained.

The purpose of this report is to give an overview update on the progress of implementing these functions

Financial Overview: 2021/22

Cash and cash equivalents at the end of the year	8&9 254,524,824	207,981,515

ACCOUNTING OFFICER'S RESPONSIBILITY AND APPROVAL

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2022 and, in light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is wholly dependent on the municipality for continued funding of operations. The annual financial statements are prepared on the basis that the municipality is a going concern and that the municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

Although the accounting officer are primarily responsible for the financial affairs of the municipality, they are supported by the municipality's external auditors.

The annual financial statements set out on pages 6 to 88, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2022 and were signed on its behalf by:

COMPONENT D: OTHER FINANCIAL MATTERS

- a) Maintain alignment between the IDP, PMS and Budget Process
- b) That monthly monitoring of SDBIP's and Capital Program through presentation conducted to the respective Portfolio Committees be a standing item.
- c) That the financial system and performance management system be tightly aligned to ensure accurate and clear performance reports are prepared and submitted for the understanding of all stakeholders.
- d) Monitoring and evaluation be strengthened were PMS, M, E & R Unit conduct monthly consultation verification meetings at least a month before the end of the quarter, and obedience to the timeframes that are as per the process plan.
- e) Department to take ownership of cascading PMS to lower levels, and OPMSMER Unit to assist and report through all structures of the municipality, Top Manco, Manco, Departmental Meetings, Portfolio, Council and Executive Council.

INTRODUCTION

1. The purpose of this management report is to communicate the outcomes of the audit for the financial year ended 30 June 2023, as well as the insights and significant matters that require the attention of the accounting officer. The report should be read with the engagement letter, which sets out our responsibilities as well as the standards and processes we apply in performing our audits.
2. The auditor's report is finalised only after the management report has been communicated. All matters included in this report that relate to the auditor's report remain in draft form until the final auditor's report has been signed.
3. We communicated our audit findings and recommendations for improvement to management and obtained their responses throughout the audit. This report is a comprehensive summary of what we shared with management. In **annexure D**, we provide a summary of detailed findings communicated to management.
4. The management report is structured as follows:
 - In **section 1** we share the overall audit outcomes and the status of material irregularities. We also summarise the material irregularities in **annexure F**.
 - In **section 2** we provide the most significant matters from the audit and their impact, which we detail further in the annexures. Where appropriate, we also include:
 - significant deficiencies in internal control that caused the findings we report: significant internal control deficiencies occur when internal controls do not exist; are not appropriately designed or implemented; or are not operating as intended to prevent – or to promptly detect and correct – material misstatements, non-compliance or non-performance. In **annexure C** we expand on the state of internal control.
 - key recommendations and the responses received from management on implementing the recommendations.
 - In **section 3** we include observations on the overall internal control environment and the role of the accountability ecosystem, as well as key recommendations and responses from management.
 - In **section 4** we provide our view of the root causes of deficiencies in the overall internal control environment, as well as recommendations to address the root causes.
 - We end the report with a **conclusion**.
5. We trust the insights and recommendations in this report will be of value in your pursuit towards building and leading a municipality that is accountable and transparent, has institutional integrity, and performs at a level that has a positive impact on the lives of South Africans.

SECTION 1: AUDIT OUTCOMES

OVERALL AUDIT OUTCOMES

6. The overall audit outcome of the municipality is unqualified with findings. This is the same as the previous year's audit outcome.

Audit results per outcome area

Outcome area	Movement	2022-23	2021-22	2020-21
Financial statements	➡			
Annual performance report				
• Basic service delivery and infrastructure development	➡			
Compliance with legislation				
• Annual financial statements, performance reports and annual reports	➡			
• Expenditure management	➡			
• Revenue management	➡			
• Strategic planning and performance management	➡			
• Procurement and contract management	⬆

	Unqualified / No material findings		Qualified		Adverse		Disclaimed		Material findings		Not audited
--	------------------------------------	--	-----------	--	---------	--	------------	--	-------------------	--	-------------

	Improvement		Regression		Unchanged
--	-------------	--	------------	--	-----------

7. It is commendable that the unqualified opinion on financial statements and on the performance report was maintained. However, the continued material compliance findings on annual financial statements hinders the municipality from obtaining a clean audit outcome.
8. We provide further insight into the audit outcomes, the root causes of weaknesses and our recommendations in the rest of this report.
9. Annexure E lists matters that will affect future financial statements, annual performance reports and compliance with legislation.

SECTION 1: AUDIT OUTCOMES

OVERALL AUDIT OUTCOMES

6. The overall audit outcome of the municipality is unqualified with findings. This is the same as the previous year's audit outcome.

Audit results per outcome area

Outcome area	Movement	2022-23	2021-22	2020-21
Financial statements	➡

--	------------------------------------	--	-----------	--	---------	--	------------	--	-------------------	--	-------------

	Improvement		Regression		Unchanged
--	-------------	--	------------	--	-----------

7. It is commendable that the unqualified opinion on financial statements and on the performance report was maintained. However, the continued material compliance findings on annual financial statements hinders the municipality from obtaining a clean audit outcome.
8. We provide further insight into the audit outcomes, the root causes of weaknesses and our recommendations in the rest of this report.
9. Annexure E lists matters that will affect future financial statements, annual performance reports and compliance with legislation.

SECTION 2: SIGNIFICANT MATTERS

FINANCIAL STATEMENTS

Audit results

11. The financial statements were submitted to us for auditing on 31 August 2023.
12. We identified material misstatements in the financial statements submitted for auditing. The material misstatements constitute non-compliance with the MFMA. The non-compliance will be reported as a material finding in the auditor's report.

Material misstatements corrected

Accounting standard / legislation	Nature (Factual vs Judgemental)	Value	Description	Prior-year misstatements	
				2021-22	2020-21
INEP Grant – Construction Revenue					
GRAP 11: Construction contracts	Factual	R6,8 million	The transactions from the INEP and massification Grant was recognised using GRAP 109 instead of GRAP 11.		
INEP Grant – Construction expenses					
GRAP 11: Construction contracts	Factual	R6,8 million	The transactions from the INEP and massification Grant was recognised using GRAP 109 instead of GRAP 11.		
Cash flow statement					
GRAP 2	Factual	Various	An incorrect computation of cash flow operating		
Fair value adjustment*					
GRAP 16: Investment property	Factual	R46 million	The municipality incorrectly derecognised the property by processing a fair value adjustment loss for the property that was used for the construction of the low cost housing while the transfer to the beneficiaries has not yet been done		
GRAP 12: Inventory	Factual	R42 million	The municipality has processed a transfer from investment property as there was a change in use evidenced by the commencement of development of low-cost housing with the view of transferring it to the rightful owners (the citizens), which then requires the municipality to recognise the properties as inventories until they are transferred to the owners.		

	Uncorrected	Corrected	No prior-year misstatement
--	-------------	-----------	----------------------------

13. The impact of the above corrected misstatements will result in the following paragraph in the audit report: 'The financial statements submitted for auditing were not fully prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of revenue and expenditure items, current assets, and the cash flow statement identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.'
14. The root cause for the material misstatement related to the INEP grant was due to the late guidance issued by national treasury which did not give the municipality enough time to properly account for the grant. The material misstatements on the cash flow statement and other line items are as a result of inadequate reviews performed on non-routine transactions and disclosures by management.
15. Engagements were held between management and the team and the proposed adjustments were provided before making adjustments in the annual financial statements which is in line with the terms of the engagement letter.

Internal control and recommendations

16. We identified significant internal control deficiencies in financial recordkeeping and the financial statement preparation and related business processes, which caused the misstatements or could cause misstatements in future.

Significant internal control deficiencies – financial records and financial statements

Internal control deficiency	Prior years reported	
	2021-22	2020-21
Controls and processes including reviews over financial reporting were not effectively implemented by senior management in specific areas, which resulted in material adjustments impacting non-compliance.	√	-

17. The impact of the deficiencies as noted has resulted in the stagnation of audit outcomes and in the status of internal control overall from prior years.
18. We made recommendations to improve the financial records and the financial statements preparation process to the accounting officer and senior management. Some of these recommendations were also made in prior years. A summary of the key recommendations and the responses received follows.

Key recommendations and responses – financial records and financial statements

Recommendation and management response	Year originally recommended	Status of implementation
<p>Recommendation: Monitoring controls should be enhanced to support accurate financial reporting and to ensure that all financial statement disclosures are in line with GRAP requirements, particularly in respect of non-routine transactions and disclosures.</p> <p>Response: The municipal manager will ensure that all staff is adequately capacitated in terms of remaining abreast of all updates and standards and consideration will be made on training interventions to ensure that this is facilitated.</p>	2021-22	In progress
<p>Recommendation: Reviews over the classification of financial statement items should be enhanced to ensure that all items are classified correctly in accordance to GRAP requirements.</p>	2021-22	In progress

Recommendation and management response	Year originally recommended	Status of implementation
Response: The municipal manager will ensure that all staff is adequately capacitated in terms of remaining abreast of all updates and standards and consideration will be made on training interventions to ensure that this is facilitated.		

19. Management developed and implemented an audit action plan which included the recommendations by AGSA as part of the remedial actions. This prevented re-occurrence of some of the prior year findings in relation to procurement and contract management, however the action plan was not effective to prevent new technical material misstatements being identified on the current year's financial statements.

Information to be included in auditor's report

20. We may communicate in the auditor's report matters relating to the audit, the auditor's responsibilities and the auditor's report that are important for users of the financial statements to know about. The following matter will be included as 'other matters' in the auditor's report:
- In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, we do not express an opinion on it.
21. We will include an 'emphasis of matter' paragraph in the auditor's report to draw the attention of users of the financial statements to the following matter[s] which we deem to be fundamental to their understanding of the financial statements:
- As disclosed in note 48 to the financial statements, the municipality is the defendant in litigation on multiple cases. The outcome of these matters was not determinable at year-end and no provision for any liability that may result was made in the financial statements
 - As disclosed in note 4 to the financial statements, the municipality reported material impairments of R57,60 million (2021-22: R55,87 million) on receivables from exchange transactions as the recoverability of these amounts was doubtful.
 - As disclosed in note 5 to the financial statements, the municipality reported material impairments of R35,40 million (2021-22: R33,57 million) on receivables from non-exchange transactions as the recoverability of these amounts was doubtful.
 - As disclosed in note 6 to the financial statements, the municipality reported material impairments of R77,22 million (2021-22: R67,67 million) on statutory receivables as the recoverability of these amounts was doubtful.

FINANCIAL MANAGEMENT AND PERFORMANCE

Going concern

22. Our audit included an evaluation of the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements and whether any material uncertainties exist about the municipality's ability to continue as a going concern.

We did not identify any events or conditions that cast significant doubt on the municipality's ability to continue as a going concern.

Budget management

23. We tested compliance with the legislative requirements for budget management and performed tests to identify budget overspending or budgets not spent for their intended purpose. We did not identify findings to highlight in this area of financial management.

Financial assessment and compliance

24. Our audit included a high-level assessment of the financial position and key financial ratios of the municipality based on its financial results to assess its going concern (as detailed earlier), and also to highlight to management those issues that may require corrective action to maintain financial stability. The financial ratios used for assessment include those that the National Treasury also apply when assessing whether a municipality is in financial distress. The assessment is intended to complement, rather than substitute, management's own financial assessment.
25. The detailed assessment is included in **annexure A**. We used the amounts and information in the financial statements to perform the assessment.
26. We concluded based on the assessment that the financial health of the municipality is good, which is the same as the previous year.
27. Next, we summarise the key matters identified through the assessment that require attention to maintain the good financial health.

Financial assessment – key matters

Revenue management
<ul style="list-style-type: none">The municipality has a high debt-impairment provision % and this illustrates challenges with the effectiveness of the auditee's credit control and collection policies to ensure that what is billed/ invoiced is collected.
Asset and liability management
<ul style="list-style-type: none">Spending on repairs and maintenance as a percentage of property, plant and equipment is below the benchmark and is the same as prior year. Inadequate maintenance of infrastructure could negatively impact provision of basic services and revenue earning potential of the municipality
Expenditure management
<ul style="list-style-type: none">The municipality's creditors payment period is concerning as it is above the 30-day requirement. This means that effective controls were not in place to ensure prompt payments. This might result in increasing fruitless and wasteful expenditure in the form of penalties and interest.

28. We did not identify non-compliance with legislation and other local government requirements on financial management.

Losses

29. It is crucial for the municipality to implement the necessary disciplines to ensure that value is derived from money spent and that assets and resources are safeguarded.
30. We did not identify findings to highlight in this area of financial management.

Grant management

31. The municipality received grants totalling R281 103 240 to fund its programmes and projects in the current year. We audited compliance with the Division of Revenue Act and the use of the following grants:
- Municipal Infrastructure Grant (MIG)
 - Expanded Public Works Programme
 - Finance management grant
 - Library grant
 - Municipal disaster relief grant
32. We did not identify findings to highlight in this area of financial management.

Internal control and recommendations

33. We did not identify significant internal control deficiencies in the financial management processes.

Overall performance planning and management

34. We tested whether the municipality's performance planning and management processes, integrated development plan (IDP) and service delivery and budget implementation plan (SDBIP) complied with the key requirements from legislation.
35. We did not identify findings.

Audit of annual performance report

36. The SDBIP and annual performance report were submitted to us for auditing on 31 August 2023.
37. As detailed in the engagement letter, we undertook a limited assurance engagement on specific development priorities selected for auditing. We will report only the material findings in the auditor's report and not the audit opinion as included in **section 1**.
38. We selected the following key performance area for auditing:
- Basic service delivery and infrastructure development
39. The key performance area directly addresses and impacts service delivery of the core functions that the municipality is primarily responsible for in terms of its mandate and has an impact on the public.
40. We evaluated the reported performance information for the selected key performance area against the criteria developed from the performance management and reporting framework. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users of the report on the municipality's planning and delivery on its mandate and objectives.
41. We performed procedures to test whether:
- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives

- the indicators are well-defined and verifiable to ensure that they are easy to understand and consistently applied, and that we can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time-bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance, as well as how performance will be evaluated
- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
- the reported performance information is presented in the annual performance report in the prescribed manner
- there is adequate supporting evidence for the achievements reported and for the measures included that are taken to improve performance .

42. We also performed procedures to test whether:

- the overall presentation of the performance information in the annual performance report is comparable and understandable
- the indicators used for planning and reporting are complete by considering the core functions of the municipality as defined by its mandate, the prioritisation for delivery on those core functions and any applicable standardised indicators.

While not a requirement in the current year, material findings identified in next year's audit will be included in the auditor's report from 2023-24 as a phased-in requirement.

Audit results – Basic service delivery and infrastructure development

43. We did not identify findings on the completeness of indicators.
44. We did not identify material findings on the overall presentation of performance information in the annual performance report.
45. We did not identify material misstatements in the reported performance information in the annual performance report submitted for auditing.

