PART 1. LEGAL COMPLIANCE

The municipality shall at all times manage its banking arrangements and investments and conduct its cash management policy in compliance with the provisions of and any further prescriptions made by the Minister of Finance in terms of the Municipal Finance Management Act No. 56 of 2003 and the regulations issued in terms of that Act.

A paraphrase of the provisions of this Act is attached as Annexure I to this policy, and a paraphrase of the draft regulations as Annexure II.

PART 2. OBJECTIVE OF INVESTMENT POLICY

The council of the municipality is the trustee of the public revenues which it collects, and it therefore has an obligation to the community to ensure that the municipality's cash resources are managed effectively and efficiently.

The council therefore has a responsibility to invest these public revenues knowledgeably and judiciously, and must be able to account fully to the community in regard to such investments.

The investment policy of the municipality is therefore aimed at gaining the optimal return on investments, without incurring undue risks, during those periods when cash revenues are not needed for capital or operational purposes. The effectiveness of the investment policy is dependent on the accuracy of the municipality's cash management programme, which must identify the amounts surplus to the municipality's needs, as well as the time when and period for which such revenues are surplus.

PART 3. EFFECTIVE CASH MANAGEMENT

3.1 Cash Collection

The Municipal Manager shall take all reasonable steps to ensure that all monies due the Municipality are collected either on or as soon as possible after the due date.

Monies collected and receipted must be banked intact not later than the following working day

3.2 Payments to Creditors

The Accounting officer must endeavor to pay all commitments within 30 days of receipt of the invoice.

The Accounting officer must ensure that all benefits available for early payments are received.

The Accounting officer must ensure that all payments comply with the relevant policies of council (e.g. SCM, entertainment, staff policies).

3.3 Cash Management Programme

The Accounting officer shall endeavor to control expenditure in accordance with the SDBIP as regulated by the MFMA.

The Accounting officer must report material differences in the SDBIP to the mayor.

Should the Accounting Officer consider the difference to materially affect the budget, the Accounting officer shall table a report to EXCO.

PART 4. INVESTMENT ETHICS

The Accounting officer shall be responsible for investing the surplus revenues of the municipality, and shall manage such investments in compliance with any prescriptions made by the Minister of Finance.

The accounting officer shall appoint an investment committee of not more than three members, one of which shall be the chief financial officer to assist him/her in the investment of surplus funds.

In making such investments the members of the investment committee shall at all times have only the best considerations of the municipality in mind, and shall not accede to any influence or interference

The members of the investment committee may not accept any gift, other than an item having such negligible value that it cannot possibly be construed as anything other than a token of goodwill by the donor, from any investment agent or institution or any party with which the municipality has made or may potentially make an investment.

PART 5. INVESTMENT PRINCIPLES

5.1 Limiting Exposure

Where large sums of money are available for investment the Accounting officer shall ensure that they are invested with more than one institution, wherever practicable, in order to limit the risk exposure of the municipality.

5.2 Risk and Return

Although the objective of the Accounting officer in making investments on behalf of the municipality shall always be to obtain the best interest rate on offer, this consideration must be tempered by the degree of risk involved in regard to both the financial institution and the investment instrument concerned. No investment shall be made with an institution where the degree of risk is perceived to be higher than the average risk associated with investment institutions. Deposits shall be made only with registered deposit-taking institutions (see 5.6 below).

5.3 Types of Investments

In making investments the accounting officer shall ensure that only one or more of the investment types set out in Regulation 6 to the Act are selected.

5.4 Acceptable Investing Institutions

In making investments the Accounting officer shall further ensure that such investments are made only with one or more of the investing institutions set out in Regulation 6 to the Act.

5.5 Payment of Commission

Every financial institution with which the municipality makes an investment must issue a certificate (at the end of each financial year) to the Accounting officer in regard to such investment, stating that such financial institution has not paid and will not pay any commission and has not and will not grant any other benefit to any party for obtaining such investment.

5.6 Call Deposits and Fixed Deposits

Before making any call or fixed deposits, the Accounting officer, shall obtain quotations from at least three financial institutions.

Given the volatility of the money market, the Accounting officer, shall, whenever necessary, request quotations telephonically, and shall record in an appropriate register the name of the institution, the name of the person contacted, and the relevant terms and rates offered by such institution, as well as any other information which may be relevant (for example, whether the interest is payable monthly or only on maturity, and so forth).

Once the best investment terms have been identified, written confirmation of the telephonic quotation must be immediately obtained (by facsimile, e-mail or any other expedient means).

Any monies paid over to the investing institution in terms of the agreed investment (other than monies paid over in terms of part 7 below) shall be paid over only to such institution itself and not to any agent or third party.

Once the investment has been made, the chief financial officer shall ensure that the municipality receives a properly documented receipt or certificate for such investment, issued by the institution concerned in the name of the municipality.

PART 6. CONTROL OVER INVESTMENTS

The Accounting officer shall ensure that proper records are kept of all investments made by the municipality. Such records shall indicate the date on which the investment is made, the institution with which the monies are invested, the amount of the investment, the interest rate applicable, and the maturity date. If the investment is liquidated at a date other than the maturity date, such date shall be indicated.

The Accounting officer shall ensure that all interest and capital properly due to the municipality are timeously received, and shall take appropriate steps or cause such appropriate steps to be taken if interest or capital is not fully or timeously received.

The Accounting officer shall ensure that all investment documents and certificates are properly secured in a fireproof safe with segregated control over the access to such safe, or are otherwise lodged for safekeeping with the municipality's bankers or attorneys.

PART 7. OTHER EXTERNAL INVESTMENTS

From time to time it may be in the best interests of the municipality to make longer-term investments in secure stock issued by the national government, Eskom or any other reputable parastatal or institution, or by another reputable municipality. In such cases the Accounting officer must be guided by the best rates of interest pertaining to the specific type of investment which the municipality requires, and to the best and most secure instrument available at the time.

No investment with a tenure exceeding twelve months shall be made without the prior approval of the council, and without guidance having been sought from the

municipality's bankers or other credible investment advisers on the security and financial implications of the investment concerned. If an investment adviser is engaged for this purpose, the Accounting officer shall ensure that such adviser has the credentials specified for the "investment manager" in Regulation I to the Act.

PART 8. BANKING ARRANGEMENTS

The accounting officer must ensure that the awarding and management of the municipality's banking account shall be in accordance with the relevant council policies and legislation.

PART 9. RAISING OF DEBT

All debt shall be raised in strict compliance with the requirements of the Municipal Finance Management Act 2003

PART 10. INTEREST ON INVESTMENTS

The interest accrued on all the municipality's investments shall, in compliance with the requirements of generally accepted municipal accounting practice, be recorded in the first instance in the municipality's operating account as ordinary operating revenues and thereafter be accounted for in terms of the stipulations of MFMA, Gamap and GRAP.