Information to be included in auditor's report

46. We may communicate in the auditor's report matters about the audit, the auditor's responsibilities and the auditor's report that are important for users of the annual performance report to know about.

Internal control and recommendations

47. We did not identify significant internal control deficiencies in the performance planning, management and reporting processes. Where we identified possible improvements, we reported these to management.

ACHIEVEMENT OF PLANNED TARGETS

48. As disclosed in the annual performance report, not all of the planned targets were achieved for the key performance area we selected for auditing.

49. We will draw the attention of oversight to the non-achievement of key service delivery indicators by including the table that follows in the 'other matters' section in the auditor's report, with reference to the pages in the annual performance report where the measures for improvement are included.

Service delivery indicators not achieved

Targets achieved: 83%		
Budget spent: 87%		
Key service delivery indicators not achieved	2022-23	
	Planned target	Reported achievement
Number of households to be provided with electrification infrastructure (Dry Connections) in Emhlangeni in Ward 5 and ready to be energised by 30 June 2023	100	70
Number of households to be provided with electrification infrastructure (Dry Connections) in Okhovothe Ward 12 and ready to be energised by 30 June 2023	105	43
Number of new RDP houses constructed in combined Wards 1, 2, 8, 9, 10, 11, 16, 17 and 18 by 30 June 2023	200	73

50. The non-achievement of the indicators is attributable to a numerous factors such as:
- In respect of the electrical works at Emhlangeni, management indicated that the delays in supply chain management processes contributed to delays in finalising the award of the tender.
 - In respect of the electrical works at Okhovothe and the road rehabilitation at Manono Road, management indicated the reason was due to poor performance by Contractor who was initially appointed cited financial challenges was terminated and the municipality had to start the procurement processes again to appoint another contractor to complete the project
 - In respect of RDP housing, management indicated the delays were not caused by the municipality but by Provincial Department of Human Settlements SCM Processes, subcontracting process and Implementing Agents which was beyond the control of the municipality.

OTHER INFORMATION IN ANNUAL REPORT

51. We did not audit the information in the annual report except for the financial statements and the key performance area in the annual performance report selected for auditing.
52. However, the auditing standards require us to read the unaudited information and consider whether it is materially inconsistent with the information we audited or the knowledge we obtained during the audit, or otherwise appears to be materially misstated.
53. The annual report was not received in time for us to perform this procedure. We will report this in the auditor's report and indicate that any material misstatements identified when we receive it that are not corrected might result in us retracting the auditor's report and reissuing an amended report.

HUMAN RESOURCE MANAGEMENT

- 54. We audited compliance with legislation on human resource management and assessed the processes in place to ensure adequate and sufficiently skilled resources are in place.
- 55. We did not identify findings.

USE OF CONSULTANTS

- 56. The municipality spent R1 731 748 on consultants to support the current year financial management and reporting processes – a reduction from the R3 981 090 in the previous year.
- 57. Our audit included an assessment of the effective use of consultants and compliance with local government requirements for the appointment and management of consultants.
- 58. We did not identify findings on the use of consultants.

GOVERNANCE AND COORDINATING MINISTRIES

- 59. Our audit included an assessment of councillor's and premier's roles and responsibilities, in the municipality, using the relevant acts and regulations relating to municipal council and how the council responds to work done by the AGSA. We have also assessed the role of coordinating ministries such as treasury and COGTA in providing the support to the municipality.
- 60. The objective of this assessment is to ensure that there is clear and defined mandate of each coordinating department and effective collaboration between them to effect improvement in provincial and local government; and to ensure that there is effective accountability ecosystem where all role players understand their roles and how they complement each other.
- 61. We did not identify findings.

PROCUREMENT AND CONTRACT MANAGEMENT

- 62. Section 217(1) of the Constitution envisages supply chain management systems that are fair, equitable, transparent, competitive and cost effective to achieve optimal value for public money spent and ensure equitable opportunities for suppliers to participate in government business. Meticulous contract management and rigorous payment control mechanisms should be in place to ensure that payments are made only upon the supplier's timely delivery, agreed-upon pricing is adhered to and specified quality standards are complied with.
- 63. We continued to focus on procurement and contract management processes, recognising that public procurement is the area at greatest risk of fraud, financial loss and irregular practices. We identified findings. The findings on material non-compliance with legislation will be reported in the auditor's report.
- 64. Next, we summarise the areas in procurement and contract management processes where we identified findings – these are the areas at greatest risk of fraud and financial loss. Details on the findings are included in **annexure B**.

Findings on procurement and contract management

Area	Findings		
	2022-23	2021-22	2020-21
Audit limitations			
Deviations			
Conflict of interest			
Non-compliance: competitive bidding process			
Non-compliance: quotation process			
Contract management			

	Material non-compliance with legislation		Findings		No findings
--	--	--	----------	--	-------------

65. **Impact:** Findings identified under procurement and contract management have resulted in additional irregular expenditure to be disclosed by the municipality and in non-compliance with legislation, however the non-compliance is not material.
66. Two (2) orders with a total value of R396 750 were split into two to avoid the requirements of competitive bidding process. The non-compliance is not material however has resulted to irregular expenditure amounting to R396 750.

IRREGULAR EXPENDITURE

67. Non-compliance with legislation resulted in irregular expenditure of R13 656 419. The irregular expenditure incurred constitutes non-compliance with SCM legislations in the prior years. There has been a decrease on the irregular expenditure due to write-offs approved by council in the current year.
68. The irregular expenditure incurred was disclosed in the financial statements.

CONSEQUENCE MANAGEMENT

69. Legislation stipulates that matters such as incurring unauthorised, irregular, and fruitless and wasteful expenditure; the possible abuse of the supply chain management system (including fraud and improper conduct); and allegations of financial misconduct should be investigated. Disciplinary steps should be taken based on the results of these investigations. Our audit included an assessment of the municipality's management of consequences.
70. We did not identify findings.
71. During prior-year audits, we reported findings on transgressions by officials or other roleplayers for management to investigate. During the current year's audit, we performed follow-up tests to determine whether management has dealt with these matters. None of the reported transgressions were investigated and resolved.

Prior-year transgressions

Prior-year finding	Instances reported	Instances investigated	Instances resolved through investigation	Prior years reported	
				2021-22	2020-21
Suppliers with false declarations					
Awards to persons in the service of other state institutions	3	0	0	No	No

72. Management has however indicated that there were no awards awarded to the suppliers identified in the prior year
73. We did not identify significant internal control deficiencies in the consequence management processes.

FRAUD RISK

74. Our auditing standards define fraud as an intentional act by one or more individuals who are employees, management, those charged with governance or third parties, and that involves the use of deception to obtain an unjust or illegal advantage.
75. We are required to evaluate whether the information obtained during our audit indicates whether there any fraud risk factors present at the municipality and consider its impact on the audit. Fraud risk factors are events or conditions that indicate an incentive or pressure to commit fraud or that provide an opportunity to commit fraud (e.g. inadequate controls to prevent or detect fraud). We did not identify fraud risk factors.

SECTION 3: CONTROL ENVIRONMENT

OVERALL CONTROL ENVIRONMENT

76. The significant internal control deficiencies as reported in **section 2** were caused by weaknesses in the overall control environment, for which the accounting officer and senior management are responsible.
77. The following are the main weaknesses that need urgent attention to improve the overall control environment:

Significant internal control deficiencies – overall control environment

Internal control deficiency	Prior years reported	
	2021-22	2020-21
Leadership did not provide adequate oversight and monitoring to ensure that action plans were effectively implemented to fully address previous emerging risks findings on the financial statements and compliance with legislation.	No	No
Management did not perform adequate reviews to ensure that the financial statements are free of material misstatements.	√	No

78. Overall control environment within the municipality is still the same as the previous year with a noticeable improvement in the reported performance information. Issues detected are in the areas of technical matters as well as inherent limitations of a comprehensive level of oversight.
79. In **annexure C** we provide a more detailed view of the overall state of internal control.

ACCOUNTABILITY ECOSYSTEM

80. The accountability ecosystem is the collection of roleplayers that have a part to play in enabling and institutionalising a culture of performance, transparency, accountability and integrity at the municipality. These roleplayers include the officials, senior management and accounting officer, supported by the internal audit unit and the audit committee.
81. We observed strengths and weaknesses in the contributions to the ecosystem by leadership, management and the governance structures of the municipality. We share our observations with the intention to contribute to strengthening the overall control environment, performance and accountability.

Accounting officer and senior management

82. Deficiencies noted during the audit process were mostly due to technical issues as well as cash flow misstatements. The tone and commitment to improvement of deficiencies identified by management is commendable and can be seen by the active implementation of areas identified by internal and external per the audit action plan. The municipality has ensured that the action plan is moving forward and is committed to driving the municipality to achieve better outcomes in future periods. Management has furthermore ensured that the cohesion with other role players were welcomed into the control environment and thereby strengthening the system of internal controls. This was evident through the involvement of internal audit and the audit committee. Management has to ensure regular and timeous engagements and guidance with all relevant role-players in order to address any technical matters that might re-occur.

Audit committee

- 83. The audit committee met regularly during the year and on the needs basis discussed pertinent matters as part of their oversight responsibility impacting the audit process and municipality overall including
- 84. The audit committee was functional and provided assurance during the year under review. Through internal audit, the audit committee reviewed the financial and performance information submitted for audit. Oversight on financial reporting and compliance with key legislation needs to be strengthened to ensure non-recurrence of findings identified.

Internal audit unit

- 85. The internal audit unit performed the audits in line with the approved plan and made necessary recommendations to the management of municipality.
- 86. An internal control deficiency has been reported where we noted that an external assessment/ review of the internal audit function was not performed in the last five years as prescribed by IIA standard 1312. The ongoing challenges, engagements and steps being taken by management to comply with IIA standard 1312 are noted, we will follow up on the progress in the next years
- 87. The auditing standards allow us to use the work of internal audit units for external audit purposes and for direct assistance. We have used internal audit work for risk identification purposes.
- 88. Internal audit together with the audit committee should ensure a stringent risk based internal audit plan is in place and that any technical matter are tackled timeously during the year under review
- 89. All role-players in the ecosystem exercised their duties in accordance with relevant requirements. However we do recommend some improvements on the processes in enabling and institutionalising a culture of performance, transparency, accountability and integrity at the municipality.

SECTION 4: OVERALL RECOMMENDATIONS

90. We provided recommendations to senior management to rectify the weaknesses identified in financial management and compliance with legislation. Our recommendation for the accounting officer is to focus on addressing the underlying root causes of these weaknesses, which stem from deficiencies in the overall control environment and failures in the accountability ecosystem.
91. In our view, the main root causes that need attention are as follows:
- The municipality has not implemented an enhanced system of technical updates and therefore the interpretation and implementation of South Standards of Generally Recognised Accounting Practice were found to be deficient in certain areas.
 - Certain matters noted during the audit could have been avoided if a more enhanced system of review and oversight by management could have been implemented on financial statement preparation. This includes the validation against the underlying records.
92. Addressing these root causes requires a focused and systematic approach. We have found that an action plan that is focused on addressing root causes, with SMART targets and disciplined monitoring and implementation, is fundamental to success.
93. The following are our three main recommendations to address the identified root causes. We have shared some of these before and ask for urgent action to ensure their implementation.

Overall recommendations

	Recommendation	Year originally recommended	Status of implementation
1.	Oversight over technical interpretation of certain standards of the accounting framework by ensuring significant line items are measured against any reporting requirements including guidelines, interpretation notes etc.	2022-23	Not started
2.	Monitoring controls should be enhanced to support accurate financial reporting and to ensure that all financial statement disclosures are in line with GRAP requirements	2021-22	Limited progress

CONCLUSION

94. The matters communicated throughout this report relate to the three fundamentals of internal control that should be addressed to achieve sustained clean administration. Our staff remain committed to assisting in identifying and communicating good practices to improve governance and accountability and to build public confidence in government's ability to account for public resources in a transparent manner.

Yours sincerely

Martin Coates

Senior manager

ANNEXURE A: FINANCIAL ASSESSMENT

We included a summary of the financial assessment we did as part of the audit in the section on financial performance. This annexure includes the detailed ratios and information used for the assessment.

Financial health assessment

		Current year	Previous year
Expenditure management			
1.1	Creditor-payment period	44 Days	21 Days
1.2	Deficit was realised for the year (total expenditure exceeded total revenue)	No	No
	Amount of surplus / (deficit) for the year	R65 370 942	R80 931 267
Revenue management			
2.1	Debt-collection period (after impairment)	46 Days	32 Days
	<ul style="list-style-type: none"> Amount of debtor's impairment provision Amount of accounts receivable 	R170 218 767 R51 794 125	R157 116 188 R34 049 046
2.2	Debt-impairment provision as a percentage of accounts receivable	76.7%	82.2%
	<ul style="list-style-type: none"> Amount of debt-impairment provision Amount of accounts receivable (before impairment) 	R170 218 767 R222 012 892	R157 116 188 R191 165 234
Asset maintenance and renewal			
3.1	Percentage spending on repairs and maintenance	2.6 %	2.5 %
	<ul style="list-style-type: none"> Amount of expenditure on repairs and maintenance Amount of property, plant and equipment (carrying value) 	R13 908 107 R541 774 597	R12 208 292 R484 787 955
3.2	Total capital expenditure as percentage of total expenditure	18.7%	17.2%
	<ul style="list-style-type: none"> Amount of capital expenditure Amount of total expenditure (operating + capital) 	R75 545 053 R404 077 290	R63 545 832 R368 936 755
3.3	Asset renewal / rehabilitation expenditure as a percentage of total capital expenditure	34.6%	N/A
	Amount of asset renewal / rehabilitation expenditure	R26 168 755	N/A
3.4	Asset renewal / rehabilitation expenditure as a percentage of total depreciation and impairment	86.8%	N/A
	Amount of depreciation and impairment	R30 160 938	N/A

		Current year	Previous year
Asset and liability management			
4.1	Total debt / borrowings vs total revenue for the year	22.9%	16.8%
	• Amount of debt / borrowings	R93 966 056	R64 275 469
	• Amount of revenue for the year	R411 045 367	R383 089 485
4.2	Current liabilities as a percentage of next year's budgeted resources	13.1%	7.9%
	• Amount of current liabilities	R71 378 580	R41 480 252
	• Total budgeted income for the next year, excluding employee costs and remuneration of councillors	R546 853 000	R523 470 000
4.3	Net current liability position was realised (total current liabilities exceeded total current assets)	No	No
	• Amount of net current asset / (liability) position	R239 196 319	R138 146 425
4.4	Net non-current liability position was realised (total non-current liabilities exceeded total non-current assets)	No	No
	• Amount of net non-current asset / (liability) position	R580 061 792	R615 633 091
4.5	Net liability position was realised (total liabilities exceeded total assets)	No	No
	• Amount of net asset / (liability) position	R819 258 111	R753 779 616
4.6	Liquid assets as a percentage of total current liabilities (acid test percentage)	434.1%	431.1%
	• Amount of liquid assets	R309 861 048	R178 819 556
4.7	Current ratio	4.4:1	4.3:1
	• Amount of current assets	R310 574 899	R179 626 677
4.8	Total debt to total assets ratio	0.1:1	0.07:1
	• Amount of debts	R93 966 056	R64 275 469
	• Amount of assets	R913 224 167	R818 054 985
Cash management			
4.9	Year-end bank balance was in overdraft	No	No
	• Amount of year-end bank balance (cash and cash equivalents) / (bank overdraft)	R10 321 268	R4 119 614
4.10	Cash plus investments less applications	R235 546 311	R180 759 619

		Current year	Previous year
	• Amount of year-end bank balance (cash and cash equivalents)	R10 321 268	R4 119 614
	• Amount of total investments (short and long term)	R244 203 556	R138 861 901
	• Less: amount of cash applications/ commitments	R18 978 513	R27 221 896
4.11	Cash coverage	11.5 months	7.3 months
	• Amount of monthly expenditure	R22 043 838	R19 610 905

ANNEXURE B: PROCUREMENT AND CONTRACT MANAGEMENT

1. We included a summary of our findings and their impact in the section on procurement and contract management. This annexure provides the detailed findings.

Competitive bidding and quotation processes

2. Supply chain management legislation and policy prescribe the manner in which bidding and quotation processes should be performed to enable fair, competitive and equitable procurement. We identified non-compliance with the requirements for the competitive bidding process.

Findings on competitive bidding process

Finding	Value	Instances	Material non-compliance	Prior years reported	
				2021-22	2020-21
Quotations with indicators of splitting identified	R396 750	1	No	0	0

3. **Impact:** The above findings have resulted in non-compliance with the supply chain management regulations. This has resulted in irregular expenditure due to the instances of non-compliance identified. The non-compliance is not material.
4. The instances of non-compliance are mainly due to internal control processes on procuring goods and services not being sufficiently adequate to ensure that the compliance requirements are fully complied with. The instances of non-compliance identified in the current year are not the similar instances raised in the prior year.

Conflict of interest

5. We assessed the interests of officials and councillors and other persons in service of the state in the suppliers to the municipality. The supply chain management regulations prohibit awards to suppliers where there could be conflict of interest. We did not identify such interests.
6. We also assessed the interests of close family members of officials and councillors in the suppliers to the municipality. Procurement legislation does not prohibit awards to such suppliers, but we performed testing to ensure that conflicts of interest did not result in contracts being unfairly awarded or in unfavourable price quotations being accepted, and to share the information with management as potential risks. We did not identify such interests.

Internal control and recommendations

7. We identified significant internal control deficiencies, which caused the weaknesses in the procurement and contract management processes as reported.

Significant internal control deficiencies – procurement and contract management

Internal control deficiency	Prior years reported	
	2021-22	2020-21
Management did not adequately monitor compliance with applicable laws and regulations as evidenced by the non-compliances reported.	√	No

8. We made recommendations to improve the procurement and contract management process to the accounting officer and senior management. Some of these recommendations were also made in prior years. A summary of the key recommendations and the responses received follows.

Key recommendations and responses – procurement and contract management

Recommendation and management response	Year originally recommended	Status of implementation
Recommendation: Management should ensure that internal control processes do not impact compliance with the procurement regulations and measures are implemented to ensure that the regulations are fully complied with and there is evidence that supports the compliance with the procurement regulations. Response:	2022-23	Not started
Recommendation: Management should enhance the review and monitoring of compliance with applicable laws and regulations. Response:	2021-22	Limited progress

ANNEXURE C: ASSESSMENT OF INTERNAL CONTROL

1. This annexure provides our assessment of the main internal controls in the areas of **leadership, financial and performance management, and governance** that should enable credible financial statements and performance reports and compliance with legislation.
2. The assessments are rated as follows:

	The required preventative or defective controls were in place.
	Progress was made in implementing preventative or defective controls, but improvement is still required or actions taken were not sustainable.
	Internal controls were not in place, were not properly designed, were not implemented or were not operating effectively. Intervention is required to design and/or implement appropriate controls.

3. Movement from the previous year is shown as follows:

	Improvement		Regression		Unchanged
--	-------------	--	------------	--	-----------

Internal control assessment

	Financial statements		Performance reporting		Compliance with legislation	
	Current	Previous	Current	Previous	Current	Previous
Leadership						
Provide effective leadership based on a culture of honesty, ethical business practices and good governance, and protect and enhance the interests of the entity						
Exercise oversight responsibility regarding financial and performance reporting and compliance as well as related internal controls						
Implement effective human resource management to ensure that adequate and sufficiently skilled resources are in place and that performance is monitored						
Establish and communicate policies and procedures to enable and support the understanding and execution of internal control objectives, processes and responsibilities						
Develop and monitor the implementation of action plans to address internal control deficiencies						

	Financial statements		Performance reporting		Compliance with legislation	
	Current	Previous	Current	Previous	Current	Previous
Establish and implement an information technology governance framework that supports and enables the business, delivers value and improves performance						
Financial and performance management	▶		▲		▲	
Implement proper record keeping in a timely manner to ensure that complete, relevant and accurate information is accessible and available to support financial and performance reporting						
Implement controls over daily and monthly processing and reconciling of transactions						
Prepare regular, accurate and complete financial and performance reports that are supported and evidenced by reliable information						
Review and monitor compliance with applicable legislation						
Design and implement formal controls over information technology systems to ensure the reliability of the systems and the availability, accuracy and protection of information relating to user access management, programme change control and service continuity			N/A	N/A	N/A	N/A
Governance	▶		▲		▲	
Implement appropriate risk management activities to ensure that regular risk assessments, including considering information technology risks and fraud prevention, are conducted and that a risk strategy to address the risks is developed and monitored						
Ensure that there is an adequately resourced and functioning internal audit unit that identifies internal control deficiencies and recommends corrective action effectively						
Ensure that the audit committee promotes accountability and service delivery through evaluating and monitoring responses to risks and overseeing the effectiveness of the internal control environment, including financial and performance reporting and compliance with legislation						

ANNEXURE D: SUMMARY OF DETAILED AUDIT FINDINGS

1. This annexure summarises the findings that were communicated to management during the audit. The detailed findings are available on request.
2. The findings are rated as follows:

	Matters that will be reported in the auditor's report and should be addressed urgently
	Matters that should be addressed to prevent material misstatements in the financial statements or material findings on the annual performance report and compliance with legislation in future; also includes matters that significantly affected auditee performance
	Matters that do not have a direct impact on the audit outcome or a significant impact on auditee performance, but were communicated to assist with improving processes and mitigating risks

Summary of audit findings

Finding	Rating	Classification					Number of times reported in previous two years
		Financial	Performance	Compliance	Internal control	Delivery	
A: Matters that will be reported in the auditor's report							
Annual financial statements							
Agent-principal arrangement- INEP and Massification Grants		√					1
Statement of cash flows misstatements		√					
Investment Property- Fair Value Adjustment		√					
B: Matters that should be addressed to prevent material misstatements in the financial statements and compliance with legislations

ANNEXURE E: UPCOMING CHANGES

1. This Annexure lists upcoming changes and events that will potentially affect the preparation of financial statements and annual performance report and compliance with legislation.
2. The municipality should ensure that systems and controls are in place to implement upcoming changes in the pronouncements that could have an impact on future audit outcomes.

Upcoming changes

Description	Audit outcome area	Effective date
GRAP 1 on Presentation of Financial Statements (revised)	Financial statements	1 Apr 2023
GRAP 25 on Employee benefits (revised)	Financial statements	1 Apr 2023
GRAP 103 on Heritage assets (revised)	Financial statements	To be determined
GRAP 104 on Financial instruments (revised) GRAP 104 (revised) was substantially changed. As a result, an entity may not use the revised version to formulate accounting policies alone. GRAP 104 (revised) must be adopted and applied in totality, partial adoption or application is not permitted	Financial statements	1 Apr 2025
IGRAP 7 on The limit on a defined benefit asset, minimum funding requirements and their interaction (revised)	Financial statements	1 Apr 2023
IGRAP 21 on The effect of past decisions on materiality	Financial statements	1 Apr 2023
Guideline on Accounting for landfill sites	Financial statements	1 Apr 2023

REPORT OF THE AUDITOR-GENERAL

Mandeni Local Municipality

For the year ended 30 June 2023

Report of the auditor-general to KwaZulu-Natal Provincial Legislature and the council on Mandeni Local Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Mandeni Local Municipality set out on pages xx to xx, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Mandeni Local Municipality as at 30 June 2023 and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP), the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2022 (Act No. 5 of 2022) (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Contingencies

7. With reference to note 48 to the financial statements, the municipality is the defendant in multiple litigations. The outcome of these matters was not determinable at year-end and no provision for any liability that may result was made in the financial statements.

Material Impairments

8. As disclosed in note 4 to the financial statements, the municipality reported material impairments of R57,60 million (2021-22: R55,87 million) on receivables from exchange transactions as the recoverability of these amounts was doubtful.
9. As disclosed in note 5 to the financial statements, the municipality reported material impairments of R35,40 million (2021-22: R33,57 million) on receivables from non-exchange transactions as the recoverability of these amounts was doubtful.
10. As disclosed in note 6 to the financial statements, the municipality reported material impairments of R77,22 million (2021-22: R67,67 million) on statutory receivables as the recoverability of these amounts was doubtful.

Other matter

11. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

12. In terms of section 125(2)(e) of the MFMA, particulars of non-compliance with the MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

13. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
14. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

15. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are

considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

16. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

17. In accordance with the Public Audit, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objective
18. s for the selected key performance area presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
19. I selected the following key performance area presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected a key performance area that measures the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

Key performance area	Page numbers	Purpose
Basic service delivery and infrastructure development	XX	Improve access to all infrastructure and services.

20. I evaluated the reported performance information for the selected key performance area against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.
21. I performed procedures to test whether:
- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives
 - the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
 - the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
 - the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents

- the reported performance information is presented in the annual performance report in the prescribed manner
 - there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.
22. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
23. I did not identify any material findings on the reported performance information for the selected key performance area.

Other matter

24. I draw attention to the matter below.

Achievement of planned targets

25. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance.

Report on compliance with legislation

26. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.
27. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
28. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow for consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
29. The material findings on compliance with the selected legislative requirements, presented per compliance theme, are as follows:

Annual financial statements

30. The financial statements submitted for auditing were not fully prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of revenue and expenditure items, current assets, and the cash flow statement identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

Other information in the annual report

31. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and the selected key performance area presented in the annual performance report that has been specifically reported on in this auditor's report.
32. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
33. My responsibility is to read the other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected key performance area presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
34. I did not receive the other information prior to the date of this report. When I do receive and read this information, and if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

35. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
36. The matters reported below are limited to the significant internal control deficiencies that resulted in the material findings on compliance with legislation included in this report.
37. Controls and processes including reviews over financial reporting were not effectively implemented by senior management in specific areas, which resulted in material adjustments.

Other reports

38. I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

39. An independent consultant investigated an allegation of misappropriation and fraudulent use of the fuel master tag at the request of the municipality, covering the period 29 January 2022 to 18 February 2022. The final report was provided to the municipality on 05 July 2022 with recommendations. These proceedings were in progress at the date of this auditor's report.

AUDITOR-GENERAL

Pietermaritzburg

14 December 2023

Annexure to the auditor's report

The annexure includes the following:

- The auditor-general's responsibility for the audit
- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected key performance area and on the municipality's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act 56 of 2003 (MFMA)	Section 1 - paragraph (a), (b) & (d) of the definition: irregular expenditure, Section 1 - definition: service delivery and budget implementation plan, Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1), 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b), 32(6)(a), 32(7), 53(1)(c)(i), 54(1)(c), 62(1)(d), 62(1)(f)(i), 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b), 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e), 72(1)(a)(i), 112(1)(i), 116(2)(b), 116(2)(c)(i), 117, 122(1), 122(2), 126(1)(a), 126(1)(b), 127(2), 127(5)(a)(i), 127(5)(a)(ii), 129(1), 129(3), 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170, 171(4)(a), 171(4)(b)
MFMA: Municipal Budget and Reporting Regulations, 2009	Regulations 71(1), 71(2), 72

POLITICAL DECISION-TAKING

The Standing Rules and Orders of Council and various pieces of legislation including the Constitution of the Republic of South Africa provides for the processes of decision making by Council.

All issues pertaining to the matters listed below are dealt with by Council and the resolution passed through the supporting vote of the majority of members of Council:

- a) Approval of Budget
- b) The imposition of rates and taxes, levies and duties.
- c) The passing of By-laws.
- d) The raising of loans.

Other matters are delegated to the Executive Mayor in terms of Section 59 of the Municipal Systems Act. The Executive Mayor must report to Council on the execution of duties delegated to her. All other matters before Council are decided by the majority of votes cast in a particular meeting.

If on any matter there is an equality on votes cast, the Speaker exercise a casting vote in addition to that of him being a Councillor.

Before a Council passes a resolution on any of the following matters it shall first require the Mayor to play his executive role and submit a report and recommendation to the full sitting of Council.

- a) The passing of By-laws
- b) The approval of budgets
- c) The imposition of rates
- d) The raising of loans
- e) The approval of the IDP and any amendments or reviews of this plan.
- f) The appointment and conditions of service of the Municipal Manager and Managers directly accountable to the Municipal Manager.
- g) And any other powers and functions as prescribed by various pieces of legislation.

APPENDIX B

COMMITTEES AND COMMITTEE PURPOSES

APPENDIX D

Functions of Municipality/Entity

In terms of Section 156 of the Constitution of the Republic of South Africa, 1996, a municipality has executive authority in respect of, and has the right to administer:

- The local government matters listed in Part B of Schedule 4 and Part B of Schedule 5; and
- Any other matters assigned to it by national or provincial legislation.

In addition, national and provincial governments must assign to a municipality, by agreement and subject to any conditions, the administration of a matter listed in Part A of Schedule 4 or Part A of Schedule 5 to the Constitution which necessarily related to local government, if:

- That matter would most effectively be administered locally; and
- The municipality has the capacity to administer it. (Section 156(4), Constitution)

Section 83 read with section 84(1) and (2) of the Municipal Structures Act 117 of 1998 (Structures Act) divides up the functions listed in Schedule 4B and 5B of the Constitution between local municipalities and district municipalities.

The Minister, in terms of section 84(3) of the Structures Act, and the MEC, in terms of section 85(1) of the Structures Act may adjust the functions and powers of local and district municipalities by way of notice in the Government Gazette and Provincial Gazette respectively.

National Legislation may also assign certain duties and responsibilities relating to national or provincial government powers and functions.

In addition to the above, a district municipality is obligated in terms of section 83 (3) to seek to achieve the integrated, sustainable and equitable social and economic development of its area as a whole by –

- Ensuring integrated development planning for the district as a whole;
- Promoting bulk infrastructure development and services for the district as a whole;
- Building the capacity of local municipalities in its area to perform their functions and exercise their powers where such capacity is lacking; and
- Promoting the equitable distribution of resources between the local municipalities in its area to ensure appropriate levels of municipal services within the area.

Appendix E- Ward reporting

Report on challenges affecting the Ward Committees in Mandeni.

11 November 2023

Listed below is a summary of challenges affecting the Ward Committees in Mandeni

Ward	Challenge	Action required/ Taken
01	A PR Councillor deployed in Ward 1 to oversee the Ward Committee and assist in the Ward Functionality	Speaker has deployed a PR Councillor to play an oversight role
05	There are challenges with the secretariat and the coordination of	Public Meetings to be coordinated in the Speaker's office in consultation with the

	public meetings	Ward Committee & the Ward Councillor
06	Poor Communication between the Ward Cllr & the Ward Committee Secretary	Mediation by the Speaker's office between all parties involved.
08	Member representing the traditional sector does not attend.	A letter was sent to Inkosi to report the matter. Awaiting feedback.
10	Nonattendance of members, frivolous excuses given.	Formal report to be made to the Speakers office for immediate intervention.
13	2 members of the committee have gotten employment and need to be replaced.	A public meeting to fill the vacancies.
15	Communication between the committee and the Ward Cllr	Mediation is underway by the Speaker's office.
17	Vacancies to be filled & communication between Cllr & the Ward committee secretary	A public meeting to fill the vacancies and intervention by the Speaker's office.
18	Coordination of public meetings and communication between the Cllr and members of the committee. Conflict within members	Meetings to be coordinated in the Speaker's office in consultation with the Ward Committee & Cllr. The Speaker's office is drafting a programme to mediate in Wards with conflicts

Ward Reporting

Mandeni Municipality submits ward reports on a monthly basis to COGTA. Most wards are functional. However, there is a challenge of ward 17 whereby some reports are not submitted. The matter was reported to the Speaker of the municipality to resolve the matter.

There are ongoing engagements with Ward Councillors and the Secretariat of the Ward Committee on what is expected from them in order to remain or be functional as per the guidelines set out by CoGTA.

The Ward Committees have been and will continue to receive workshops and trainings to ensure that they fully understand their role. The challenge that we are facing currently in terms of compliance is the submission of minutes for community feedback meetings.

A possible solution for this challenge is to have Municipal Officials attend public meetings to render secretariat support in areas where needed. The submission rate has improved, a cut-off date has been set as the 20th of each month, this has helped a great deal.

Patching. Heavy Rehabilitation. Construction of stormwater infrastructure. Replace with 40mm thick medium mix asphalt for the entire length of the road. Erection of Kerbing and Channel along either side of the road. Clearing of road reserve.	Consultant: Libeko (Pty) Ltd Contractor: Nangu-u-Mzamo Retailers	R10,555,885.48	Project is 27% complete.		Delay in the commencement of works due to Contractor meeting Contractual Obligations. An Award Adjustment Application has been submitted to COGTA for approval as the project was appointed for an of R 1 041 525.73 incl vat more than the amount approved by COGTA i.e Notification of Registration Amount (NOR).

2022/2023 FINANCIAL YEAR CAPITAL ROLL OVER PROJECTS (INEP)

No.	Project Name	Ward	Brief Description	Consultant & Contractor	Approved INEP Funding	Status/Progress	Anticipated Completion Date	Challenges / Comments
16	Completion of Okhovothi Electrification Project	12	Supply, delivery, installation and commissioning of a new MV and LV infrastructure to 105 households' connections	Consultant: BVI Engineers Contractor: Onombuthu Pty LTD	R1,152,933.57	The project is 98% complete.	August 2023	Delays are due to inexperience of the contractor and the negligence of consultant, not ordering material on time.
17	Dendethu / Wetane Electrification Project	5 & 15	Supply, delivery, installation and commissioning of a new MV and LV infrastructure to 170 households' connections	Consultant: Veritas Engineers Contractor: Afrilectrical Consulting Engineers	R2,034,054.94	The project is 99% complete.	February 2023	Contractor not cooperating with the clients/consultant, contractor not on site to remove the illegal connections. This project is experiencing delays due to the inefficiency and unwillingness to comply and perform duties effectively by the contractor.
18	Emhlangeni Electrification	5	Supply, delivery, installation and	Consultant: PSMT	R2,908,456.61	Project is 80% complete.	July 2023	The project has a dependency as per

No.	Project Name	Ward	Brief Description	Consultant & Contractor	Approved INEP Funding	Status/Progress	Anticipated Completion Date	Challenges / Comments
			commissioning of a new MV and LV infrastructure to electricity to 100 households' connections	Consulting Engineers Contractor: R Busisiwe (Pty) LTD				Eskom's Network Planning Report, which is a line upgrade from MV Oak line to MV Chickadee line. This upgrade calls for break-and-build in the same servitude because of space constraints. The break-and-build requires the line to be dead, this then necessitates the booking of outages from the commencement of the project to do the upgrade as there are no connections to be added in the network before the line has been upgraded.

2022/2023 FINANCIAL YEAR INTERNALLY FUNDED CAPITAL PROJECTS

No.	Project Name	Ward	Brief Description	Consultant & Consultant	Approved Internal Funding	Status/Progress	Anticipated Completion Date	Challenges / Comments
19	Construction of DLTC and DMC Administration Offices - Phase 1	3	Construction of a Drivers Licence Testing centre administration offices and Testing Ground	Consultant: Nzamakhuze Holdings Contractor: Mlombomvu Projects CC	R14,017,239.00	Project is 78% Complete.	July 2023 EOT - September 2023	The contractor did not finish work after they were granted extension of time ending 26 September 2023 due to other challenges they met during stormwater pipe trench excavation. They came across the hard rock that required extra effort to remove thus increasing the duration period to complete the laying of stormwater pipes. Due to these challenges the contractor has indicated that they intend to submit another extension of time application.
20	Repair and Renovation of	3	Replacement of Existing roof.	Consultant: LZM Africa	R10,993,497.45	Project is 74% complete	July 2023	Anticipated delay with regards to the

	Civic Centre and Roof Replacement		Replacing existing ceiling. Treatment of Rising damp by Specialists. Installation of Energy saving Components and the replacement of all existing Electrical Components and Wiring. Upon Replacement of Existing Roofs, The networking and Security cabling will be exposed to damages therefore re-routing and the installation of cable trays is recommendable. Damaged Walls with visible rising damp has to be restored and re-painted.	Holdings Contractor: Uhlanga Trading Enterprise				commencement of Phase 2 due to the Relocation of the Mandeni Library service. Further delays have been encountered as a result of a re-design of the Electrical Works along with the IT Services portion. We anticipate the commencement of relocation of phase 2 at the end of October 2023.
21	Construction of Mechanical Workshop	3	Demolition of existing pavement and structures,	Consultant: Ukwakha Consulting	R14,590,742.56	Project is 35% complete		The existing ablution block was found to be in an unstable condition,

			<p>earthworks, construction of a Mechanical workshop, construction of a new office block, paving front of the workshop, construction of a drainage channel, installation of water and sewer, installation of electrical, mechanical and associated works. The site comprises an abundant building that will be demolished and an area to be used for the construction of the new office block.</p>	<p>Engineers</p> <p>Contractor:</p> <p>Bheka Phezulu Investments and Sales</p>				<p>the walls are showing big cracks after the removal of the old roofing and windows which is the result of non-reinforcement on the walls done by the previous contractor. The consultant instructed the contractor to demolish the walls for the old ablution block due to them not being stable and build the new brick wall. The contractor is slightly behind the programme.</p>

APPENDIX P

SERVICE CONNECTION BACKLOGS AT SCHOOLS AND CLINICS

A] SERVICE CONNECTION BACKLOGS AT SCHOOLS AND CLINICS

The service that we provide as a municipality is **waste collection**

- ✓ Here we have a routinely weekly plan, that accommodates all these entities, which is consistently delivered accordingly
- ✓ We even provide wheelie bins for these entities

Hence, we do not have backlogs.

B] THE Q SECTION – BACKLOGS BY OTHER DEPARTMENTS

Mandeni has the following clinics

- Ndulinde
- Isithebe
- Sundumbli
- Hlomendlini
- Mandeni, and
- Ohwebede

All these are serviced by Eskom for electricity, and Ilembe District

Pertaining to schools, Mandeni has two **circuits, namely Gingindlovu Circuit and Gingindlovu Circuit, and part of Phambela Circuit (in ward 3 & 4)**

About 18 of the rural schools do have access to water, and these schools are situated in ward 06 , ward 1, 2,8, 5 & 9

APPENDIX Q

Service backlogs experienced by the community where another sphere of government is responsible for service provision

There is still a major challenge to sort of government departments that lack to render the anticipated services to the community. There are backlogs in the department of home affairs, where a number of community members did not get the proper services in terms of acquiring the proper documents such

as identity documents, birth certificates, passports, etc. Most of the Home Affairs Offices have a challenge of encountering technical glitches such as internet.

The Department of Transport also has a backlog. The services are very poor if you assess both the local, provincial and national roads, there are multiple potholes that damage motor vehicles. In certain rural areas, communities suffer due to absence of bridges, walk-overs that interconnect to areas. Some areas have community members, specifically children who have a difficult time getting to school when it rains as proper bridges aren't built.

The Department of Health has a major challenge as some hospitals have patients sleeping on the floor due to a shortage of beds. Proper machinery and technology are also not supplied to the hospitals. It is clear that there is still a lack of implementing Batho Pele Principles in some government departments, hence there is a service backlogs experienced by the community.

APPENDIX R

DECLARATION OF LOANS AND GRANTS MADE BY THE MUNICIPALITY

There are no loans made by the municipality as the municipality is sustained by their reserves and investments.

APPENDIX S

DECLARATION OF RETURNS NOT MADE IN DUE TIME UNDER MFMA s71

The municipal financial departments managed to submit all 12 section 71 reports. This means that deadlines were met, therefore there are no 71 reports submitted to the relevant stakeholders. Under compliance measures are met and prioritized by the municipality

APPENDIX T

NATIONAL AND PROVINCIAL OUTCOME BY LOCAL GOVERNMENT

The Municipal Assessment Tool, Circular 88 Reporting template were submitted on a quarterly. The municipality is still complying with COGTA both nationally and provincially in terms of submissions. Various COGTA Assessment documents that include C88 Reporting Template, Mandeni Municipal Assessment Tool, PMS questionnaire, PMS Status Reports. These templates play an imperative tool in order to assess the municipality in various sectors so that we can render the anticipated service delivery. Other KPI's, assess that certain deadlines are met to show that the municipality reaches certain targets according to dates, targets and percentages. Therefore, this shows that the municipality is functional in terms of COGTA Assessments. Thus far, all information required has been submitted by the municipality.

**Mandeni Municipality Annual Financial Statements

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and were given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

I certify that the salaries, allowances and benefits of Councillors as disclosed in note 33 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Corporative Governance and Traditional Affairs' determination in accordance with this Act.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2024 and, in light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditor, being the Auditor General of South Africa, is responsible for independently reviewing and reporting on the municipality's annual financial statements. The annual financial statements have been examined by the municipality's external auditors.

The annual financial statements set out on pages 7 to 95, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2023 and were signed by:

SG Khuzwayo
Accounting Officer

31 August 2023

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2023.

1. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

2. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the year.

3. Accounting policies

The annual financial statements are prepared in accordance with the South African Statements of Generally Accepted Accounting Practice (GAAP), including any interpretations of such Statements issued by the Accounting Practices Board, and in accordance with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board as the prescribed framework by National Treasury.

4. Non-current assets

There were no changes in the policy relating to the use of non-current assets.

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1. Presentation of Annual Financial Statements

1.1 Basis of preparation

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

1.2 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Trade receivables

The municipality assesses its trade receivables, held to maturity investments and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables, held to maturity investments and loans and receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumption may change which may then impact our estimations and may then require a material adjustment to the carrying value of tangible assets.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of tangible assets are inherently uncertain and could materially change over time. They are significantly affected by economic factors such as inflation and interest rate.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 14 - Payables from exchange transactions.

Useful lives of property, plant and equipment and other assets

The municipality's management determines the estimated useful lives and related depreciation charges for property, plant and equipment and intangible assets. This estimate is based on the pattern in which an asset's future economic benefits or service potential are expected to be consumed by the municipality.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.2 Significant judgements and sources of estimation uncertainty (continued)

Post-retirement benefits

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 17.

Effective interest rate

The municipality used the prime interest rate to discount future cash flows under GRAP 13 while the government bond rate was used to discount future cash flows under GRAP 25.

Allowance for debt impairment

For receivables an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the receivables carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition.

1.3 Going concern - assumption

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.4 Investment property

Investment property is property (land or a building - or part of a building) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services; or for
- administrative purposes; or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Accounting Policies

1.4 Investment property (continued)**Subsequent measurement - Fair value**

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

If the municipality determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably measurable when construction is complete, it measures that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier). If the entity determines that the fair value of an investment property (other than an investment property under construction) is not reliably determinable on a continuing basis, the entity measures that investment property using the cost model (as per the accounting policy on Property, plant and equipment). The residual value of the investment property is then assumed to be zero. The entity applies the cost model (as per the accounting policy on Property, plant and equipment) until disposal of the investment property.

Once the municipality becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on Property, plant and equipment.

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

1.5 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.5 Property, plant and equipment (continued)

Major spare parts and standby equipment which are expected to be used for more than one period are included in property, plant and equipment. In addition, spare parts and standby equipment which can only be used in connection with an item of property, plant and equipment are connected for as property, plant and equipment.

Subsequent measurement - cost model (land and buildings)

Subsequent to initial recognition, land and buildings are carried at cost less any subsequent accumulated depreciation and any impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Subsequent measurement - cost model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any impairment losses.

Where the municipality replaces part of an asset, it derecognises the part of an asset being replaced and capitalises the new component. Subsequent expenditure incurred on a asset is capitalised when it increases the capacity or the future economic benefits associated with the asset.

Depreciation

Depreciation is calculated on a depreciable amount, using the straight-line basis over the estimated useful life of items of property, plant and equipment unless depreciation of certain assets is being determined using a method other than the estimated useful life.

Components of assets that are significant in relation to the whole asset and have different useful lives are depreciated separately.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

The annual depreciation rates are based on the following estimated average useful lives of items of property, plant and equipment and have been assessed as follows:

Item	Depreciation method	Average useful life in years
Buildings	Straight-line	30 years
Infrastructure	Straight-line	30 years
Community	Straight-line	30 years
Other property, plant and equipment	Straight-line	5 to 10 years

The residual value and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimate, the change is accounted for as a change in accounting estimate. In determining the depreciation change for the current year, the residual value for all assets have been taken into account.

Reviewing the useful life of an asset on an annual basis does not require the municipality to amend the previous estimate unless expectations differ from the previous estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.5 Property, plant and equipment (continued)

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

1.6 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the municipality intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date of acquisition.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Useful life
Computer software	3 years

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.6 Intangible assets (continued)

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the statement of financial performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and impairment loss is charged to the statement of financial performance.

Derecognition

Intangible assets are derecognised when the asset is disposed off or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount and is recognised in the statement of financial performance.

1.7 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The municipality has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class	Category
Cash and cash equivalents	Financial asset measured at amortised cost
Call investment deposits	Financial asset measured at amortised cost
Receivables from exchange transactions	Financial asset measured at amortised cost
Receivables from non- exchange transactions	Financial asset measured at amortised cost
Other receivables	Financial asset measured at fair value

A financial liability is a contractual obligation to deliver cash or another financial asset to another entity. The municipality has the following types of financial liabilities as reflected on the face of the Statement of Financial Position or in the notes thereto:

Class	Category
Payables from exchange transactions	Financial liability measured at amortised cost
Consumer deposits	Financial liability measured at amortised cost
Unspent conditional grants and receipts	Financial liability measured at amortised cost
Other payables	Financial liability measured at amortised cost
Finance lease obligation	Financial liability measured at amortised cost

Accounting Policies

1.7 Financial instruments (continued)

Initial and subsequent measurement

Financial assets

Held-to-maturity Investments and Loans and Receivables are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. Subsequently, these assets are measured at amortised cost using the Effective Interest Method less any impairment, with revenue recognised on an effective yield basis.

Financial Assets at Available-for-Sale are initially and subsequently, at the end of each financial year, measured at fair value with the profit or loss being recognised in the Statement of Financial Performance.

Financial assets are recognised on the date they originated for loans and receivables and deposits and for other financial assets, initially on the trade date at which the municipality becomes a party to the contractual provision of the instrument.

Financial liabilities

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

Financial liabilities are recognised on the trade date at which the municipality becomes a party to the contractual provisions of the instrument.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence of impairment of financial assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

Initially accounts receivable are valued at fair value and subsequently carried at amortised cost using the effective interest rate method. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year-end. Bad debts are written off the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of trade receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

Consumer debtors are stated at cost less a provision for bad debts. The provision is made in accordance with GRAP 104 whereby the recoverability of Consumer Debtors is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the Statement of Financial Performance to the extent that the carrying amount of the instruments at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The municipality derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of financial assets due to non-recoverability.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.7 Financial instruments (continued)

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Derecognition of financial liabilities

The municipality derecognises financial liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

1.8 Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

Carrying amount is the amount at which an asset is recognised in the statement of financial position.

The cost method is the method used to account for statutory receivables that requires such receivables to be measured at their transaction amount, plus any accrued interest or other charges (where applicable) and, less any accumulated impairment losses and any amounts derecognised.

Nominal interest rate is the interest rate and/or basis specified in legislation, supporting regulations or similar means.

The transaction amount for a statutory receivable means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means.

Recognition

The municipality recognises statutory receivables as follows:

- if the transaction is an exchange transaction, using the policy on Revenue from exchange transactions;
- if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers); or
- if the transaction is not within the scope of the policies listed in the above or another Standard of GRAP, the receivable is recognised when the definition of an asset is met and, when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the transaction amount can be measured reliably.

Initial measurement

The municipality initially measures statutory receivables at their transaction amount.

Subsequent measurement

The municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- interest or other charges that may have accrued on the receivable (where applicable);
- impairment losses; and
- amounts derecognised.

Accrued interest

Where the municipality levies interest on the outstanding balance of statutory receivables, it adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest is calculated using the nominal interest rate.

Interest on statutory receivables is recognised as revenue in accordance with the policy on Revenue from non-exchange transactions (Taxes and transfers).

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.7 Financial instruments (continued)

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Derecognition of financial liabilities

The municipality derecognises financial liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

1.8 Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

Carrying amount is the amount at which an asset is recognised in the statement of financial position.

The cost method is the method used to account for statutory receivables that requires such receivables to be measured at their transaction amount, plus any accrued interest or other charges (where applicable) and, less any accumulated impairment losses and any amounts derecognised.

Nominal interest rate is the interest rate and/or basis specified in legislation, supporting regulations or similar means.

The transaction amount for a statutory receivable means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means.

Recognition

The municipality recognises statutory receivables as follows:

- if the transaction is an exchange transaction, using the policy on Revenue from exchange transactions;
- if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers); or
- if the transaction is not within the scope of the policies listed in the above or another Standard of GRAP, the receivable is recognised when the definition of an asset is met and, when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the transaction amount can be measured reliably.

Initial measurement

The municipality initially measures statutory receivables at their transaction amount.

Subsequent measurement

The municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- interest or other charges that may have accrued on the receivable (where applicable);
- impairment losses; and
- amounts derecognised.

Accrued interest

Where the municipality levies interest on the outstanding balance of statutory receivables, it adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest is calculated using the nominal interest rate.

Interest on statutory receivables is recognised as revenue in accordance with the policy on Revenue from non-exchange transactions (Taxes and transfers).

Accounting Policies

1.9 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the municipality's incremental borrowing rate.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. Property, plant equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured at the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangible assets. The lease liability is reduced by the lease payments, which are allocated between the lease finance costs and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

The discount rate used in calculating the present value of the minimum lease payments is the municipality's incremental borrowing.

Operating leases are those leases that do not fall within the scope within the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.10 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.10 Inventories (continued)

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the municipality.

Redundant and obsolete inventories identified and written down from cost to net realisable value with regards to their estimated economic or realisable values. Consumables are written down with regards to their age, condition and utility.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.11 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the municipality; or
- the number of production or similar units expected to be obtained from the asset by the municipality.

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

Accounting Policies

1.11 Impairment of cash-generating assets (continued)**Value in use**

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the municipality estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the municipality applies the appropriate discount rate to those future cash flows.

Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Cash-generating units

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the municipality determines the recoverable amount of the cash-generating unit to which the asset belongs (the asset's cash-generating unit).

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash-generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash-generating unit are affected by internal transfer pricing, the municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating:

- the future cash inflows used to determine the asset's or cash-generating unit's value in use; and
- the future cash outflows used to determine the value in use of any other assets or cash-generating units that are affected by the internal transfer pricing.

Cash-generating units are identified consistently from period to period for the same asset or types of assets, unless a change is justified.

The carrying amount of a cash-generating unit is determined on a basis consistent with the way the recoverable amount of the cash-generating unit is determined.

An impairment loss is recognised for a cash-generating unit if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment is allocated to reduce the carrying amount of the cash-generating assets of the unit on a pro rata basis, based on the carrying amount of each asset in the unit. These reductions in carrying amounts are treated as impairment losses on individual assets.

In allocating an impairment loss, the entity does not reduce the carrying amount of an asset below the highest of:

- its fair value less costs to sell (if determinable);
- its value in use (if determinable); and
- zero.

The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other cash-generating assets of the unit.

Accounting Policies

1.11 Impairment of cash-generating assets (continued)

Where a non-cash-generating asset contributes to a cash-generating unit, a proportion of the carrying amount of that non-cash-generating asset is allocated to the carrying amount of the cash-generating unit prior to estimation of the recoverable amount of the cash-generating unit.

Reversal of impairment loss

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

Accounting Policies

1.12 Employee benefits

Employee benefits are all forms of consideration given by a entity in exchange for service rendered by employees.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

When an employee has rendered service to the entity during a reporting period, the entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The entity measures the expected cost of accumulating compensated absences as the additional amount that the entity expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The municipality recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits

Post-employment benefits are employee benefits (other than termination benefits) which are payable after the completion of employment.

Post-employment benefit plans are formal or informal arrangements under which a entity provides post-employment benefits for one or more employees.

Multi-employer plans are defined contribution plans (other than state plans and composite social security programmes) or defined benefit plans (other than state plans) that pool the assets contributed by various entities that are not under common control and use those assets to provide benefits to employees of more than one entity, on the basis that contribution and benefit levels are determined without regard to the identity of the entity that employs the employees concerned.

Accounting Policies

1.12 Employee benefits (continued)

Multi-employer plans and/or State plans and/or Composite social security programmes

The entity classifies a multi-employer plan and/or state plans and/or composite social security programmes as a defined contribution plan or a defined benefit plan under the terms of the plan (including any constructive obligation that goes beyond the formal terms).

Where a plan is a defined contribution plan, the entity accounts for in the same way as for any other defined contribution plan.

Where a plan is a defined benefit plan, the entity accounts for its proportionate share of the defined benefit obligation, plan assets and cost associated with the plan in the same way as for any other defined benefit plan.

When sufficient information is not available to use defined benefit accounting for a plan, that is a defined benefit plan, the entity account for the plan as if it was a defined contribution plan.

Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which a entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

When an employee has rendered service to the entity during a reporting period, the entity recognises the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

Where contributions to a defined contribution plan do not fall due wholly within twelve months after the end of the reporting period in which the employees render the related service, they are discounted. The rate used to discount reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the obligation.

Accounting Policies

1.12 Employee benefits (continued)

Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans. The municipality has an obligation to provide post-retirement health care benefits to certain of its retirees. According to the rules of the medical aid funds, with which the municipality is associated, a member (who is on the current conditions of service) on retirement, is entitled to remain a continued member of the medical aid fund in which case the municipality is liable for a certain portion of the medical aid membership fee.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognises actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the entity recognise past service cost as an expense in the reporting period in which the plan is amended.

Plan assets comprise assets held by a long-term employee benefit fund and qualifying insurance policies.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The return on plan assets is interest, dividends and other revenue derived from the plan assets, together with realised and unrealised gains or losses on the plan assets, less any costs of administering the plan (other than those included in the actuarial assumptions used to measure the defined benefit obligation) and less any tax payable by the plan itself.

The municipality accounts not only for its legal obligation under the formal terms of a defined benefit plan, but also for any constructive obligation that arises from the entity's informal practices. Informal practices give rise to a constructive obligation where the entity has no realistic alternative but to pay employee benefits. An example of a constructive obligation is where a change in the entity's informal practices would cause unacceptable damage to its relationship with employees.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly;
- plus any liability that may arise as a result of a minimum funding requirement.

The amount determined as a defined benefit liability may be negative (an asset). The entity measure the resulting asset at the lower of:

- the amount determined above; and
- the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of these economic benefits is determined using a discount rate which reflects the time value of money.

Any adjustments arising from the limit above is recognised in surplus or deficit.

The entity determines the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

Accounting Policies

1.12 Employee benefits (continued)

The entity recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses;
- past service cost;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The entity uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, a entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, a entity shall attribute benefit on a straight-line basis from:

- the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The entity recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- any resulting change in the present value of the defined benefit obligation; and
- any resulting change in the fair value of the plan assets.

Before determining the effect of a curtailment or settlement, the entity re-measure the obligation (and the related plan assets, if any) using current actuarial assumptions (including current market interest rates and other current market prices).

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The entity offsets an asset relating to one plan against a liability relating to another plan when the entity has a legally enforceable right to use a surplus in one plan to settle obligations under the other plan and intends either to settle the obligations on a net basis, or to realise the surplus in one plan and settle its obligation under the other plan simultaneously.

Accounting Policies

1.12 Employee benefits (continued)**Actuarial assumptions**

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflect the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
 - those changes were enacted before the reporting date; or
 - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

Long-term service awards

The municipality has an obligation to provide long-term service awards to all of its employees who have been in service of the municipality for a certain period of time. According to the rules of the long-term service allowance scheme, which the municipality has instituted and operates, an employee (who is on the current conditions of service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 5, 10, 15, 20, 25, 30, 35, 40 and 45 years of continued service.

The municipality's liability is based on an actuarial valuation. The Projected Unit Credit Method is used to value the liability. Actuarial gains and losses on the long-term service awards are recognised in the statement of financial performance.

The amount recognised as a liability for other long-term employee benefits is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;
- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The entity shall recognise the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which shall all be recognised immediately;
- past service cost, which shall all be recognised immediately; and
- the effect of any curtailments or settlements.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.12 Employee benefits (continued)

Termination benefits

The entity recognises termination benefits as a liability and an expense when the entity is demonstrably committed to either:

- terminate the employment of an employee or group of employees before the normal retirement date; or
- provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

The entity is demonstrably committed to a termination when the entity has a detailed formal plan for the termination and is without realistic possibility of withdrawal. The detailed plan includes [as a minimum]:

- the location, function, and approximate number of employees whose services are to be terminated;
- the termination benefits for each job classification or function; and
- the time at which the plan will be implemented.

Implementation begins as soon as possible and the period of time to complete implementation is such that material changes to the plan are not likely.

Where termination benefits fall due more than 12 months after the reporting date, they are discounted using an appropriate discount rate. The rate used to discount the benefit reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the benefit.

In the case of an offer made to encourage voluntary redundancy, the measurement of termination benefits shall be based on the number of employees expected to accept the offer.

1.13 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating expenditure.

If an municipality has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.13 Provisions and contingencies (continued)

A constructive obligation to restructure arises only when the municipality:

- has a detailed formal plan for the restructuring, identifying at least:
 - the activity/operating unit or part of a activity/operating unit concerned;
 - the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for services being terminated;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

A restructuring provision includes only the direct expenditures arising from the restructuring, which are those that are both:

- necessarily entailed by the restructuring; and
- not associated with the ongoing activities of the municipality

No obligation arises as a consequence of the sale or transfer of an operation until the municipality is committed to the sale or transfer, that is, there is a binding arrangement.

After their initial recognition contingent liabilities recognised in entity combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 48 unless the possibility of an outflow or resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefit is probable.

Decommissioning, restoration and similar liability

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

If the related asset is measured using the cost model:

- changes in the liability is added to, or deducted from, the cost of the related asset in the current period.
- the amount deducted from the cost of the asset does not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit.
- if the adjustment results in an addition to the cost of an asset, the entity consider whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If there is such an indication, the entity test the asset for impairment by estimating its recoverable amount or recoverable service amount, and account for any impairment loss, in accordance with the accounting policy on impairment of assets as described in accounting policy 1.11.

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in surplus or deficit as they occur. This applies under both the cost model and the revaluation model.

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.13 Provisions and contingencies (continued)

Levies

A levy is an outflow of resources embodying economic benefits that is imposed by governments on entities in accordance with legislation (i.e. laws and/or regulations), other than:

- those outflows of resources that are within the scope of other Standards, and
- fines or other penalties that are imposed for breaches of the legislation.

Government refers to government, government agencies and similar bodies whether local, national or international.

The obligating event that gives rise to a liability to pay a levy is the activity that triggers the payment of the levy, as identified by the legislation.

The municipality does not have a constructive obligation to pay a levy that will be triggered by operating in a future period as a result of the municipality being economically compelled to continue to operate in that future period. The preparation of financial statements under the going concern assumption does not imply that the municipality has a present obligation to pay a levy that will be triggered by operating in a future period.

The liability to pay a levy is recognised progressively if the obligating event occurs over a period of time (i.e. if the activity that triggers the payment of the levy, as identified by the legislation, occurs over a period of time).

If an obligation to pay a levy is triggered when a minimum threshold is reached, the corresponding liability is recognised when that minimum threshold is reached.

The municipality recognises an asset if it has prepaid a levy but does not yet have a present obligation to pay that levy.

1.14 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

Service charges relating to electricity are based on consumption. Meters are read on a quarterly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale.

Revenue from the sale of tender documents is recognised at the point of sale.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.14 Revenue from exchange transactions (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse containers per property.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licenses and permits.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

Interest

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

1.15 Revenue from non-exchange transactions

Revenue comprises gross inflows of economic benefits or service potential received and receivable by a municipality, which represents an increase in net assets, other than increases relating to contributions from owners.

Conditions on transferred assets are stipulations that specify that the future economic benefits or service potential embodied in the asset is required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Fines are economic benefits or service potential received or receivable by municipalities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting municipality.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

The taxable event is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to entities, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the municipality satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the municipality.

When, as a result of a non-exchange transaction, the municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Taxes

The municipality recognises an asset in respect of property rates when the taxable event occurs and the asset recognition criteria are met.

Resources arising from property rates satisfy the definition of an asset when the municipality controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources.

The municipality analyses the taxation laws to determine what the taxable events are for the various taxes levied.

Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured.

The taxable event for property rates is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

Transfers

Apart from Services in kind, which are not recognised, the municipality recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset.

Transferred assets are measured at their fair value as at the date of acquisition.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where settlement discounts or reductions in the amount payable are offered, the municipality considers past history in assessing the likelihood of these discounts or reductions being taken up by the debtors.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Services in-kind

Services in-kind are not recognised.

Concessionary loans received

A concessionary loan is a loan granted to or received by an property, plant and equipment on terms that are not market related.

The portion of the loan that is repayable, along with any interest payments, is an exchange transaction and is accounted for in accordance with the Standard of GRAP on Financial Instruments. The off-market portion of the loan is a non-exchange transaction. The off-market portion of the loan that is recognised as non-exchange revenue is calculated as the difference between the proceeds received from the loan, and the present value of the contractual cash flows of the loan, discounted using a market related rate of interest.

The recognition of revenue is determined by the nature of any conditions that exist in the loan agreement that may give rise to a liability. Where a liability exists the cash flow statement recognises revenue as and when it satisfies the conditions of the loan agreement.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportionate basis.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.15 Revenue from non-exchange transactions (continued)

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where settlement discounts or reductions in the amount payable are offered, the municipality considers past history in assessing the likelihood of these discounts or reductions being taken up by the debtors.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably.

Services in-kind

Services in-kind are not recognised.

Concessionary loans received

A concessionary loan is a loan granted to or received by an property, plant and equipment on terms that are not market related.

The portion of the loan that is repayable, along with any interest payments, is an exchange transaction and is accounted for in accordance with the Standard of GRAP on Financial Instruments. The off-market portion of the loan is a non-exchange transaction. The off-market portion of the loan that is recognised as non-exchange revenue is calculated as the difference between the proceeds received from the loan, and the present value of the contractual cash flows of the loan, discounted using a market related rate of interest.

The recognition of revenue is determined by the nature of any conditions that exist in the loan agreement that may give rise to a liability. Where a liability exists the cash flow statement recognises revenue as and when it satisfies the conditions of the loan agreement.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportionate basis.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.21 Accumulated surplus

Capital replacement reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment, amounts are transferred from the accumulated surplus/(deficit) to the CRR in terms of a Council resolution (Number C30 dated 17.10.2012).

These transfers from the net surplus may only be made if they are backed by cash. The amount transferred to CRR is based on the municipality's need to finance future capital progress included in the integrated development plan. The following provisions are set for the creation and utilisation of the CRR:

- the cash which backs up the CRR is invested until it is utilised. The cash may only be invested in accordance with the investment policy of the municipality.
- interest earned on the CRR investment is recorded as part of the total interest earned in the statement of financial performance
- the CRR may only be utilised for the purpose of purchasing items of property, plant and equipment for the municipality and may not be used for maintenance of these items.
- whenever an asset is purchased out of CRR, an amount equal to the cost price of the asset purchased is transferred from the CRR into a future depreciation reserve called the Capitalisation Reserve. This reserve is equal to the remaining depreciable value (book value) of assets purchased out of the CRR. The Capitalisation Reserve is used to offset depreciation charged on assets purchased out of the CRR to avoid double taxation of the consumers.
- if a gain is made on the sale of assets previously purchased out of the CRR, the gain on these assets sold is reflected in the statement of financial performance.

Housing development fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund. Housing selling schemes, both complete and in progress as at 1 April 1998, were also transferred to the Housing Development Fund.

Provisions are set out for the creation and utilisation of the Housing Development Fund. The Housing Development Fund is cash-backed, and invested in accordance with the investment policy of the municipality.

In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

Revaluation reserve

The surplus arising from the revaluation of property, plant and equipment is credited to a non-distributable reserve. The revaluation surplus is realised as revalued buildings are depreciated, through a transfer from the revaluation reserve to the accumulated surplus/deficit. On disposal, the net revaluation surplus is transferred to the accumulated surplus/deficit while gains or losses on disposal, based on revalued amounts, are credited or charged to the statement of financial performance.

Donations and public contributions reserve

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus/deficit to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the statement of financial performance in accordance with a directive issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the accumulated surplus/deficit. The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the accumulated surplus/deficit.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.21 Accumulated surplus (continued)

Government grant reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus/deficit to the Government Grants Reserve equal to the Government Grant recorded as revenue in the statement of financial performance in accordance with a directive issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/deficit. The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/deficit.

The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/deficit.

1.22 Budget information

Municipality is typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

The approved budget is prepared on an accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2022/07/01 to 2023/06/30.

The annual financial statements and the budget are on the same basis of accounting.

1.23 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

The municipality is exempt from disclosure requirements in relation to related party transactions if that transaction occurs within normal supplier and/or client/recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the municipality to have adopted if dealing with that individual entity or person in the same circumstances and terms and conditions are within the normal operating parameters established by that reporting entity's legal mandate.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.23 Related parties (continued)

Where the municipality is exempt from the disclosures in accordance with the above, the municipality discloses narrative information about the nature of the transactions and the related outstanding balances, to enable users of the entity's financial statements to understand the effect of related party transactions on its annual financial statements.

1.24 Events after the reporting date

The municipality has carefully considered whether events occurring between the Statement of Financial Position date and the date of approval should be reflected in the annual financial statements. Events after the reporting period (or 'post Statement of Financial Position events') are either adjusting events or non-adjusting events.

Adjusting events provide further evidence of conditions that existed at the statement of financial position date and the carrying amounts of assets and liabilities at the statement of financial position date are adjusted for such events. Non-adjusting events relate to conditions that arose after the statement of financial position date and should be disclosed.

The municipality adjusts amount recognised in the annual financial statements to reflect adjusting events after the reporting date once the event occurred.

1.25 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

1.26 Share capital / contributed capital

An equity instrument is any contract that evidences a residual interest in the assets of an municipality after deducting all of its liabilities.

1.27 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.28 Accounting by principals and agents

Identification

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf, and for the benefit of, another entity (the principal).

Identifying whether an entity is a principal or an agent

When the municipality is party to a principal-agent arrangement, it assesses whether it is the principal or the agent in accounting for revenue, expenses, assets and/or liabilities that result from transactions with third parties undertaken in terms of the arrangement.

The assessment of whether an municipality is a principal or an agent requires the municipality to assess whether the transactions it undertakes with third parties are for the benefit of another entity or for its own benefit.

Binding arrangement

The municipality assesses whether it is an agent or a principal by assessing the rights and obligations of the various parties established in the binding arrangement.

Where the terms of a binding arrangement are modified, the parties to the arrangement re-assess whether they act as a principal or an agent.

Recognition

The municipality, as a principal, recognises revenue and expenses that arise from transactions with third parties in a principal-agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The municipality, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The municipality recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Accounting Policies

1.29 Segment information

A segment is an activity of an entity:

- that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);
- whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and
- for which separate financial information is available.

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

Measurement

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities, those amounts are allocated on a reasonable basis.

If management uses only one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities in assessing segment performance and deciding how to allocate resources, segment surplus or deficit, assets and liabilities are reported in terms of that measure. If management uses more than one measure of a segment's surplus or deficit, the segment's assets or the segment's liabilities, the reported measures are those that management believes are determined in accordance with the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.

1.30 Transfers and subsidies

Transfers and subsidies include all unrequited payments made by the municipality. A payment is unrequited provided that the municipality does not receive anything of similar value directly in return for the transfer to the other party.

Transfers and subsidies are recognised in the Statement of Financial Performance as expenses in the period in which the events giving rise to the transfer occurred.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
-----------------	------	------

6. Statutory receivables (continued)

Transactions arising from statute

The following prescripts authorise the municipality to charge and collect funds to fund its mandate. The resulting receivables are therefore classified as statutory receivables and are disclosed as such as per GRAP 108 Statutory Receivables:

- Section 229(1) of the Constitution of the Republic of South Africa;
- Municipal Properties Rates Act; and
- Administrative Adjudication of Road Traffic Offences Act.

Determination of transaction amount

The municipality initially measures statutory receivables at their transaction amount. The transaction amount for the purposes of GRAP 108 Statutory Receivables means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means.

Interest charged

Interest is accrued on the outstanding balance of statutory receivables. The municipality adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest on property rates is calculated at the rate of 2% per annum.

Interest charged on property rates is recognised in the statement of financial performance as follows:

Interest income - Property rates	2,627,819	2,328,532
----------------------------------	-----------	-----------

7. VAT receivable

VAT	3,542,099	1,788,995
-----	-----------	-----------

The municipality is registered for VAT with SARS on payment basis. This means that the municipality can only claim input or declare output VAT from SARS (depending on the type of supply) based on the payments made to creditors and actual cash receipts/collections from debtors respectively. However, for financial reporting purposes the municipality reports on accrual basis of accounting. VAT receivable balance as per these Annual Financial Statements reflects actual VAT receivable from SARS statement of account and, deferred tax asset and liabilities on outstanding payments to creditors and outstanding collections from debtors as at reporting date, respectively.

VAT Receivable [Payment basis]	2,395,937	3,559,174
Add: Deferred VAT on liabilities	3,115,012	1,128,173
Less: Deferred VAT on receivables	(1,968,850)	(2,898,352)
	3,542,099	1,788,995

VAT Receivable is VAT receivable from SARS as at reporting date.

Deferred VAT asset and liability disclosed is VAT not yet claimable and payable to SARS as at reporting date. These balances arise from input and output VAT transactions on outstanding creditors and debtors as at reporting date, respectively.

10. Investment property (continued)		
Investment properties transferred		
The following investment properties were transferred by the municipality from investment property to property, plant and equipment.		
The Remainder of Farm Lot Inyoni no. 13890 now registered as ERF 412 Isithebe Industrial Estate was transferred to Land under Property Plant and Equipment (PPE) for an amount of R11 800 000 as per the Property Valuation for the year ended 30 June 2023. This is due to new Township registration of Portion 1, 2 & 3 of ERF 412 that took place during the 2022-23 Financial Year.		
Remainder of Farm Lot 30 Inyoni No. 13890 (ERF 412, Isithebe Industrial Estate)	11,800,000	-
ERF 412, Isithebe Industrial Estate - Residential Units Transferred to Inventory	-	46,000,000
	11,800,000	46,000,000
The breakdown of the investment property transferred to PPE is as follows:		
RDP Housing Estate - Now Unreg ERF 412 Isithebe - Value split according to use	57,800,000	-
Residential Land - No 3020 plots - Average extent per site 348m2 - Approx. R 15000 per plot	(46,000,000)	-
	11,800,000	-
The investment property transferred to PPE is categorised as follows:		
Commercial land	740,000	-
School, administration, community facilities etc. land	5,400,000	-
Infrastructure land (roads, rail & reservoirs)	3,760,000	-
Conservation & passive open space	1,900,000	-
	11,800,000	-

13. Finance lease obligation

Minimum lease payments due

- within one year	-	236
-------------------	---	-----

Present value of minimum lease payments due

- within one year	-	13,719
- in second to fifth year inclusive	-	-
	-	13,719

The average lease term is 3 years and the average effective borrowing rate is 10.5%. Interest rates are fixed at the contract date. Some leases have fixed repayment terms. No arrangements have been entered into for contingent rent. Obligations under finance leases are secured by the lessor's title to the leased assets.

In May 2017, the municipality entered into a 60 months instalment sale agreement with Wesbank for 10 vehicles, the contract term ended in May 2022. Further to that in September 2017, the municipality entered into another 60 months instalment sale agreement with Westbank for 2 additional vehicles, the contract ended in September 2022.

Notes to the Annual Financial Statements

Figures in Rand

2023

2022

17. Employee benefit obligations

Post-retirement medical benefit plan

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The municipality operated on five accredited medical aid schemes, namely Keyhealth, LA Health, SAMWU, Bonitas and Hosmed.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2023 by 1Pangaea Expertise Solutions. The present value of the defined benefit obligation, and the related current service cost and past service cost were measured using the Projected Unit Credit Method.

Multi-employer pension funds

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

All councillors belong to the pension fund for municipal councillors.

Employees belong to a variety of approved pension and provident funds.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided in sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The amounts recognised in the statement of financial position are as follows:

Carrying value

Present value of the defined benefit obligation-partly or wholly funded	(22,587,476)	(22,795,217)
Non-current liabilities	(21,693,073)	(21,498,844)
Current liabilities	(894,403)	(1,296,373)
	(22,587,476)	(22,795,217)

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
-----------------	------	------

17. Employee benefit obligations (continued)

Changes in the present value of the defined benefit obligation are as follows:

Opening balance	18,002,747	18,696,772
Net expense recognised in the statement of financial performance	386,365	(694,025)
	18,389,112	18,002,747

Net expense recognised in the statement of financial performance

Current service cost	1,139,027	1,211,001
Interest cost	2,544,533	2,201,962
Benefits paid	(688,870)	(509,766)
Actuarial (gains) losses	(2,608,325)	(3,597,222)
	386,365	(694,025)

Key assumptions used

Assumptions used at the reporting date:

Expected retirement age	63	63
Discount rates used	14.09 %	12.27 %
Medical cost trend rates	10.05 %	9.28 %
Consumer price inflation	8.55 %	7.78 %
Net effective discount rate	3.68 %	2.74 %

Percentage of in-service members withdrawing before retirement

	Female	Male
Age 20 - 24	16.0 %	24.0 %
Age 25 - 29	12.0 %	18.0 %
Age 30 - 34	10.0 %	15.0 %
Age 35 - 40	8.0 %	10.0 %
Age 40 - 44	6.0 %	6.0 %
Age 45 - 49	4.0 %	4.0 %
Age 50 - 54	2.0 %	2.0 %
Age 55 - 59	1.0 %	1.0 %
Age 60+	- %	- %

It is difficult to predict future investment returns and health care cost inflation rates. The relationship between them is more stable and therefore easier to predict. GRAP 25 requires that financial assumptions be based on market expectations at the Valuation Date for the period over which the liability obligations are to be settled.

Discount Rate: GRAP 25 stipulates that the choice of this rate should be derived from government bond yields. However, where the market in these bonds is not significant, the market yields on government bonds consistent with the estimated term of the post-employment liabilities should be used. The discount rate at 30 June 2023 is 14.09% which represents the average yield from the zero-coupon government bond curve over a 15 to 20 year term.

Salary Inflation Rate: This assumption is required to reflect the estimated growth in salaries of the eligible employees until retirement.

General Salary Inflation: This assumption is more stable relative to the growth in consumer Price Index (CPI) than in the absolute terms. In most industries, experience has shown, that over the long-term, salary inflation is between 1.0% and 1.5% above CPI inflation.

The implied inflation assumption is 8.55% per annum which represents the market's pricing of inflation by comparing the yields on index linked government bonds and long-term government bonds with a duration of 15 to 20 years, adjusting for an inflation risk premium of 1% per annum.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
-----------------	------	------

17. Employee benefit obligations (continued)

It has been assumed that the next salary increase will take place on 1 July 2023.

The next contribution increase was assumed to occur with effect from 1 January 2024.

Replacement ratio: This is the expected pension as a percentage of final salary, at retirement. This assumption is required to determine the income band at retirement of members since some contribution rate tables are income-dependent. A replacement ratio of 65% was assumed. Income bands are assumed to increase with general salary inflation and therefore an explicit salary inflation assumption is not necessary.

Long service awards and retirement gifts

The independent valuers, 1Pangaea Expertise Solutions, carry out a statutory valuation on an annual basis.

The principal actuarial assumptions used were as follows:

Discount rate per annum	11.11 %	10.93 %
General salary inflation (long-term)	7.08 %	8.24 %
Net effective discount rate	3.76 %	2.49 %

Examples of mortality rates used were as follows:

Average retirement age	63	63
Mortality during employment	SA 85-90	

Membership summary

Number of members	257	250
Average age of members (years)	40.91	41.12
Average past service (years)	8.18	8.58
Average salary (annual)	301,491	286,60

Benefit Structure

Service years	Award (Number of days)	Award (Number of days)
5	5	5
10	10	10
15	20	20
20	30	30
25	30	30
30	30	30
35	30	30
40	30	30
45	30	30

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
17. Employee benefit obligations (continued)		
Movement in the defined benefit obligation is as follows:		
Balance at beginning of the year	4,792,470	4,897,059
Current service cost	475,124	540,870
Interest cost	453,337	396,188
Expected benefit payments	(961,802)	(633,712)
Recognised actuarial (gains) / losses	(560,765)	(407,935)
Balance at end of year	4,198,364	4,792,470
The amounts recognised in the Statement of Financial Performance were as follows:		
Current service cost	475,124	540,870
Interest cost	453,337	396,188
Benefit payment	(961,802)	(633,712)
Actuarial (gains) / loss	(560,765)	(407,935)
	(594,106)	(104,589)
In conclusion:		
Statement of Financial Position obligation for		
Long service award liability	4,198,364	4,792,470
Retirement benefit liability	18,389,112	18,002,747
	22,587,476	22,795,217
Statement of Financial Performance obligation for		
Long service award expense	594,106	104,589
Retirement benefit expense	(386,365)	694,025
	207,741	798,614

Key assumptions used

In estimating the liability for long service awards (LSA) a number of assumptions are required. GRAP 25 statement places the responsibility on management to set these assumptions, as guided by the principles set out in the Statement and in discussion with the actuary.

It should be noted that the valuation method and assumptions do not affect the ultimate cost of the LSA - this is determined by the actual experience and by the benefits provided. The method and assumptions influence how the past service liability and future-service costs are recognised over time.

It is difficult to predict future investment returns and health care cost inflation rates. The relationship between them is more stable and therefore easier to predict. GRAP 25 requires that financial assumptions be based on market expectations at the Valuation Date for the period over which the liability obligations are to be settled.

Discount Rate: GRAP 25 stipulates that the choice of this rate should be derived from high quality corporate bond yields. However, where the market in these bonds is not significant, the market yields on government bonds consistent with the estimated term of the post-employment liabilities should be used. The discount rate is 11.11% which represents the average yield from the zero-coupon government bond curve over nine years which is consistent with the cash flow weighted average of the liabilities of nine years.

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
27. Property rates		
Rates received		
Residential	21,313,255	17,403,438
Commercial	31,750,860	26,645,475
State	13,764,014	11,194,093
Less: Rebates	(15,066,544)	(11,643,113)
	51,761,585	43,599,893
Valuations		
Residential	1,147,644,000	1,147,644,000
Commercial	375,176,000	375,176,000
Industrial	127,837,000	127,837,000
Industrial Estate Special	855,622,000	855,622,000
Mining	15,000,000	15,000,000
Agricultural	387,217,000	387,217,000
Municipal	137,961,000	137,961,000
Public Services Infrastructure	20,343,000	20,343,000
Public Benefit Organisation	49,903,000	49,903,000
Vacant land	114,227,800	114,227,800
State Trust land	446,500,000	446,500,000
Public Services Purposes	422,300,000	422,300,000
Place of Worship	15,030,000	15,030,000
	4,114,760,800	4,114,760,800

Commercial includes industrial, mining and agriculture.

State includes institutional and public services infrastructure.

Valuations on land and buildings are performed every 5 years in line with the provisions of the MPRA. The last General Valuation Roll came into effect on 1 July 2018. It should be noted that a new General Valuation Roll, to be implemented over the next 5 years, was prepared during the year under review. As a result, the interim valuations could not be prepared as this will serve as a duplication hence the Market values remained unchanged for the year under review

The following are the rates randage that were applied to the valuations in respect of the various categories:

Residential	0.0155	0.0147
Commercial	0.0262	0.0250
Industrial	0.0262	0.0250
Industrial Estate Special	0.0262	0.0250
Mining	0.0262	0.0250
Agriculture	0.0039	0.0037
Public Service Infrastructure	0.0039	0.0037
State	0.0245	0.0234
Municipal	0.0245	0.0234
State Trust land	0.0195	0.0186
Vacant land	0.0245	0.0234
Place of worship	0.0245	0.0234
Public benefit organisation	0.0039	0.0234

All residential property owners are exempt from paying rates on the first R15,000 value of property. All pensioners, the disabled and medically boarded owners are eligible for the rebates.

28. Interest income - Property rates

Interest received on service charges	2,627,819	2,328,532

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
43. Loss on disposal/scrappings of assets		
Assets at cost	(11,234,471)	(1,833,952)
Accumulated depreciation	4,068,092	1,015,083
Carrying amount	(7,166,379)	(818,869)
Proceeds from sale of assets	1,086,867	-
Loss on disposal/scrappings of assets	(6,079,512)	(818,869)

The loss on disposal or scrapping is due to 2 mayoral vehicles that were sold and the other one written-off by the insurance company. Motor grader was also written off in the 2023 financial year.

The loss on disposal or scrapping of assets is in respect of the assets that were either broken beyond repairs, lost, scrapped, obsolete, donated and written-off by insurer. The following are the circumstances that led to the loss on disposal or scrapping.

Transport Assets: 2 mayoral vehicles were auctioned and the other one written-off by the insurance company. Machinery and Equipment: Motor grader and other machinery and equipment were also written off in the 2023 financial year.

Computer Equipment: majority of computer equipment were lost during the break-in at Sundumbili library.

Land and Buildings: House No 11 Robin place in Erf 339 Mandini Ext 2 were donated to Mrs SA Khumalo by the Mandeni Council.

Community Assets: Palisade fence in Macambini sports field and Sibusisiwe Hall were replaced with Clearview during the financial g year.

Infrastructure assets: various road infrastructure was derecognised during the financial year due to them being rehabilitated or de-constructed.

Intangible assets disposed or scrapped are in respect of computer software no longer used by the municipality.

A total number of 283 properties have been transferred to beneficiaries. These properties which have been transferred to their owners will then be derecognized from the PPE based on market values which has been provided by the Municipal Valuer at R14 000 per unit/ plot.

44. Fair value adjustments

Investment property (Fair value model)	30,180,500	3,576,500
--	------------	-----------

The property valuations have been carried out in terms of GRAP 16 by an Independent Professional Valuer i.e. Umhlaba Geomatics. Market value has been undertaken in accordance with standards laid down by the International Valuations Standards Council.

45. Auditors' remuneration

Fees	2,361,186	1,692,387

- within one year	-	351,093

The municipality leases office space from MM Abrahams for two premises. The first lease for Renckens Super is effective from 1 October 2016 to 30 September 2021, with an annual escalation rate of 8%. The second lease is for Shop 12-13 and it is effective from 1 November 2017 to 31 October 2020, with an annual escalation rate of 9%.

There were no defaults or breaches and no terms or conditions were renegotiated during the reporting period.

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand 2023 2022

48. Contingencies

Contingent assets

Name of entity	Attorney	Rand value 2023	Rand value 2022	Reference
JD Biyela	Matthew Francis Inc.	30,000	30,000	48.1

- 48.1 A dismissed employee referred an unfair dismissal dispute to the South African Bargaining Council and lost the dispute with costs to the favour of the municipality. The award ruled that the dispute was frivolous and vexatious and therefore the applicant is held liable for costs. The matter remains pending at year end.

Contingent liabilities

A contingent liability is a possible obligation, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future event(s) not wholly within the control of the municipality or a present obligation that is not recognised because, the outflow of economic benefits or service potential is not probable or a real present obligation, that may not be recognised, either because the timing or because the measurement is not known.

The following were identified as contingent liabilities stemming from the interaction with municipal lawyers as they could result in possible claims against the municipality:

Name of entity	Attorney	Rand value 2023	Rand value 2022	Reference
Independent Ethiopian Church of SA	TKN Incorporated	500,000	800,000	48.2
The Rate payers Association of Tugela Mouth	TKN Incorporated	300,000	124,818	48.3
MA Mthembu	Ngubane & Associates	-	1,854,353	48.4
TD Nxumalo	TKN Incorporated	295,000	295,000	48.5
S Khoza	TKN Incorporated	124,818	124,818	48.6
Mazibuko/Transnet	TKN Incorporated	500,000	500,000	48.7
AM Sibiya	TKN Incorporated	1,000,000	1,000,000	48.8
Amalunga Nembe & Dendewethu Taxi Association & Others	TKN Incorporated	500,000	500,000	48.9
Inkosi Lindokuhle Prince Ngcobo & Others	TKN Incorporated	500,000	300,000	48.10
MA Mthembu	TKN Incorporated	6,148,212	-	48.11
B Mnyandu	Bhekisisa Goqo & Co	236,530	-	48.12
		10,104,560	5,498,989	

- 48.2 The eviction in Court has been postponed to allow for an application for registration of a servitude which is already under way and Boshoff land surveyors in Ballito have been appointed to prepare diagrams to be used for the registration of Thokoza road servitude with the Master of the High Court in Pietermaritzburg. At year end, the matter was still pending. The matter is set down for 22 November 2023.

- 48.3 Rate Payers Association is demanding that the municipality implements bylaws and control the influx within the Tugela Beach. An interim Court Order was granted in 2019 but the matter is yet to be heard in detail in Court for arguments. The municipality erected some boom gates in line with the Court Order but were damaged and removed by the local community members. The municipality continues to enforce access to the beach but the Ratepayers are continuously complaining and demanding the law enforcement officials to always be present at the beach. The municipality has received a new application lodged by Tugela Mouth Ratepayers association on the same matter and it is still on pleadings stage. A notice of intention to defend the matter was served and also answering affidavit was filled and served, we are awaiting their replying affidavit.

- 48.4 Former Manager Special Programme referred the matter to the SALGBC alleging Unfair Dismissal. The matter launched at the Labour Court. The matter was finalised during the current financial year and no contingent liability exists at year end.

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
48. Contingencies (continued)		
48.5	Attended Court on the 15th of November 2021 at the Regional Court of Empangeni to note judgement. Our application was dismissed with reserved costs pending the finalisation of our Rule 60A application to be heard on the 14th of March 2022. Rule 60A was also dismissed. The matter was heard on 23 September 2022 where the applicant admitted to having incorrectly set the matter down and incorrectly serving the municipality a Notice of set down. Court adjourned the matter sine die (case adjourned with no specific date for resumption) and further granted the municipality wasted costs for the appearance.	
47.6	Attended Court on the 15th of November 2021 at the Regional Court of Empangeni to note judgement. Our application was dismissed with reserved costs pending the finalisation of our Rule 60A application to be heard on the 14th of March 2022. Rule 60A was also dismissed. The municipality has now received a Notice of set down for the 23rd of September 2022. The municipality filed its affidavit of intention to defend the matter and it remains stagnant.	
48.7	Application to demolish all illegal businesses on Thokoza road servitude set down for the 23rd of January 2023. The matter was adjourned to 23 November 2023. The matter remains pending at year end.	
48.8	This matter was set down in March 2022. We then received a Notice to oppose which compelled us to remove it from the roll and await their Answering affidavit. Court days have since lapsed for them to file their answering affidavit. The matter has not been set down again and remains pending at year end.	
48.9	The matter is between the MEC for Transport, Mandeni and Malunga of Nembe Dendethu Taxi Association to evict illegal Taxi Association. The matter is with the Pietermaritzburg High Court. The matter is set down for an appeal on 08 September 2023.	
48.10	Application to join other respondents was granted. Attended to serving the joint respondents with all Court documents. Attending to further serving all respondents with the Court order and Notice of set down. Main application set down for the 23rd of January 2023. The matter was adjourned to 23 November 2023. However, once respondents file their affidavits the municipal attorneys intend to seek a preferential date. The matter remains pending at year end.	
48.11	Notice to remove has been filed because the complaint was served and filed.	
48.12	The matter is at discovery stage and it is ready for pre-trial.	
49. Related parties		
The key management remuneration is disclosed in note 32 - Employee related costs and note - 33 Remuneration of councillors.

2023

2022

50. Risk management

Financial risk management

The municipality's activities expose it to a variety of financial risks: market risk (including fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the municipality's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 30 June 2023	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Payables from exchange transactions	45,373,159	-	-	-
Consumer deposits	216,464	-	-	-
At 30 June 2022	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Payables from exchange transactions	32,491,560	-	-	-
Consumer deposits	269,853	-	-	-

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate owing to changes in market interest rates. The municipality's level of borrowing and consequently the debt servicing costs are closely monitored and controlled by the EXCO having regard to the prevailing and projected interest rates and the municipality's capacity to service such debt from future earnings and allocations however the long-term loan's interest rate is fixed throughout the term of repayment. Balances exposed to the interest rate risk. The municipality's policy is to further manage interest rate risks so that fluctuations in interest rates do not have a material impact on the net surplus/ deficit.

Investments	244,203,556	203,861,901
Cash and cash equivalents	10,321,268	4,119,614
	254,524,824	207,981,515

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

Financial assets exposed to credit risk at year end were as follows:

Trade and other receivables from exchange transactions	20,064,453	11,966,770
--	------------	------------

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

Figures in Rand	2023	2022
51. Fruitless and wasteful expenditure		
Reconciliation of fruitless and wasteful expenditure		
Opening balance	613,998	-
Fruitless and wasteful expenditure current year	324,524	616,579
Condoned or written off by Council for current year	(278,028)	(2,581)
Fruitless and wasteful expenditure at year end	660,494	613,998

Fruitless and wasteful expenditure incurred by the municipality relates to interest charged by suppliers on late payments.

The amount that was written off by Council relates to the interest charged by suppliers on late payments.

52. Irregular expenditure

Opening balance as previously reported	1,624,101	150,000
Prior period adjustment	-	22,500
Opening balance as restated	1,624,101	172,500
Add: Irregular Expenditure - current	13,656,419	14,834,312
Add: Irregular Expenditure - prior period	646,102	-
Less: Amount written off - current	(12,967,876)	(13,210,211)
Less: Amount written off - prior period	(1,624,101)	(172,500)
Closing balance	1,334,645	1,624,101

The prior period adjustment on the irregular expenditure was due to Circular 68 issued by National Treasury requesting that irregular expenditure be disclosed inclusive of VAT.

All the irregular expenditure was investigated by the municipality prior to write off.

53. Unauthorised expenditure

Opening balance	-	-
Add: Expenditure identified - current	6,242,581	-
Closing balance	6,242,581	-

Unauthorised expenditure incurred of R6,242,581 is due to Bulk Purchases which is due to electricity demand by Umngeni Water.

No unauthorised expenditure was incurred in the prior year.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

56. Budget differences

Material differences between budget and actual amounts

The material difference between approved budget and actual result are the consequence of activities during the financial period. The changes between the approved and final budget are due to changes in the overall budget parameters.

Variances of more than 10% are considered material and are explained below:

	Budget	Actual	Variance	% Variance	References
Service charges	44,327,205	61,433,607	17,106,402	39 %	56.1
Property rates	48,880,813	51,761,585	2,880,772	6 %	
Interest earned on property rates	2,831,075	2,627,819	(203,256)	(7)%	
Interest earned on service charges	915,989	1,228,720	312,731	34 %	56.2
Investment revenue	19,200,000	20,010,444	810,444	4 %	
Transfers recognised - operational	223,289,200	221,749,301	(1,539,899)	(1)%	
Transfers recognised - capital	55,425,800	41,510,900	(13,914,900)	(25)%	56.3
Other own revenue	4,879,567	17,538,013	12,658,446	259 %	56.4
	399,749,649	417,860,389	18,110,740		
Employee related costs	(121,829,954)	(116,925,166)	4,904,788	(4)%	
Remuneration of councillors	(14,681,872)	(14,325,359)	356,513	(2)%	
Depreciation and asset impairment	(33,746,817)	(32,535,204)	1,211,613	(4)%	
Finance charges	(3,407,870)	(3,322,630)	85,240	(3)%	
Debt impairment	(35,797,595)	(15,022,247)	20,775,348	(58)%	56.5
Bulk purchases	(39,050,012)	(45,292,594)	(6,242,582)	16 %	56.6
Inventory consumed	(5,093,454)	(4,371,235)	722,219	(14)%	56.7
Other expenditure	(118,145,547)	(78,558,603)	39,586,944	(34)%	
	27,996,528	107,507,351	79,510,823		

- 56.1 During the year under review property usage reconciliation was performed with an intention of linking the correct tariff to a correct property and it was discovered that certain properties needed to be linked for Refuse collection as a result of subdivisions and new discoveries. This then resulted in an increase of refuse collection revenue.
- 56.2 The Electricity Revenue exceeded the budget due to the expansion of Umngeni Water Plant. The plant increased its water generating capacity to circumvent the Hezelmere Dam shortfalls which came as a result of the KZN April 2022 floods which resulted in a serious destruction of the Bulk Water Infrastructure particularly in Ethekwini and the Southern part of KwaDukuza. As expected, the increase in the demand for the generation and subsequent transmission resulted in a rapid increase of electricity consumption. Consequently, the Municipal Electricity Revenue then followed the same upsurge resulting in the over performance of the initially recognised budget.
- 56.3 The actual amount is less than the budgeted amount. This variance is due to Disaster Relief Grant that was received by the municipality in April 2023, conditions of the grant have not been met and grant will rollover to the next financial year as per agreement with transferring department.
- 56.4 The actual amount is more than the budgeted amount. This is due to assets that were donated to the municipality by Enterprise ILEMBE (ECD) towards Mandeni Youth Enterprise.
- 56.5 The actual debt impairment is less than the budgeted amount. The variance is due to the fact that less debt was written off than previously anticipated.
- 56.6 The Electricity Revenue exceeded the budget due to the expansion of Umngeni Water Plant. The plant increased its water generating capacity to circumvent the Hezelmere Dam shortfalls which came as a result of the KZN April 2022 floods which resulted in a serious destruction of the Bulk Water Infrastructure particularly in Ethekwini and the Southern part of KwaDukuza. As expected, the increase in the demand for the generation and subsequent transmission resulted in a rapid increase of electricity consumption. Consequently, the Municipal Electricity Revenue then followed the same upsurge resulting in the over performance of the initially recognised budget.

Mandeni Municipality

Annual Financial Statements for the year ended 30 June 2023

Notes to the Annual Financial Statements

56. Budget differences (continued)

- 56.7 The actual inventory consumed is less than the budgeted amount. This variance is due to less inventory being issued than anticipated.

57. MFMA disclosure on SCM Regulation 45

Supplier name	Employee name	Employee capacity	2023	2022
Sodube Sotobe	NT Sibiya	Public Participation and OSS Officer	39,300	57,893

			4,940,241	3,360,608

58. Events after the reporting date

The Accounting Officer is not aware of any significant events after the reporting date.

59. Impact of COVID-19

At the end of March 2020, the COVID-19 virus was declared a pandemic by the World Health Organisation and by the South African Government. South Africa entered into lockdown on the 26th March 2020. COVID-19 had a significant impact on the amounts as disclosed on the Annual Financial Statements. The affected areas are mainly receivables, cash and cash equivalents and capital spending due to lockdown regulations and the economic impact of COVID-19.

Management has considered the impact of COVID-19 and that there have been no material changes in the use of assets that would require a change in the expected useful life of assets.

No material information has come to the attention of management to suggest that there is a going concern issue due to the pandemic. The Annual Financial Statements for the year ended 30 June 2023 have been prepared under the going concern assumption.

The information below indicates the total COVID-19 expenditure for the 2022 financial year:

National: Equitable share - COVID-19 grant	-	20,015,145
--	---	------------

2023

2022

60. Prior-year adjustments

Presented below are those items contained in the statement of financial position and statement of financial performance that have been affected by prior-year adjustments:

Correction of errors

Construction contracts and contracted services

In the prior year, certain construction contracts income and contracted services were overstated. These income and expenditure items were not recognised correctly in the financial statements. The error was corrected retrospectively.

Receivables from exchange transactions and SALGA levies

In the previous financial years, prepayments of SALGA levies were incorrectly recognised. This resulted in prepayments being understated and SALGA levies being understated. The error was corrected retrospectively.

Receivables from exchange transactions and licences

In the previous year, prepayments relating to licences were incorrectly accounted for. This resulted in prepayments being understated and licences being overstated. The error was corrected retrospectively.

Investment properties and inventory

The municipality has processed a transfer from investment property as there was a change in use evidenced by the commencement of development of low-cost housing with the view of transferring it to the rightful owners (the citizens), which then required the municipality to recognise the properties as inventories until they are transferred to the owners.

The Auditor General further noted that based on the C29 of 2021 Council Resolution the transfer of properties would have started in the prior years and the construction of low-cost housing started long ago. Based on this audit finding the municipality was required to recognise and process the transfer of residential bulk land to inventories in the prior year.

Reclassifications

Certain comparative figures have been reclassified.

Other income and government grants

In the previous year, LGSETA was recognised as government grants instead of other income. This amount was recognised as other income in the current year due to the nature of the income.

Interest income - Service charges, Interest income - Property rates and Property rates - penalties imposed

Interest on service charges and property rates was previously disclosed as property rates - penalties imposed. In the current year the interest is disclosed separately.

Inventory consumed and general expenses

In the previous year inventory consumed was included in general expenses. Due to the nature of the expense the inventory consumed was disclosed separately in the statement of financial performance in the current financial year.

Contracted services and general expenses

Certain general expenses were previously included in contracted services in the previous financial years. Due to the nature of such expenses, they were disclosed as part of general expenses in the current financial year.

Employee benefit obligation

In the prior year, employee benefit obligation was not split between current and non-current portions. In the current year, the reclassification between current and non-current portions was made. The reclassification was made retrospectively.

61. Change in estimate

Property, plant and equipment

In the beginning of the financial year the municipality reviewed remaining useful lives of certain items of Property, Plant and Equipment. The remaining useful lives were re-assessed based at the beginning of the financial year based on the expected useful lives of those assets. The useful lives of property plant and equipment were initially estimated between 10 and 15 years. For property plant and equipment the remaining useful lives were estimated to be between 15 and 20 years. This is considered a change in accounting estimates and the effect is treated respectively;

	Old Estimate	New Estimate	Increase /(Decrease) in Depreciation
Depreciation: Current year	4,966,722	1,214,731	(3,751,991)
Depreciation: Future years	-	3,751,991	3,751,991
	4,966,722	4,966,722	-

Intangible assets

In the beginning of the financial year the municipality reviewed remaining useful lives of certain items of Intangible Assets. The remaining useful lives were re-assessed based at the beginning of the financial year based on the expected useful lives of those assets. The useful lives of Intangible assets were initially estimated at 3 years. For the Intangible Assets the remaining useful lives were estimated to be between 3 and 6 years. This is considered a change in accounting estimates and the effect is treated respectively.

	Old Estimate	New Estimate	Increase /(Decrease) in Depreciation
Depreciation: Current year	65,681	27,292	(38,389)
Depreciation: Future years	65,681	104,070	38,389
	131,362	131,362	-

62. Accounting by principals and agents

The municipality is a party to principal-agent arrangements.

Details of the arrangements

Housing Title Deed grant - Title Deeds

- There is a binding agreement with The Provincial Department of Human Settlements Kwa-Zulu Natal for the title deeds restoration programme;
- Transactions are for the benefit of another entity i.e. benefits are for The Provincial Department of Human Settlements in that the title deed activities undertaken are on behalf of the Department.
- The municipality does not have the power to determine the significant terms and conditions of the transactions.
- The municipality has limited inventory risk and therefore not exposed to the variability in the results of transactions.

USDG Urban Settlement Development Grant

- There is a binding agreement with the Provincial Department of Human Settlements Kwa-Zulu Natal for the development of two rural housing projects within Mandeni for Isithebe and Macambini;
- Transactions are for the benefit of another entity i.e. benefits are for The Provincial Department of Human Settlements in that the urban settlement development undertaken are on behalf of the Department.
- The municipality does not have the power to determine the significant terms and conditions of the transactions as the municipality pays over the USDG to the contractor based on invoiced amounts for work completed by the contractor on each project.
- The municipality has limited inventory risk and therefore not exposed to the variability in the results of transactions.

Entity as agent

Grants received

The municipality does not recognise any revenue in respect of these arrangements. However, grants are provided to the municipality for the execution of the projects.

63. Segment information

General information

Identification of segments

The segments were organised based on the type and nature of service delivered by the Municipality. These services are delivered in various municipal departments, which for reporting purposes are allocated to a standardised functional area (guided by mSCOA regulations). Budgets are prepared for each functional area and the budget versus actual amounts are reported on a monthly basis. Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

Types of goods and/or services by segment

The Municipality has several departments/functional areas and accordingly the segments were aggregated for reporting purposes as set out below:

Reportable segment	Goods and/or services
Executive & Council	Provision of overall governance to other segments of the municipality
Finance & Administration	Provision of financial and administrative services to other segments of the municipality
Planning & Development	Provision of economic development activities in the municipality
Roads & Infrastructure	Construction and maintenance of roads and infrastructure owned by the municipality
Community & Social Services	Construction and maintenance of halls, cemeteries owned by the municipality
Energy Sources	Provision of energy and electrical services to the community
Waste management	Provision of waste management services to the community
Public Safety	Provision of pound services and public safety to the community

Reporting on segment assets and liabilities

The Municipality has assessed that assets and liabilities associated with each segment is not used by management for decision making purposes, and neither is it being reported on. Assets and liabilities are utilised by management to assess key financial indicators for the Municipality as a whole. Accordingly, the assets and liabilities per segment are not required to be disclosed.

Information about geographical areas

Although the Municipality operates in a number of geographical areas (i.e.wards), the geographical information is not considered relevant to management for decision-making. The goods and services provided to the community throughout the entire municipal area are based on similar tariffs and service standards. Therefore, the Municipality has assessed that it operates in a single geographical area.

Measurement of specific segment information

The accounting policies of the respective segments are the same as those prescribed in the summary of significant accounting policies.

The Municipality had no changes to the structure of its internal organisation in a manner that caused the composition of its reportable segments to change from the prior year.

64. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

CONCLUSION

The Mandeni wishes to reinforce its commitment and dedication in ensuring the service delivery and changing the lives of the people within our municipality. This report clearly demonstrates the commitment of the municipality to ensure that the local community have access to their basic needs.

Investment in capital and social infrastructure remains a clear focus area when projects are identified in the IDP. This report to Council and the local community demonstrates the ability

of them Mandeni Municipality to adapt to the ever-changing social needs of the local community. The above the norm budget spent of 100% on capital infrastructure clearly indicates that the municipality has solid and establishment project management systems in place. Improving on those, will be the focus from now on.

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give “ <i>full and regular</i> ” reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe “ <i>what we do</i> ”.
Adequacy Indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic Municipal Service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.

Budget Year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost Indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution Indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its

	plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.
Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also

	be included.
Vote:	<p>One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area.</p> <p>Section 1 of the MFMA defines a “vote” as:</p> <p><i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and</i></p> <p><i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i></p>
